

Great Tornado in Clark Co., Illinois.

The amount of tea raised in China annually is 2,300,000,000 pounds, of which Great Britain consumes 55,000,000 pounds.

The storm originated in Missouri and crossed over to the Illinois side several miles below St. Louis. In Waterloo, Monroe Co., a brick house was blown down, as well as four or five other houses, together with large quantities of timber and orchards. The storm next passed over the farm of Frederick Merrill, where it was terrific beyond description destroying everything within its

The bells of the churches in Homer and Cortland N. Y., were tolled on account of the passage of the Nebraska bill.

A French physician writes that he has cured hydrophobia by the vapor bath heated to 170 degrees of Fahrenheit.

It appears that the conveyance alone of every British soldier to the seat of war costs about £100.

A project for lighting the city of Mexico with gas is about being commenced, and will be followed by other cities of the Republic.

many years Miss M. considers Mr. Du Barry's Food a most invaluable article of diet for invalids, being highly nutritious, strengthening, and restorative, and she will feel great pleasure in recommending it to her friends. What invalids most require is a CERTAINTY that the article recommended to them is capable of affording relief; that they will not have again to undergo (as they have so often done) the bitter process of trial and disappointment. This certainty they now possess, and it is no extravagance to express our confidence that it will prove the harbinger of glad tidings to millions. For further particulars we refer our readers to Messrs. Du Barry's advertisement in our to-days' columns.

At Carleton, on the 20th inst., by the Rev. R. Knapp, Mr. Henry A. BURNHAM, of Eastport, Me., to Miss Catherine McDONALD, of St. John, N. B.
