company, limited, comes to hand, swiftly at the heels of the

White Pass & Yukon Railway Co. The latter company was brought out last week with a capital of £1,000,000, and offered 6 per cent debenture stock to the amount of £250,000. This company has the following strong board: Hon. S. Carr Allen, North London rail way, director; Sir Allen Sable, L. B. & S. Coast railway, director; J. Price, vice president Grand Trunk railway; E. Hanson, Montreal; W. Brooks Close,

London and Chicago. The influential firm of Coates Sons & Co. of Gresham street, acted as brokers to the concern, a fact which should be sufficient to insure a large subscription from investors.

K. R. & N. Company. company has a capital of £500,000, and construction of country school houses, I offers £480,000 of 5 per cent debenture did sign the warrant, having previously America: Archibald Campbell Mitchell Railway company, limited; George Alexander, president International Navigation & Trading company, limited.

This company was incorporated to consolidate and control as one system the Kaslo & Slocan railroad and the International Navigation & Trading company, limited, and to connect these directly with the Great Northern and Northern Pacific railroads by a line either owned or controlled by this

company. The imminent issue of this big concern probably accounts for the recent firmness of the quotation of the shares of the London and B. C. Goldfields company, a concern which is apparently largely interested in the new railway company.

banks associated with Canada in general aud British Columbia in particular, cil." should be doing pretty well. If British will, the Canadian banks should con- 18 T. R. McInnes, the governor's son tinue to increase their profits and pay and private secretary, told him that the bigger dividends, while there should be
