The Kent Election.

The return from Kent County show that Dr. Leger has been elected by a majority of over 400, his total vote being 1407, McInerney 983, and Jardine 695. All three of the candidates being in the field as Liberal Conservatives, the only Liberal in the field having declined to run, the election was run on purely personal grounds, and the result shows that a majority of the Acadian population of Kent were determined to elect one of their own nationality to represent them. Dr. Leger is spoken of as a man of ability, and will no doubt worthily represent the constituency in the Dominion Parliament.

The following are the returns:

There is a third-polling place in Wellford which is expected to give Jardine enough majority to save his deposit.

Personal.

A gentleman who lately visited P. E. Island writes that the railroad there is in the condition, and that Mr. Joe Tinsworth, the superintendent, is the most popular railroad man who has ever been in charge of the P. E. Island railway—*Realistic Pioneer*.

Mr. Morrissey, of Brooklyn, New York, who has been on a visit to the North Shore, fishing and shooting, spent last Sunday in Campbellton, the guest of Mr. and Mrs. Desmond, of the Revere House. He left for New York on Monday accompanied by his daughter, who is a very amiable young lady.—19.

Wednesday evening the officials of the N. B. R. presented the retiring general manager, Mr. Cram, with an address, expressing regret at his coming departure, and setting forth the high appreciation in which he is held by all who have been associated with him in the management of the road. Mr. Moses Burpee, the chief engineer, read the address which was signed on behalf of the employees by Mr. John Stewart, superintendent of the northern division, Messrs. A. J. Heath, Moses Burpee and G. A. Haggarby. Mr. Cram made a suitable reply. The address was handsomely expressed and illuminated in colors on vellum by Mr. W. C. Fairweather. It was mounted on white card and encased in a massive frame of bronze and gold, the work of C. Flood & Sons.—*Telegraph*, Aug. 7.

Hon. John J. Adams with Mrs. Adams and their daughter Miss Florence arrived here on Tuesday evening of last week. Mr. J. Fred Harley arrived here at the same time.

Mr. Martin Butler, editor and proprietor of Butler's Journal, Fredericton, was in town one day last week, on a tour of exploration. We shall no doubt see something about his rambles in the August number of his journal.

Pic Nic.

The Pic Nic in Derby of Thursday last, under the auspices of Court Happy Retreat, I. O. F. was a most successful affair. It took place on the farm of Mr. B. B. B. Various sports were provided, such as running races, throwing the hammer, target mark, swings, and dancing. The dancing booth was structure 80 x 20 feet, and it appeared to be well patronized. The refreshment stalls seemed to be doing a rushing business, and its receipts are said to have been considerably over \$200. Over one hundred persons were on board the "whooper" from Newcastle and the Junction. Unfortunately a very heavy rain squall came on about five o'clock in the afternoon and everybody was drenched. But the squall passed over and then the crowd gathered again. Shortly after six o'clock the boat race was started. Two four oared boats started. The course was a half mile with turns. No. 1 boat, the winner by a length was manned by Wm. Park, stroke; Allen Bryenton, No. 1; John McKel, No. 2; D. Bell, bow. No. 2 boat—Greg, Henderson, stroke; Murdoch Gillis, No. 1; John Newcomb, No. 2; Geo. Chalmers, bow. The winning boat got from the start.

The brothers of Court Happy Retreat were indefatigable in their efforts to make every one pass a pleasant time. The total proceeds amounted to \$180, and are to be devoted towards building a hall suitable for the Order to meet in. The committee cordially thank their thanks to the people for their assistance in various ways as well as for the generous patronage accorded them.

Piso's Cure for Consumption and Remedy for Catarrh are sold by E. Lee Street, Newcastle.

Crop Bulletin.

Mr. Lugin, Secretary of the Board of Agriculture has issued his bulletin for July. The crops in Northern Counties are thus far reported to:

GLOUCESTER COUNTY.

W. Walsh, Pokenoosk—Stock required heavy feeding and many cows came out very thin. A rough winter on grass; but it looked well in June. Horace Hornbrook, New Brandon—An unfavorable winter for stock owing to severe weather and late spring. It was the most severe winter in many years, but snow being deep grass was not hurt much. The late spring retarded its growth.

W. Rogers, Bathurst—Stock generally wintered well. The most severe winter for 20 years; severe frosts and heavy snowfall. The snow helped the grass, none being winter killed. New hay is a full crop; heavy, old hay land 75 per cent. Say from 90 to 95 per cent. of a full crop all round.

KENT COUNTY.

John Jardine, Jr., Kingston—The past winter was unfavorable to the grass lands, ice having laid on the lowlands, killing much of the new sown hay. Hay is about a month later than last season and the present prospects are that the crop will be well below the average. The supply of feed fell short last winter and straw having been a light crop last year, and many farmers had to buy hay and oats.

Rev. Joseph Michaud, Buctouche—The winter was rather mild and favorable to stock. Grass lands suffered by ice forming during the winter after soft weather. The prospects of hay crop are very poor.

P. M. Theriault, St. Mary—The winter was hard on stock, and no hay was left on hand; but though the snow fell was not light grass was not hurt by the frost. Hay will be 20 per cent. better than last year.

J. T. Vautour, St. Louis—The winter was not favorable to stock, especially the latter part of it. The ice which covered the land lay late in the spring has hurt and delayed the grass crop. The hay crop appears below the average of other years.

J. McG. Powell and C. Y. Walker—A very favorable winter for stock which comes out stronger than usual. The hay crop is in general light in consequence of winter killed grass and a backward spring.

F. X. Cormier, Cocagne—An unfortunate winter for stock. Much new hay was killed by ice; but the prospects of the crop are 50 per cent. better than last year.

Hon. O. J. LeBlanc, St. Mary—A fairly favorable winter; but feed of all kinds was very scarce, and consequently cattle did not come out as well as they would otherwise have done. There was not much snow during the greater part of the winter, and the frost hurt the grass to some extent. New hay looks very well. Old hay is a poor crop. Both are two weeks later than usual. The failure is due to the cold rains.

NORTHUMBERLAND COUNTY.
Thomas Parker, Derby—The first part of the winter was favorable, but from the first of February on it was the worst known for years. Snow was seven or eight feet deep. No harm was done to grass, but it was a hard winter on stock. The prospects of hay are excellent, the best in many years.

John Galloway, Napan—The past winter was very unfavorable to stock. There was a great deal of rain during the early winter months and cold, strong weather during the last. Grass land was not hurt and on good strong land the prospect for hay is excellent.

George Jardine, Rogersville—The winter was unfavorable to stock owing to its great length. The ice which formed on the fields killed many of the grass roots. Prospects of hay are fairly good.

ROGERSVILLE COUNTY.
Wm. Murray, M. P., Campbellton—The past winter was a hard one on the farmers and their stock as it was unusually severe, causing all kinds of food to be scarce. The prospects of hay are excellent.

Dr. Baxter's Sudden Death.
Dr. J. McGregor Baxter of Chatham was called to Moncton, Tuesday morning, by the sudden death of his brother, Dr. John Baxter. The community was shocked this morning to hear of the death of Dr. R. G. Baxter. Deceased had been indisposed and though confined to his house for some days was able to walk about.

Dr. Baxter dropped dead in his own house to-day, it is said from an over-dose of chloral. He was a well known physician and brother-in-law of E. M. Estey, druggist of this place, who with two doctors was called in as soon as Dr. Baxter fell to the floor, but too late to do any good. His heart has ceased to beat and he fell. For some days past Dr. Baxter had been taking chloral as a sedative to sleep—hence the supposition of an over-dose and its fatal results.

Accident.
Mrs. Andrew McCabe, daughter of Mrs. James White, was seriously hurt on Saturday last. She was leaning out of a window when the sash fell across her neck injuring her spine. She thought but little of the injury, continued her household duties and at night retired about her usual hour. She got up on Sunday morning, and while at her work about the house she suddenly fell to the floor, having lost the use of one side of her body. She is still confined to her bed, but hopes are entertained of her recovery. Drs. Desmond and Pedline are in attendance.

Small Boys on a Cruise.

Mr. Gould missed his yacht Tuesday evening, and afterwards accidentally heard of a small boy's having got up a basket of provisions for a fishing trip. At 11 o'clock when his own ship had not come home, he jumped to the conclusion that he and other lads had gone off with the boat. Procuring a boat and two men, he sailed down river as far as the Bartibogue, thinking the lads might have gone there, without seeing anything of them. After waiting till daylight, Mr. Gould sailed out of the Bartibogue and across to the Napan shore. His attention was attracted by a fire at Lapham's mill, and after watching it for some time a boat was seen to leave the place under sail, which he soon made out to be his own. He laid his course to intercept her as she was running down before a fair and light wind, and the runaways did not recognize him until he leaped upon the deck. They were five small boys on the yacht, not one of whom knew how to manage her, and they would probably have been drowned in Wednesday's thunder squall if they had not been caught. They had provisions for two or three days.—*World*.

LETTER'S LIVING AGE for July 28th and August 2nd contain: The Poetry of John Donne; Mute Witnesses of the Revolution; Charles the Twelfth; a Memoir; The First General Election in Japan; My Islands; Nero and St. Benedict; Early Days Recalled; The Salmon; Turkey; Wastel; Sister Heat; Notes of a Pilgrimage; The Spring Habits of British Quadrupeds; The Cliff Dwellers of Colorado; with illustrations of "Marcia," "A Waltz of Chopin," and "The Empty Compartment," and poetry.

For fifty copies of sixty-four large pages each (or more than 3,000 pages a year) the subscription price (\$8) is low while the \$10.50 published price is high. Write to the American \$4.00 monthly or weekly with The Living Age for a year, both postpaid. Attila & Co., Boston, are the publishers.

Literary Notes.

Theodore Child will contribute to the next number of *Harper's Weekly* a timely article on "The Argentine Republic and its present crisis." Having spent six months from January till July, 1890, in South America, Mr. Child writes directly from his own observation and experience. The paper is the result of a careful personal study of the condition of affairs in the country of the Argentine, and of the causes which have led to the present complications.

In connection with a series of papers now being published on "Exercise for Women," the next number of *Harper's Bazar* will contain an article on "The Ladies Athletic Club at the Berkley Lyceum," by Mary Gay Humphreys.

Harper's Young People for August 5th will contain the first instalment of a characteristic story by Richard Malcolm Johnston, entitled "Two Administrations."

Mrs. Lyman Abbott, wife of the pastor of Plymouth Church, is to become one of the editors of the *Ladies Home Journal*, on September 1st next.

An English edition of the *Ladies Home Journal* is to be brought out in London on a scale never before attempted by an American magazine, and Mr. Cyrus H. K. Curtis, proprietor of the *Journal*, and Mr. Edward W. Bok, the editor, sailed for Europe last week to perfect arrangements.

The Fruit Crop.

Of wild strawberries there has been a fair crop, but the heavy rain of Wednesday and Thursday last put an end to the fruit for this season.

Raspberries and blueberries promise well and are beginning to come in.

The few persons who have beds of cultivated strawberries and have properly attended to them have been well supplied with a bounteous crop, although few are raised for sale in this vicinity. Some have been offered at \$1.20 per bucket and the demand was much greater than the supply.

Apples and plums are said to be a light crop, the late frost injuring the blossoms. The same frost did much injury to gooseberries, red, white and black currants and consequently the crop is below the usual average.

Maritime Floss Association.
Prince Edward Island newspaper men are making arrangements to entertain last week's excursionists three weeks hence. The visitors will be entertained at dinner by the Charlottetown brethren, and it is understood there will be excursions to Summerside, Souris, Belfast, Craguid and Cape Traverse.

The Nova Scotians will go via Pictou; the New Brunswickers via Point Du Chene.—*Hulifax Herald*.

Minard's Limbless.
A syndicate of Montreal capitalists has been formed for the purpose of buying out the Minard's business from Messrs. J. C. Richards & Co. of Yarmouth. Since acquiring the proprietorship of the above firm in this valuable medicine they have extended their business throughout the whole Dominion and Newfoundland. The *Gazette* understands the price offered was \$75,000 which was refused.—*St. John Gazette*.

Heavy Thunder Squalls.
On Wednesday and Thursday afternoons of last week heavy thunder with rain and a gale of wind prevailed for a short time. The old shed on Locke's wharf was blown over, and wood came crashing down from the country of barns and buildings unroofed and trees blown down. The rain fell in sheets for a short time. A rain squall on Monday evening with heavy thunder and lightning, the rain continued all night.

Burglaries.
The burglar who was found in the cellar of P. McEvoy's store some weeks ago having received the penalty of six months in jail, makes the risk and punishment so light that there is every encouragement for persons to adopt this line of business.

One evening last week an entrance was made to the store of George Stables, a silver watch, and the small change in the till (about one dollar) stolen.

Independent Order Good Templars.
The annual session of the I. O. G. T. of New Brunswick will be opened at Grand Manan on Tuesday afternoon next. The steamer *Flushing* has been engaged to carry members from St. John to Grand Manan and return. Grand Chief Templar W. R. Robinson expects to leave St. John for St. John by the express on Sunday morning.

They Stole the Cake.
The back door of the W. C. T. U. of St. John, was forced open last Sunday morning, and a wholesale theft of cake and pies were effected. The police are on the track of the thieves.—*World*.

The Naked Boy's Misadventure.

Distance lends enchantment to the view of naked boys sporting themselves in the water. A close inspection is very objectionable to the public, but the boys seem to think the show they make of themselves eminently worthy of the public approval. They strip and jump in anywhere and everywhere, utterly regardless of all the decency of life, and will continue to do so until the authorities interfere. Such a thing as an article of clothing, no matter how scanty, was never done by a boy for bathing purposes unless he was compelled to do so. The loudest complaints that reach us come from Newcastle. The boys of the shore town use the public wharf as a bathing centre, and climb upon it and dive from it at the steamboat landing right under the eyes of the passengers by steamer. Ladies and gentlemen who accompany them, protest against this and to know if there are not officers enough, or regard enough for public decency in Newcastle to prevent bathers from displaying their naked bodies at a steamboat landing.—*World*.

If this statement is true such practices should be put a stop to. There are plenty of places in the vicinity of Newcastle where bathing can be indulged in without taking so public a place as a steamboat landing. Our policemen would do well to take a walk round the public wharf of an evening.

Dr. Barnard's Homes.
"Night and Day" for July has been received. It contains the proceedings of the 22nd annual meeting of the homes on 11th June last.

Remarkable success attended the anniversary. Stirring services were delivered by Rev. C. H. Spurgeon, Sir Arthur Blackwood, Canon Fleming, Lord Knollys, and the Rev. Dr. Barnard, while the various displays by the children of the Homes deservedly attracted great attention. The report of the meeting is profusely illustrated.

A series of case-histories of recent rescues of boys and girls, with engravings, are said to be a light crop, the late frost injuring the blossoms. The same frost did much injury to gooseberries, red, white and black currants and consequently the crop is below the usual average.

Salvation Wedding.

Capt. McLean, one of the most popular Salvation officers ever in charge of this station, is to be married in the barracks next Thursday evening, to a bright-eyed officer who made a great many friends while here on sick leave. The wedding and the marriage supper are open to the public on the payment of a small fee.—*World*.

Congratulations.

We tender our congratulations to Mr. and Mrs. H. T. Adams, who were married at St. John's on the 2nd July. Mrs. Adams was formerly on the teaching staff of Newcastle, and then resigned her position preceding the St. Paul, Minnesota, where she taught for some time. Her many friends here join in wishing them both much happiness.

Camp Adams.

Mr. George Brown and his son Geo. B. Brown spent a day at Camp Adams last week. The low water was against good salmon fishing. They caught one salmon and twenty-two grills.

On Trout Fishing.

Mr. J. J. Adams and Lt. Col. Call left on Monday night for the Bartibogue, on a fishing excursion.

Queer world! Queer people!

Here are men and women by the thousands suffering from all sorts of diseases, hearing all manner of pain, spending their all on physicians, and "getting no better but rather worse," when right at hand there is a remedy which says it can help them because it has helped thousands like them. Another patent medicine advertisement! Yes—but not of the ordinary sort. The medicine is Dr. Pierce's Golden Medical Discovery, and it is different from the ordinary nostrums in this—

It does what it claims to do, or it costs you nothing.

The way is this: You pay your druggist \$1.00 for a bottle. You read the directions, and you follow them. You get better or you don't. If you do, you pay another bottle, and perhaps another. If you don't get better, you get your money back. The queer thing is that so many people are willing to be sick when the remedy's so near at hand.

S. Andrew's Church.

Services will (D. V.) be held in this church on Sunday next at 11 a. m. and 8.30 p. m. with the usual service in the School room, Nelson, at 3.30 in the afternoon. The Rev. G. D. Brown, Rector of Dalhousie, will officiate at all the services. Seats free.

Butler's Journal.

We have received a copy of the initial number of Butler's Journal, published monthly at Fredericton. It is neatly got up and contains a quantity of interesting matter and is only 25 cents a year in advance. We wish it success.
