

JOHN DEERE IMPLEMENTS

MORE FLESH AND BETTER FRESH

On All Live Stock
Fed From
Fleury-Ground Feed

More Grain and
Higher Grade if
Cleaned by a
Fosston Automatic

No. 3—Rapid Easy Grinder

Is only one of many sizes. They are built to meet all requirements with 8, 10, 11, 12 or 13-inch plates operated by rod or belt drive.

For quality of work, ease of operation, capacity and lasting qualities, they are unsurpassed. Baggers can be supplied to fit all these mills.

**PROFIT IN LIVE STOCK
MORE THAN ANYTHING ELSE IS MADE
FROM THE
CONDITION AND COST OF THE
FEED**

Fosston Grain Cleaner

Do not give the elevator a part of your crop for nothing. Clean it before you take it into market and use the screenings.

The American Fosston Automatic will clean and grade wheat, oats, barley, flax and all kinds of grain. It is equipped with a patented feed device. The operator can reach and adjust it without stopping the machine. The flow of grain on the sieves is evenly distributed, enabling the machine to work its full capacity. Good work has made this mill famous, the leader of all grain cleaners.

Good Luck Horse Power with Grinder Attachment

This is one of the most profitable and convenient articles for farm use. A Horse Power and Grinder combined. It can be used to grind all kinds of small grain with its own grinder attachment, or the hopper and grinder head can be easily removed and the horse power used for operating other farm machines.

A postcard will bring you our "Farmer's Catalogue." The most complete of its kind ever published.

No. 6—Roller Crusher

Heavy, strong and simple in construction. Equipped with corrugated rollers operated on the same principle as the rollers in a modern grist mill. They will crush an immense amount of grain with very little power. Built with two or three rollers. For very fine work the three roll machine is preferable.

**WITH A "FLEURY GRINDER"
THE FEEDING VALUE OF YOUR
GRAIN WILL BE INCREASED 20%**

No. 3—Straw Cutter

We have a straw cutter to suit every possible requirement from the small 8-inch feed Hand Lever cutter to the large Ensilage machine, cutting and elevating from seven to fifteen tons of corn per hour. Straw cutters operated by hand, rod or belt drive, with 8, 10, 12 and 14-inch feed. Send for catalogue describing this line.
