CLARKE MEN LOSE HOPE.

Clarke's followers no longer hope for success. The handwriting on the wall has been seen, and the fact that Joseph is wanting in every requirement demanded by public sentiment of a parliamentary representative is understood by everyone.

Throughout the length and breadth of the territory wherever the name of Mr. Ross is mentioned their comes an answering echo of enthusiasm which tells in terms unmistakable that Clarke and Clarkism so far as the Yukon is concerned are doomed.

Clarke defeated Dr. Thompson for mayor last winter merely through the odium that attached to his support, and at the coming election he will go down himself beneath a storm of ballots so heavy that he never again will be able to extricate himself.

The people of the territory have nothing to gain and everything to lose in allying themselves with a man of Clarke's calibre. That the man has nothing in his favor to commend him to the electorate is admitted even by his own followers.

The folly of undertaking to elect a man upon such a hope has already been amply demonstrated. Clarke's announcement that the people will send to Ottawa the worst dose possible has had no effect other than to turn support from him.

While there is no disposition on the part of anyone to maintain that the government at all times has pursued a just and equitable course toward this territory, it is certainly within the facts to say that within the past two years enough has been done to warrant the belief that the government is anxious to see the country grow and prosper.

Under such circumstances to send to Ottawa a man who avowedly would go for the purpose of insulting and backbiting the members of the government would be an act of madness, which the high intelligence of the Yukon electors will never permit them to commit.

The material interests of the district are to be considered over and above the petty passion and prejudice handed down from bygone years. There are vast undertakings of a public character in which the aid of the government must be solicited and to accomplish this purpose a man must be sent to Ottawa who not only possesses the ear of the government but who has the ability and the force of character to make himself heard. Clarke would be a failure in every sense of the term.

He would accomplish nothing except to make the Yukon an object of derision and the people cannot afford to have anything of that nature occur.

Clarke's waning strength is only the natural outcome of a more perfect understanding on the part of the people of all the facts bearing

upon the case. He will continue to grow weaker as time elapses.

CRISIS APPROACHING.

The situation in the coal districts is rapidly approaching a crisis. Winter is coming on and hundreds of thousands of families in the crowded centres of population are already experiencing the keenest kind of suffering owing to the extortionate price charged for coal.

The hardships incidental to the strike are not confined to the parties directly concerned but extend to a vast army of non-combatants who have no connection with either of the hostile forces.

The seriousness of the situation is recognized by the president, who as told in the dispatches is prepared to go to extreme measures in order to avert the impending calamity.

There are, however, greater issues involved in the strike and to these public attention will be drawn just as soon as the existing crisis is safely passed.

The people are still the sovereign power and by their votes are able to rectify every grievance which the insolence of wealth may seek to fasten upon them.

The morning edition of the News now handles the evening edition much more judiciously than formerly and the latter has almost ceased to recognize the existence of the former.

The News once referred to its candidate as the Honorable Joseph Andrew Clarke. The joke has never been repeated.

Buel's cartoons now leave the proprietors out. Such work was a little coarse even for Roediger.

Joseph has evidently been corresponding with the News in his own behalf.

Since Sunday there has been a silly rumor going the rounds that the reason the long time prisoners were transferred to New Westminster was because of the fear of the police that with so many desperate criminals on hand there might be an attempt this winter of a wholesale jail delivery.

The utter absurdity of such a thing is at once apparent and scarcely needs a refutation. The main and principal reason of the transfer was that better accommodations could be afforded the prisoners at the provincial penitentiary than here, fewer guards would be required to handle them and the most important of all is that their cost of maintenance is so very much less.

ENJOYED VACATION

E. C. Senkler the Guest of Captain Cosby. Stewart River Section Looks Prosperous—Ogilvie Dredger in Operation.

Gold Commissioner Senkler, who last week was a guest of Commodore Cosby on board the police boat Scout on a trip up the Stewart as far as McQuesten, returned well pleased with the results of his short vacation, the first, by the way, that the gold commissioner has been privileged to enjoy in several years.

Lack of time prevented Mr. Senkler taking an extended trip over the creek tributary to the Stewart as he would have liked to, but enough was seen from the deck of the steamer and at the various stops made en route to justify the opinion that the mining industry along the Stewart river is only in its infancy.

Excellent reports were received all along from Duncan, Clear and McQuesten creeks, particularly the first named which this year will be lined with miners from one end to the other.

The Ogilvie dredge, which is located about seventy miles up the river, was in operation as the steamer passed but no stop was made to inspect its working, and it is not known what success is being met.

The Ogilvie concession covers thirty miles of the bed of the Stewart but does not take in either of the banks, only that portion that is submerged.

Quarrelled With Peary

New York, Sept. 23.—Dr. Thomas Dedrick of Washington, N. J., who had a disagreement with Peary, the Arctic explorer, and left the latter's expedition on August 27, 1901, has arrived in New York after an absence of four years in the far north.

Dr. Dedrick, who was with Peary on his last expedition, has been in the Arctic regions, he was inclined to be reticent.

Beresford at New York

New York, Sept. 17.—Rear-Admiral Lord Charles Beresford, of the British navy, who arrived yesterday from Southampton in the North German Lloyd steamship Kron Prinz Wilhelm had some opinions to express about the naval affairs of the world.

In regard to submarine boats, of which we have five, I believe there is still much to be learned. The tendency is to either overrate them, as the French perhaps have done, or to underestimate their value.

IN AN OPIUM DEN

Seattle, Sept. 24.—Weeping bitterly, but steadfastly refusing to give the police her name, a young and pretty white girl was arrested in a Chinese opium den yesterday morning by Patrolmen Huff, LeCount and Cameron and taken to the city prison. When discovered by the police men she was lying on a lounge in a room of the Wah Chong building in a semi-conscious condition from the fumes she had inhaled.

The policemen were told yesterday morning that a white girl had been seen to enter the building, part of which is rented by Ah Sing, a Chinese. After ascertaining the room where she was located the three patrolmen ascended the stairway as noiselessly as possible and knocked on the door.

The patrol wagon was summoned and Ah Sing sent to the city prison, where a charge of conducting an opium joint was placed against him. A smoker's complete outfit was secured as evidence. The girl was permitted to walk to police headquarters.

New York Democrats recall the fact that Hearst was discussed in connection with the governorship in 1898 and in 1900 at private conferences of party leaders preceding conventions. In 1898 his name was submitted to ex-Senator Hill, as satisfactory to the city Democracy, in connection with that of Justice Augustus Van Wyck.

He organized the National League of Democratic Clubs in 1900, and later became its president, which office he now holds. His activity was one of the features of the last Democratic campaign.

INSTEAD OF GAS

Boston, Mass., Sept. 19.—All the gas companies of Greater Boston are to be merged and eventually will furnish gas for fuel only, as the result of a conference here of some of the most prominent capitalists of the country, says the Advertising Journal today.

The Brookline Company plant will produce electricity and will ultimately supersede gas completely as an illuminant. This is the eventual consolidation of all the gas and electric light interests of Greater Boston. Ultimately the gas plants (except that of the Brookline Company) will be closed and used to produce gas for fuel only while electricity will be made sufficiently cheap to become the illuminant in general use.

The patrol wagon was summoned and Ah Sing sent to the city prison, where a charge of conducting an opium joint was placed against him. A smoker's complete outfit was secured as evidence. The girl was permitted to walk to police headquarters.
