IS HERE TO STAY! The thermometer readings it is giving shows us that. Some long-haired individual predicted 1893 as an eventful year.

The sum of the figures is 21, or three 7s, hence something will dows. Possibly our Presbyteries would hence something will Our hard freeze will happen. Our hard freeze will count one. There was a man in the north part of the township who lied about the weather a few days ago. It has been cold, no doubt, and some hard records have been broken, but this individual stated that one day last Week in Toronto it was 100° below zero, that a train had frozen to the track from the water escaping from the tender, that podestrians froze stiff on the streets and were stood up against the buildings like mummles.
