

YOU MIGHT AS WELL GO HUNTING WITHOUT A GUN

As to try to grow much fruit without a

Spramotor.

Awarded Ten Diplomas, Three Medals, and the Government Contest within a year.

It's all very well to be a good second or third in a contest, but the Winner's the thing, especially when it costs less than the rest. Secure a **SPRAMOTOR** and spray your trees & plants, and reduce the cost of production **OWN HALF**. You're safe with a Spramotor. It will paint your barns and whitewash the landscape.

Fruitland, Jan. 28th, 1898.

W. H. Heard, Esq., Spramotor Co., London, Ont.
Dear Sir,—Another year's experience with your Spramotor pump confirms our high opinion of them. The fourteen that we got from you in the spring of '97 for the experimental work carried on by the Department of Agriculture for Ontario worked splendidly. They were all sold at the place where the work was done, and we will require fourteen more for this season's work.

Yours very truly,
W. M. ORR, Superintendent.

JOHN SMITH, Brampton.

GOSSIP.

The date of the Toronto Industrial Exhibition for this year has been fixed for August 29th to September 10th, being the same two weeks as last year.

The eggs from various desirable breeds: also pigeons and collies, advertised in this issue by W. Wright, Cobourg, Ont., should interest many readers. Look up his advertisement.

The Bath and West of England Show for 1898 will be held at Cardiff, May 25th to 30th. The Royal Agricultural Society's Show will be held at Birmingham, June 18th to 24th, and the Highland Society's Show at Kelso, July 5th to 8th.

Mongrel fowls are like mongrel stock of any other kind—generally scrubby and unprofitable. Why not have pure-breds from good strains when they can be so easily and cheaply secured from the pens of Miss P. J. Caldwell, Constance, Ont. See advertisement.

The Clydesdale stallion, Hurworth (5086), advertised for sale by Francis Russell, Cedarville, Ont., in this issue, was bred by Robert Callings, Darlington, Eng. He was sired by David (1634), Vol. IV., and out of Aggie (2063), Vol. VI. Hurworth is brown, has white on face and three white legs.

Harry Smith, Hay, Ontario, writes:—"The young bulls I am offering just now are an unusually good lot: two of them are roans from first class Scotch-bred cows, and got by the Cruickshank bull, Abbottsford—1946—, I am also offering a very promising son of the crack show bull, Catthness 22065, that I selected from the Maple Lodge herd for my own use, but that I do not need now. I thought this a better calf than the one from the same herd that won first prize at Toronto last fall."

BETTER SHIPPING RATES FOR REGISTERED STOCK.

At a meeting of the Joint Railroad Tariff Committee held in Toronto last week, composed of representatives from each road doing business in Ontario, it is understood that an agreement was arrived at by which pure bred cattle, sheep and swine may hereafter be shipped over Canadian railroads at one-half the rate charged for grade animals of the same sort, and that the Chairman of the Board was authorized to issue a circular embodying the agreement.

SHIPMENTS OF STOCK.

A carload of pure-bred stock was shipped from Guelph on March 8th, under the auspices of the breeders' associations, consigned to Calgary and Edmonton. The car contained twenty-one head, composed of Shorthorns, Herefords and Ayrshires, two Berkshire pigs and a Cotswold ram. This is the fourth car sent out this year under the terms secured by the associations, and two or three more are to follow in the near future. Those having pedigree stock sold to go west or east should correspond with the Secretary, F. W. Hodson, Parliament Buildings, Toronto, for instructions as to shipping.

TROTTERING AND PACING STAKES.

The Industrial Exhibition Association of Toronto offer \$3,000 in stakes for trotting and pacing at their next exhibition to be held at Toronto, commencing on the 30th August next. The purses will be \$500 for each class for two and three year old trotters and pacers—three-minute class trotters and 2:50 class pacers. All entries must be made to H. J. Hill, the secretary of the exhibition, at Toronto, on or before the 30th day of March, from whom forms of entry, conditions, etc., can be obtained.

A GOOD SALE OF SHORTHORNS.

The dispersion sale of Shorthorns, Clydesdales and Shropshires at Sunnyside, the home of Mr. James Hunter, Alma, Ont., on March 9th, was very largely attended by stockmen from Ontario, Manitoba and U.S., there being, it is estimated, about 2,000 people present. The cattle were in good flesh, though looking a little dry in their hair, and the prices on the whole may be regarded as very satisfactory, considering that there were no young calves in sight and few of the cows coming due to calve within the next three months, which gave the impression that they were shy breeders, but which was accounted for by the fact that the last season had in that section been one in which the cows had returned frequently, with the result that they were thrown late for calving this year. The young bulls sold remarkably well, ranging from \$75 to \$150. The four-year-old stock bull, Bridgemoor, went to Capt. Milloy, Paris, Ont., at \$120, and was considered a good bargain. The ten-year-old imported Clydesdale stallion, Master Lyndoch, was purchased by his groom for \$650, and is understood will make the season in the district where he is owned, and where he has proved a very satisfactory sire. His one-year-old son, King of Sunnyside, brought \$150, and mares from \$150 to \$250 each. The Shropshire sheep also brought good prices, and the sale totalled close to \$6,000.

AN IMPORTANT INDUSTRY.

Twenty-five or thirty years ago paint was made in a very crude way and consisted mainly of grinding white lead and colors in oil—the mixing, or preparing for use, being done by the consumer. Today it is different. The best paint is now made ready for the brush. Much of this improvement and advancement is due to the Sherwin-Williams Co., who are claimed to be the largest manufacturers of paint in the world. This company has a plant—the largest of the kind in existence—at Cleveland, Ohio, exceeding nine acres of floor space. Many thousands of gallons of paint ready to use is delivered out every day. Besides the Cleveland plant the Company have their own factories at Chicago, and Montreal, Canada, also branch houses at New York and Boston. The Sherwin-Williams paints are used by the principal railways and steamship companies in the United States and Canada. There is scarcely a town or village in either country where it may not be obtained. Fifty travellers are constantly on the road, covering every point of the continent in the interests of the extensive business, which was built up from small beginnings, and its great success is due largely to the fact that from the start the proprietors have never allowed more than one quality—the best they could make—to go out under their label. See their advertisement in this issue.

Hampshire Down Sheep.

Splendid mutton, good wool, great weight. This highly valuable

ENGLISH BREED OF SHEEP

is unrivaled in its rapid and

WONDERFULLY EARLY MATURITY,

Possessing, too, a hardiness of constitution adapted to all climates, whilst in the quality of

MUTTON AND LARGE PROPORTION OF LEAN MEAT, IT IS UNSURPASSED.

At the great Smithfield Club Show in London, December, 1896, Hampshire Downs exceeded any other breed in the number of entries. The live weight of the 22 pens of wether lambs exhibited (3 to a pen) averaged no less than 197 lbs. per lamb at 10½ months old, and a pen of these lambs stood reserve for the championship plate for the best short-wooled sheep in the show, against wethers 2½ months old. A Hampshire Down also took first prize in the dead carcass competition against all other short-wooled breeds. —om

To Farmers, Stock Dealers and Wool Growers:

FOR SHEEP, CATTLE AND HORSES.

Leicestershire Tick and Vermin Destroyer

It effectually destroys Ticks, Lice, Worms or Grub, to which sheep, horses and cattle are subject, and enables the animals to thrive. It will be found far superior to other preparations used for the similar purpose. The proprietors will guarantee perfect success when used according to directions, as will be found on each box. It prevents scurf and scab, and renders the wool bright and clean. It is put up in tin boxes, price 30 cents each. One box is sufficient for twenty ordinary sized sheep. It only requires to be tried to prove itself all that is claimed for it. Sold by druggists and grocers. Manufactured by G. C. BRIGGS & SON, 31 King St. West, Hamilton, Ont. —om

ADVERTISE IN THE ADVOCATE
