THE ADVERTISER

True happiness is the natural result of trying to make others happy.

The man who is never idle has no time to be mean.

SPRAYING CALENDAR

APPLE

SCAB—(1. Copper sulfate solution before buds break; 2. Bordeaux mixture when leaf buds are open, but before flower buds expand; 3. repeat 2 as soon as blossoms have fallen; 4. Bordeaux mixture 10 to 14 days after the third; 5, 6, repeat 4 at intervals of about two weeks.) See Bulletin 84. CANKER—Cut out badly diseased parts, when spraying for scab, spray trunk and branches. CANKER-WORM—1. When first caterpillars appear apply Paris green very thoroughly. 2. repeat 1 after 4 to 10 days. 3, 4, repeat every 10 days if necessary. See Bulletin 101.

APRIS

APRIS—1. Upon young plants, kerosene emulsion, when insects are first seen; 2. repeat 1 when necessary or use tobacco water. CABBAGE-WORM—1. If plants are not heading, kerosene emulsion or arsenites; 2. repeat 1 at intervals of 7 to 10 days; 3. If plants are heading, hellebore. PEA-LEAF-MINER—Make very thorough application as recommended under Cabbage-worm. For Root-Maggot—see Bulletin 78.

CABBAGE & CAULIFLOWER

APRIS—1. Upon young plants, kerosene emulsion, when insects are first seen; 2. repeat 1 when necessary or use tobacco water. CABBAGE-WORM—1. If plants are not heading, kerosene emulsion or arsenites; 2. repeat 1 at intervals of 7 to 10 days; 3. If plants are heading, hellebore. PEA-LEAF-MINER—Make very thorough application as recommended under Cabbage-worm. For Root-Maggot—see Bulletin 78.

CELESTY

EARLY BLIGHT, LATE BLIGHT—1. Apply Bordeaux mixture as soon as the plants have become established; 2. repeat 1 every two weeks until the plants are half or two-thirds grown; 3. apply ammoniacal copper carbonate solution every 10 to 14 days, or more often if the weather is rainy.

CHERRY

BLACK-KNOT—See Plum. ROT—When buds break, Bordeaux mixture; 2. When fruit has set, repeat 1; 3. when fruit is grown, ammoniacal copper carbonate. ARSENITES—1. Kerosene emulsion when insects appear; 2, 3, repeat at intervals of 3 to 4 days if necessary. SLAG—1. When insects appear, arsenites or hellebore; 2, 3, repeat 1 in 10 to 14 days if necessary.

CUCUMBER & SQUASH

DOWNY MILDEW—Bordeaux mixture every 10 days, or often enough to keep the foliage well covered, from the time the plants are very small until frost. STRIPED CUCUMBER BEETLE—Keep plants thoroughly covered with Bordeaux mixture. See Bulletin 144.

CURRENT

LEAF-BLIGHT—1. When injury first appears, before the fruit is harvested, ammoniacal copper carbonate, to avoid staining the fruit; 2. after fruit is harvested, Bordeaux mixture freely applied; 3. repeat 2 when necessary. WORM—1. When first larvae appear, arsenites; 2. repeat 1 when necessary until fruit is half grown; 3. use hellebore if any worms remain after fruit is half grown.

GOOSEBERRY

MILDEW—Before buds break, Bordeaux mixture. 2. when first leaves have expanded, potassium sulfide. 3, 4, etc. repeat 2 at intervals of 7 to 10 days, if necessary throughout the summer. CURRANT WORM—see under Currant.

GRAPE

ANTHRACNOSE—1. Before buds break in spring, sulfate of iron and sulfuric acid solution. 2. repeat 1 after 3 or 4 days to cover untreated portions. BLACK ROT—1. As soon as first leaves are fully expanded, Bordeaux mixture. 2. after fruit has set, Bordeaux mixture. 3. repeat 2 at intervals of 2 to 3 weeks until fruit three-quarters grown. 4. ammoniacal copper carbonate when fruit is nearly grown. 5, 6, etc. repeat 4 at intervals of 7 to 14 days as required.

POWDERY MILDEW

POWDERY MILDEW—the first application recommended under Black-rot is of special importance. See Bulletin 76. RUST—apply very thoroughly the later applications recommended under Black-rot. STEELY-BEETLE—1. As buds are swelling, arsenites. 2. after 10 to 14 days, repeat 1. See Bull. 157.

NURSERY STOCK

FUNGUS DISEASES—1. When first leaves appear Bordeaux mixture. 2, 3, etc. repeat 1 at intervals of 10 to 14 days as required. PLAST-LICE—Kerosene emulsion, kero. water, or tobacco water, apply thoroughly. SAN JOSE SCALE—Burn or fumigate. See under Apple.

PEACH, NECTARINE, APRICOT

BROWN-ROT—1. Before buds swell, copper sulfate solution. 2. before buds open, Bordeaux mixture. 3. when fruit open, repeat 2. 4. repeat after 10 to 14 days. 5. when fruit is nearly grown, ammoniacal copper carbonate. 6, 7, etc. repeat 5 at intervals of 5 to 7 days if necessary. PICK-OFF AND DESTROY DISEASED FRUIT. CURE-LEAF—1. Before buds swell (March or April) use strong Bordeaux mixture. 2. as soon as petals have fallen, dilute Bordeaux. 3. when carried leaves begin to drop, dilute Bordeaux.

PEAR

BLIGHT—1. Cut out all the affected branches in fall before leaves drop. 2. repeat 1 when necessary during growing season. All branches should be cut 6 to 10 inches below point of infection, burn the parts. LEAF-BLIGHT OR FRUIT-SPOT. LEAF-SPOT—1. Before blossoms

FORMULAS

PARIS GREEN Water..... 100-300 gallons Paris green..... 1 pound If this mixture is to be used on fruit trees, 1 pound of quick lime should be added. Repeated applications will insure most foliage, unless the lime is used. Paris green and Bordeaux mixture can be applied together with perfect safety. Use at the rate of 4 to 8 ounces of the arsenite to 50 gallons of the mixture. The action of neither is weakened, and the Paris green loses its caustic properties. For insects that chew.

LONDON PURPLE

This is used in the same proportion as Paris green, but as it is more caustic it should be applied with two or three times its weight of lime, or with the Bordeaux mixture. The composition of London purple is variable, and unless good reasons exist for supposing that it contains as much arsenic as Paris green, use the latter poison. Do not use London purple on peach or plum trees unless considerable lime is added. For insects that chew.

Marriage at Windsor

A brilliant affair was the wedding of Rev Thomas Davies, curate of Episcopal church, Truro, to Miss Madeline, daughter of J B Black, M D, which occurred at the residence of the bride's parents Wednesday April 17th. The ceremony was performed by the father of the groom, Rev Mr Davies. The house was beautifully decorated. The presents were very numerous and costly. Rev Mr and Mrs Davies will reside in Truro. Some of the guests: Dr Willis, president of Kings' College; Canon Vroom, professor of Theology in same institution; Rev Mr and Mrs G R White; Mr and Mrs Geo Churchill; Mr Fred Churchill and Miss Ethel Lawrence of "The Oaks," Hantsport, were also present.

No Trifling With the Nerves.

When you can't sleep at nights and toss in misery longing for daybreak to come, do not yield to the temptation to use morphine, cocaine or other opiates. They only hasten decay. Let reason rule. Get right down to the foundation of the trouble and build up the system by using Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food.

This great restorative is in pill form and contains the very elements of nature, which go to form new red corpuscles in the blood and create new nerve cells. It is worth while to remember that Dr. Chase's Nerve Food is not a patent medicine, but the greatest prescription of Dr. A. W. Chase, author of the famous receipt book.

Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food is an up-to-date, scientific preparation which has proven itself to be specific for all nervous diseases. It cannot fail, if used persistently, because it actually rebuilds and revitalizes the wasted nerves. It is especially recommended for its peculiar to women, because they almost invariably arise from exhausted nerves. Dr. Chase's Nerve Food, 50 cents a box at all dealers, or by mail.
