Barred Plymouth Rockeggs and cockerels are offered in this issue by ${\rm F,\,J,\,Quinn.}$

offered in this issue by F. J. Quinn.

Dunham. Fletcher & Coleman, Wayne, Du Page Co., Ill., write us on March 22, 1901; "We would be pleased to have you make notice of the arrival at Oaklawn Farm, Wayne, Illinois, February 1st, of our first importation from France for 1901. This consisted of 35 Percheron stallions, all of choice breeding and great individual merit. A safe trip across the Atlantic and a 30 hours' run by express from New York, in express palace stock cars, landed them at Wayne without much fatigue, and now, fully rested, they are in prime condition for the coming breeding season. In connection we would rested, they are in prime condition for the coming breeding season. In connection we would remark that, although we have a continuous brisk trade, showing a strong demand for breeding stallions of extra quality, yet our frequent large importations have so provided us that we are well supplied, and our present stock on hand, both in numbers and quality, is positively unrivalled."

unrivalled."

Messrs. R. Reid & Co., breeders of Ayrshire cattle, Large English Berkshire and Tamworth swine, Hintonburg, Ont., near Ottawa, in renewing their yearly advertisement, write: "Our stock, both eattle and hogs, are wintering well. We are sold out of bulls fit for service, but have five calves from three weeks to four months old, sired by our stock bull, Duke of York 2nd timp. 2001, first-prize yearling, Toronto, 188; his dam, Clara 3rd of Balnoweart (imp.) 3381, a Royaland Highland Society winner, who has a record of 62 lbs, a day. They are a very promising lot. Our herd now numbers about 40 head. We have 18 cows and 8 two-year-olds coming in this spring. Lady Maggie 6013 and Silva 904, both winners of honors several times, are just fresh, winners of honors several times, are just fresh, and are large-sized cows, with good teats, Our Berkshire and Tamworth sows are coming in with tine strong litters. We have a good Our Berkshire and Tamworth sows are coming in with fine strong litters. We have a good selection of both Berks and Tams nearly ready to ship. Our Tamworth stock boars are: Amber King 976, winner of first at Ottawa Exhibition, 188, under 6 months. 1899 as a yearling, 1900 as aged; Amber Prince 1895, winner first, 1899, under 6 months. 1900 as yearling, same fair. aged; Amber Prince 1305, winner first, 1819, under 6 months, 1900 as yearling, same fair. We are using Montague 1809 on our young sows. They are all good, long, smooth pigs of real bacon type. Our sows are an extra good lot, several of them having won in strong competition, our herd of Tams having won first herd prize at Ottawa both 1899-1900. We have a fine selection of Berkshire sows, including Spanish Queen 6353, winner first at Ottawa last fall. We are using a boar bred by Snell & Lyons, and the stock boar on Experimental Farm, so can furnish pairs not akin. Maple Cliff Farm joins the Experimental Farm at Ottawa."

A P. E. ISLAND DISPERSION SALE.

A.P. E. ISLAND DISPERSION SALE.

Elsewhere in this issue appears the advertisement of a dispersion auction sale, fixed for May 1st, of high-class Shorthorn cattle and Clydesdale horses belonging to Messes, F. G. Bovyer, Georgetown, P. E. L. and Franklin Bovyer, Charlottetown, P. E. L. Mr. F. G. Bovyer's Shorthorns are well known to be richly bred, most of them being members of favorite Scotch families, and his herd has been very successful in prizewinning at Provincial exhibitions, having won the first herd prize and championship for best bull of the breed, any age, at St. John and Halifax more (fian once. The Clydesdales are said to be a real good class, and should attract attention at this time when good horses are so much in demand. Parties interested will do well to read the advertisement and send for the catalogue. advertisement and send for the catalogue.

PERMANENT SITE FOR THE ROYAL SHOW. PERMANENT SITE FOR THE ROYAL SHOW. The Special Show Committee of the Royal Agricultural Society, appointed to select a site in the neighborhood of London for a permanent showyard, have reported that the only one that complied with the Society's requirements was one at Twyford Abbey, between Willesden Junction and Ealing, about seven miles from the Marble Arch. The Committee were unanimously of opinion that this site was admirably adapted as a permanent showyard for the Society. A sub-committee of members of the Special Committee resident in or near London Special Committee resident in or near London was appointed by the Council, with power to enter into negotiations with any purchaser of the site as to the terms on which the Society could rent about one hundred acres of the site for the purposes of a permanent showyard.

TUBERCULIN-TESTING VETERINARIANS.

TUBERCULIN-TESTING VETERINARIANS.

The Dominion Minister of Agriculture, Hon, Sydney Fisher, has appointed Dr. J. G. Rutherford, ex-M.P., of Portage la Prairie, Manitoba, an experienced veterinarian, to administer the tuberculin test in Great Britain to cattle imported to Canada for breeding purposes, and, as indicated in Mr. Fisher's manifesto, published in our last issue, this officer's certificate will be accepted by the United States Department for cattle going through to the United States, without further test here or at the frontier. The Minister has also appointed Dr. William Stubbs, of Caledon, ex-M. P. for Cardwell Co., Ont., to be stationed at Toronto for the purpose of testing cattle for export. Mr. Stubbs is also a qualified veterinary surgeon. At the present date no official announcement has been made of the appointment of other officers at other points the appointment of other officers at other points for this purpose, though we judge it is probable that others will be appointed in the near future.

NOTICES.

Cement Harder than Stone. The work of Cement Harder than Stone.—The work of tearing down some of the abutinent walls at lock No. 25, new canal, is now going on. The Government is doing this by day work. Mr. Geo. Seals, of Niagara Falls, is the foreman in charge. These walls were built during the construction of the canal, about 25 years ago, with Battle's Thorold Cement, and during the week dynamite had to be used to separate the stone. Workmen employed there say the cement has actually set harder than the stone. If cland Telegraph.

Queenston Cement Going. - Mr. Isaac received Cement Going. — Mr. Isaac etc. of Queenston, Ont., during a recent of our office, wished us to say to our read-mat those who want Queenston hydraulic of this season should order early, as the rank is far in excess of any other year at season. Already several thousand barrels once deement has been shipped out, and to are increasing daily. The output for tason will be 500 barrels per day, but Mr. it estimates that 800 barrels per day but Mr. it estimates that 800 barrels per day.

AFTER EFFECTS OF GRIP

Are Often More Serious Than the Grip Itself.

Physicians and grip sufferers alike are agreed that the after-effects of the disease are more to be feared than the acute attack; you can never be sure that the disease has left the system completely. La Grippe naturally attacks the weakest organ, and leaves it still weaker.

Not only pheumonia, consumption, bronchitis and throat trouble follow the grip, but kidney, liver and stomach troubles are just as liable to result, provided any of these organs should happen to be in a weak condition at the time of attack.

To get rid of the grip germ, to get it entirely out of the system and blood, few remedies are so good and none safer than Stuart's Catarrh Tablets. They are not a compound of powerful and dangerous and none safer than Stuart's Catarrh Tablets. They are not a compound of powerful and dangerous drugs, but a pleasant, palatable, convenient remedy in tablet form, composed of the wholesome antiseptic principles of Eucalyptus bark, bloodroot, and similar geruncide remedies which are perfectly wholesome and harmless to the system, but death to the werms of grin, extartly convention with

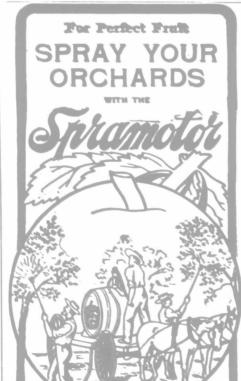

whole-some and harmless to the system, but death to
the germs of grip, catarrh, consumption and diseases
of the throat and air passages.

Mrs. Chas. Goirnley, of Memphis, says: "Last
winter an attack of the grip left me with weak back,
a persistent cough, and loss of flesh and appetite, and
after using various remedies for several months, with
little or no improvement, I finally bought a 50 cent
package of Stuart's Catarrh Tablets at my drug
store, and as they were pleasant and convenient to
take, I used them at all times of day or night, and I
was astonished to secure such fine results from so
pleasant and convenient a medicine. In two weeks
my cough disappeared, my appetite returned. I
improved in flesh and color, and no one would now
think that I had ever had such a thing as the grip.
My druggist told me he had sold more of Stuart's
Catarrh Tablets, for the cure of grip, colds, and
catarrh, than any other similar medicines —Advt.on

An Illinois farmer said that after harvest he had fully 200 bushels of hoose oats on the ground that he could not secure any henefit from, because the fence around the field would not turn hogs. Figure the loss for yourself, He also said, all this would have been saved if he had used the Kitselman Woven Wire Coiled Spring Fence, and the value would have gone a long ways towards paying cost of the fence. With the Dunloy MacCine. would have gone a top lower specific to the fence. With the Duplex Machine any farmer can make it himself at the actual cost of the wire. Catalogue free for the asking. G. C. DAVIS & CO. Rox C-116 Freeman, Ont.

Intelligent and timely Spraying will make your orchard profitable. The Spraxiotor is the result of careful experiment and is kept right up to date. Met the world in open competition on the invitation of the Ontario Government and won the award.—This should mean something to you. The Spramotor has never been defeated.—All castings solid brass, cylinders made from drawn brass tubes. All parts interchangeable. Saves fifty per cent. in labor. Most economical because solution goes farthest and most effective because it throws anything from a misty cause it throws anything from a misty spray to a solid stream. Will also whitewash or paint your buildings. Free treatise for your address,
