Mr. Mederie Martin, M.P., St. Mary's, Montreal.

Mr. E. B. Johnson, of L'Orignal, the dist speaker, urged that the Fenian reterans be given the same treatment which had been accorded to the South African veterans. He said they did not want script to sell, but he land to settle upon.

E. C. A. Patterson, of Montreal, aid he represented five hundred veterans. However, he thought that a bension would be more acceptable to the veterans than a land grant.

A. E. Whelan, Toronto, favored a sension and thought the Government provide this by settling aside a tract of land in the west and settling it.

Mr. Henderson, of Rockland, said that for years he and his neighbors and drilled and kept ready for the Senians. All they had got for it was right dollars. He thought it time they got more.

Mr. Dick, of St. Catharines, delared the Fenian veterans should be tecognized before a dollar was spent or a Canadian navy.

Another.strong feature of this store is the fur section, which is packed with an elegant selection, and each piece is guaranteed to be exactly as represented. The Robinson firm calls furs by their right names; they tell you what the skins are, and you know what you are buying. The Christmas spirit prevails, and the good service makes shopping a pleasure. It is surprising what a dollar will buy at Robinson's.

Attempts would be made, he said, to divert the minds of the people to irrelevent questions, but the one great and dominant question was that of the House of Lords, and this would absorb all others. It was time for the Lords to be headled firmly, the Chancellor added, and for one, he would not remain a member of the Liberial Cabinet for an hour unless he knew that the Cabinet had power to carry its bills. # Man Good Till Seventy

Man Good Till Seventy.

Humanity should be grateful to the management of the New York Central Railway. Dr. Osler wanted us to believe that man's zenith was reached at forty and his western horizon at sixty years of age. In Canada, the Government and the railway corporations have set the limit of activity at sixty-five, by providing that after that age is reached employees shall go on the pension list. To some of us, with the red mark already within measurable distance, the limit seemed to be overly short. Now comes the New York Central directors with a pension scheme which is based on the assumption that a man is a capable employee until he a man is a capable employee until he is seventy. Even those of us who are not among the hundred thousand employees of that great corporation must be grateful for this extension of our time to the Psalmist's limit. We may now boldly stand in the presence of Dr. Osler and assure him that he is not more successful in establishing a new cult than was Mr. Dowie, of Zionville, or than is Mr. Stead, of London, England.—Canadian Courier. a man is a capable employee
