

THE Handbook of Nature Study

By ANNA BOTSFORD COMSTOCK.

Is the one internationally recommended book for the School and Teacher in Nature Study work.

It is written as a guide to the trained and untrained teacher. Its 234 lessons take up the following studies: birds, insects, animals, reptiles, plants, flowers, trees, brook, earth and sky. Nine hundred pages of inspiration.

THE HANDBOOK OF NATURE STUDY is used in hundreds of Canadian schools. It has been adopted by the *State Textbook Commission of Utah*. It is on the recommended library list in *New York, Texas, Montana, Minnesota, Wisconsin, Ohio*, and other states. It is in use in South Africa, Australia, Tasmania, New Zealand, China and Japan. Quite a cosmopolitan traveler!
