CITY WATER FOR COUNTY

Will be Discussed by Committee Again To-night.

Mayor Gave a Jolly Picnic at Oaklands Yesterday.

Course re School Fees Yet Decided on by Mayor.

There is likely to be a lively discus sicn at the Fire and Water Committee meeting to-night over the question of supplying the township people with wa-ter. The city agreed to do this some weeks ago on condition that an agree ment drawn up by its solicitor was signed by each party. Barton Township held a meeting the other day to pass a resolution giving its consent to people to make the connections. The resolution objected, however, to the city being objected, however, to the city being given control over the pipes laid, something that the committee insists on. Another knotty question is the one of assessment. The township people want the taxes collected on the township assessment, which is much lower than the city, and covers only the house and the ground it occupies. City officials say this would mean that township people would be getting the water cheaper than Hamilton ratepayers. Reeve Gage and W. A. H. Duff, the township's solicitor, discussed the matter with City Solicitor Waddell this morning, but were unable to reach an agreement.

Mayor Stewart is much annoved at report that he is sending a letter through the Finance Committee to the Board of report that he is sending a letter through the Finance Committee to the Board of Education pointing out the city's straightened financial circumstances and protesting against the abolishing of the school fees. At the picnic yesterday afternoon a' memorandum of some of the objections to the abolishing of the school fees at this stage was shown members of the Finance Committee, who expressed their approval, with the exception of Ald. Peebles. Mayor Stewart declared to-day he had not made up his mind one way or the other on the matter, and that any letter sent would be through the committee. City officials point out that last year the Board of Education got \$14,000 more than the year before in the estimates, and that abolishing the fees would mean another \$12,000. One scheme, the Mayor thought, might prove acceptable was to charge for the actual cost of the books, and then abolish the fees altogether in a year or so. However, he says getter the ways the himself one way gether in a year or so. However, he says he has not committed himself one way or the other.

The aldermen. City Hall officials and members of the independent Boards banished the worry of civic affairs yesterday afternoon and, heeding the advice of some nature fakir, hied for the pines to taste of the simple life. The doings were across the bay or thereabouts, the occasion was Mayor Stewart's picuic and the result the jolliest kind of a time linaginable. Two boats carried the party from the foot of Sincoe street to Oakhands. City Solicitor Waddell, City Clerk Kent and one or two others who feared the choppy sea that was rolling and explained their objections to embarking on the heaving bosom of the bay under such conditions, took a prairie schooner. Two teams, with a score or more on each, played ball and provided amusement for those who abstain from strenuous exercise. They played like seasoned pennant chasers, Jack Anderson declared. For instance, Ald. Clark distinguished himself by making two home runs, Mayor Stewart swatted the ball to the confields and cavorted, around the sacks like a two year old. Ald. Sweeney caught a hot one, which it was afterwards said he did not know he had until it was explained to him. Ald. Peebles threw benders that even Chef Smith could not solve. Tax Collector Kerr occupied the thanklees position of umpire and Ald. Lees nearly got writer's crainp scoring the runs that were piled up as the imnings rolled onwards. At 5 o clock the Mayor called a halt and an attack was made on a repast served by Caterer Crawford. Before the ship sailed for made on a repast served by Caterer Crawford. Before the ship sailed for home the Mayor was voted a good fellow and Mr. Cyrus A. Birge, who so kindly loaned his fine launch for the occasion, was accorded the thanks of the

K. E. Atkins, the Toronto electrical expert, called on City Engineer Barrow this morning. He will attend the Fire and Water Committee meeting to-night in connection with the proposal to engage an electrical engineer to look after the installing of the new pumps. Mr. Barrow thinks it is a good idea, and that the city would more than save what it would spend by having a good man on the job to look after things.

City Engineer Barrow believes that Hamilton should engage inspectors to Hamilton should engage inspectors to look after all railway construction undertaken by new companies or the Street Railway. His department, he eavs, has not time to attend to this, although it is something that should be looked after.

Building permits were issued to-day

A. R. Howard, two frame houses on Arthur street, near Sherman avenue, James Weir, frame house near Niagara

Alanson Moote, two brick houses, On-tario avenue, between Main and Stin-

son, \$5,200.

D. J. Jackson, frame house on Kinrade avenue, between Barton and Cannon streets, \$1,750.

The Mayor's picnic yesterday after-noon came near being marred by a catas-trophe. Assene boat approached the Turbinia wharf Ald. Peregrine's hat blew into the water. Aid. Kennedy tried to get it, and slippellished the water be-tween the boat and the wharf, going in up to his knees.

A Good Start.

Start now for this store; get here. We'll show you suits, overcoats, rain coats that will start you right on the clothes question. You won't see any snappier or smarter clothes. We're able to buy from the world's best makers. Glai to show you fine things to wear. Fralick & Co., 13 and 15 James street north.

ATTACKED BY WOLF

TORONTO TRAVELLER'S ADVEN-TURE NEAR LANSDOWNE.

Lansdowne, Oct. 8 .- William Black well, a well known Toronto traveller, while out hunting three miles east of while out hunting three miles east of here to-day had an exciting experience with a wolf. Mr. Blackwell was returning to his hotel along the railway track, wheu something came behind him. On locking around he saw a big wolf about thirty yards behind. He fired his only remaining shot at the animal, but unfortunately missed his mark. This seemed to make the wolf more desperate, and it came towards Mr. Blackwell at a ranil pace.

rapil pace. Mr. Blackwell had to stand still, and coats that will start you right on the clothes question. You won't see any anappier or smarter clothes. We're able to buy from the world's best makers. Glai to show you fine things to wear. Fraike & Co., 13 and 15 James street worth.

New York, Oct. 9.—There was heavy selling on the stock exchange to-day on orders said to be from Holland, the selling being accompanied by rumors that an important failure was imminent to Amsterdam.

Mr. Blackwell had to stand still, and when the approaching beast came near on the animal. After a hard struggle, in which Mr. Blackwell received some very severe wounds from the woll's claws. He finally succeeded in killing it. It is the first wolf seen in this section of the country for several years. Puitz, a well known guide of Lansdowne, will accompany Mr. Blackwell tomorrow, when they will try to find others

125 ELECTRIC CARS BURNED

By Big Fire In New York Stree Railway Car Sheds.

New York, Oct. 9.—Hundreds of lives vere endangered, thousands of persons were thrown into panic, 125 electric cars used on several cross town lines were destroyed, and property loss to the extent of \$400,000 was caused by a fire in the Fourteenth street car barns to-day The service on the cross town car lines was hampered to-day and will not be put on a normal basis until a sufficient nun ber of cars to replace those destroyed can be drawn from the other city lines. The fire had gained great headway be

fore it was discovered, and when the firemen arrived the adjoining tenement nouses were cleared of tenants.

Chief Croker led a big squad of men
to the fourth floor of the burning car

to the fourth floor of the burning car barns. Their work was just beginning to tell when the great steel girders, which supported the floor above, where 125 electric cars were stored, began to twist and bulge under the intense heat. Crok-er roared to the men to run for their lives. Less than a minute after the last man had reached a rope put in-place for the emergency, the fifth floor came down with a crash. A few minutes lat-er the Fourteenth street wall of the building fell into the street. The flames in the barn and several adjoining tene-ments, which had caught fire, were then subdued.

BIG BLOW AT ST. JOHN.

Sixty-Mile Gale Stirs Things Up on Land

Sixty-Mile Gale Stirs Things Up on Land and Sea.

St. John, N. B., Oct. 8.—St. John today experienced the heaviest storm in years. A southwest gale prevailed, and at one time reached 64 miles an hour. The golden cross of St. Peter's Church spire was bent out of position, but fortunately did not fall. Chimneys were broken, flues torn down, the telephone service was crippled, and long-distance lines were generally put out of business, while telegraph wires also suffered. A fearful storm raged in the Bay of Fundy, and in the harbor a great sea was kicked up. The American schooner John J. Ward drifted her anchor and struck the lighthouse, veering off and heading for the round reef. Two tugs, however, managed to save her, but not before both broke their hawsers.
