

mediately left the neighborhood. The strange man was never afterwards seen alive. On Friday last it was noticed by a man that a large number of buzzards were hovering about a wood at a short distance off the Newport and Gray's pike, between the villages of Cochranville and Penningtonville. The man at length went to the place to see what they were after, and found unearched the head and body of a man and his arms and legs, which were separated from the body. He gave notice to the neighborhood and the horribly mutilated body was eventually recognized as that of the stranger who had been stopping at Jennerville. A Jury was empanelled by the Deputy coroner, but the verdict is sealed and has not yet been handed over to the coroner of the county. The murdered man was stabbed in three or four places, his throat cut, and both arms and both legs were severed close to the body. Udderzook cannot be found. He is, or was until lately, on the Baltimore police force. He is young and has red whiskers. The object of the murder unquestionably was plunder. No clothes were found except a pair of shoes. It is reported that the man was known to have a considerable sum of money on his person. The severed limbs were buried in a separate spot from the body, and not far from the house of one Rhodes, a brother-in-law of the supposed murderer.

THE TIGRESS.—The Tigress is gone. Scampering away from the Brooklyn Navy Yard on Monday, she passed out through Hell Gate into the Sound, and is probably now steering her course for St. John's. We are glad to know that the Arctic steamer which played the most important part in the history of the Polaris expedition—that of the rescue of the ice-floe heroes—is to have another chance for Arctic honors, and this time under the American flag, commanded and manned by United States officers and seamen. We regard the mission of the Tigress as one which must be crowned with remarkable success.

The Reserve Dividend System

Is one more step in the march of progress. Presented only after mature thought, it invites the test of the severest scrutiny. Its chief merit is its PERFECT ADAPTABILITY to the wants of insurable lives. The RESERVE DIVIDEND and RESERVE ENDOWMENT POLICIES originated and published by the Company's Actuary, under copyright in 1869. The principle involved renders every form of insurance a provision in life. It converts an ordinary life Policy, otherwise payable only in the event of death, into a CASH ENDOWMENT, MATURING EVERY TEN YEARS.
