The weather in Britain is generally favorable to the growing crops. The crops in Ireland are luxuriant.

The Derbyite party in the British Parliament had resolved to make a determined opposition to the government of India bill. In the course of the debate, Macaulay, the historian, although in delicate health, addressed the House. The Liverpool Mercury says that "in a long and succeeded in saving Powers, but the other two succeeded in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions they were recommended in saving Powers, but the other two says during the week presions effective speech, worthy of his brilliant reputation

This measure had been presented to the chambers some weeks back, by General Lamarmora, minister of war, in order to place the army in a position to be prepared for all eventualities. The formation of an Austrian camp in the Ticino has hastened the execution of the step agreed to by the chambers. It is asserted that Austria will give way before the military attitude of Switzerland and Piedmont.

RESTIGOUCHE.-A Correspondent in Dalhouse, writing to us by Friav's mail, communicates the following distressing intelligence :-Last night, (Wednesday, 6th) a most destructive fire was discovered on the premises of Charles Simonds, Esq., in Dalhousie, a barn and a valuable horse, carriage, &c., were totally consumed. The fire communicated to the dwelling house which shortly met a similar fate, affording time only to save a few articles in the lower part.—
This was the nestest edifice in the Town of Dalhousie: and the loss to Mr. Simonds must be very great. A two story store of William Hamilton's was also burnt down, in which there were over 1500 bushels of Oats, besides upwards of 40 tags of coals. WESLEYAN ACADEMY.

Mount Allison, Sackville, N. B. Principal.—The Rev. Humphrey Pickard, A. M. Caplain.—The Rev. Albert Desbusat, Treasurer.—Charles F. Allison, Eq. Steward.—Mr. Thompson Trueman.

THIS Institution will continue to be conducted upon I the same principles which have rendered it so generally popular, and secured for it such extensive patronage from almost every part of these Provinces. It has now been opened and in successive operation ten years. The arrangements which were made to accomplish the important object for which it had been founded, were such as obtained for it, from its very commencement, a high position in the public estimation; and those upon whom the direction of its affairs has devolved, have been stimulated and encouraged by its prosperity, to continued efforts to render it, in all its departments, ever increasingly efficient. Every year in its history has consequently, been marked by valuable additions to its Educational facilities, and by more or less extensive general improvements throughout the Establishment. The attention of Young Men, and of Parents and guardians of youth, is, therefore, respectfully invited to it, as an institutiou where the advantages of a thorough intellectual training may be obtained in safety and comfort and under most favorable circumstances.
