

TUBERCULOSIS IN CATTLE IMPORTANT TO FARMERS.

The following letter is sent by the Department of Agriculture at Ottawa to persons desirous of having their cattle tested for Tuberculosis, and sets forth the conditions under which the Dominion Government undertake to apply the Tuberculin Test FREE OF CHARGE.

DOMINION OF CANADA. DEPARTMENT OF AGRICULTURE. OTTAWA.....1922.

DEAR SIR, In response to your letter of the... I beg to say that the following are the conditions upon which the Department applies the Tuberculin test to cattle: When a person in his application to the Department to have his cattle tested for the purpose of ascertaining whether any of them are affected with Tuberculosis, a Government Inspector is sent to test, and all expenses in connection with this are paid by the Department. The owner is not to accept all responsibility for the result of the test. The Government do not order the slaughter of diseased animals. No compensation will be given in cases where owners elect to have their own free will. If any of the animals are found to be suffering from the disease, which they are kept will be quarantined. The owner will be prohibited from selling any of them or their raw products. Should he desire of a sow free will to slaughter them and dispose of their carcasses for food he will have to consult the local authorities as to whether he will be allowed to sell them. The premises in which diseased animals have been must be cleaned and disinfected to the satisfaction of the Government Inspector, as recommended on page 11 of the Farmer's Bulletin on Tuberculosis, a copy of which I enclose you. The premises in which the diseased cattle have been quarantined will also have to be disinfected and cleaned, as mentioned above, after the animals have been disposed of. When the Minister of Agriculture receives a certificate from the Inspector that the disinfection has been done to his satisfaction the premises will be released from quarantine. No application will be considered unless the owner agrees to submit all his cattle to the test.

If an applicant refuses to have his cattle tested after having made formal application, he will be charged with and will have to pay whatever expenses may have been incurred by the Department in connection with the sending of a Veterinarian to make the test.

Upon your signing and returning to us the attached form of request a Government Inspector will be sent to test your cattle. Yours truly, W. B. DEARTH, Deputy Minister of Agriculture.

To the Honorable the Minister of Agriculture for Canada, Ottawa, Ontario: I hereby request that my entire herd of cattle, consisting of—

- Bulls, Cows, Steers, Heifers, Calves.

be tested for Tuberculosis with Tuberculin, and I hereby agree to conform to the Government conditions as expressed in their letter dated... which I acknowledge having received. The nearest railway station to my premises is... on the line of the... Railway Company, and if I am notified when the Inspector will arrive at the station I will meet him and drive him to my premises and, when the testing of my animals is completed, will drive him back to the station free of charge.

IMPORTANT TRUTH FOR STOCK RAISERS. LUMP JAW has been transformed from an incurable to an easily curable disease. The entire credit for this wonderful result is due to Fleming's Lump Jaw Cure. When this remedy was discovered no other real cure was known. No other positive cure is yet known. FLEMING'S CURE was first introduced in Saskatchewan, and from there its reputation has spread over the entire continent. It is the only remedy endorsed by leading ranchers, shippers, and stock journals. It is positively guaranteed; money is returned if it fails. One bottle usually cures one to five cases. Like all other articles of exceptional merit, it is imitated in external respects, but these imitations wholly lack the distinctive qualities of the genuine. RAPID-EASY GRINDERS

WORK IN GREATEST QUANTITY, OF BEST QUALITY, WITH LEAST POWER. Mr. CHARLES TAYLOR, Seabright, Dec. 23rd, 1898: "A testimonial is something I always refrain from giving. In this case I think the FLEURY GRINDER worthy of it. It has given good satisfaction to EVERY ONE who has brought grain to be chopped. I have put through FORTY BAGS in ONE HOUR; and with ONE SET OF PLATES I have put through TWELVE HUNDRED BAGS, and the same plates are still doing good work. For a grinder with one set of plates I am prepared to back it up against any other machine made in the Dominion in QUANTITY and FIRST-CLASS WORK." Mr. JOHN BELLAMY, Winfield, Ont., Jan., 1898: "The Grinder I bought from your agent, Mr. John McKay, of Moorefield, is a 'Dandy.' I must say that it is the BEST Grinder I have EVER seen. I can grind from TWENTY-FIVE TO THIRTY bags of grain EVERY HOUR in the day, and do IT RIGHT, and with 50 LBS. OF STEAM on my engine." We shall be pleased to have you write us. J.
