NOTICE

IMPORTANT THE TO
Citizens of Newfoundland

THE CONTINENTAL,
LIFE
INSURANCE
COMPANY
OF NEW YORK,

IN order to complete their line of Agencies from London to San Francisco California and to extend universally the benefits and advantages offered by their Company and to place within reach of all the means of making provision for the Widow and the Orphan have decided on establishing Agencies in

St. John's and Harbor Grace, Newfoundland.

The CONTINENTAL beyond all comparison the most successful and most popular Company ever established in Europe or America. It has only been SEVEN YEARS in existence but at its organization men of enlarged views and great experience in Life Insurance, were placed in its management, who, having discarded all useless and annoying restrictions, and adopted all the improvements known in Life Insurance—many of them original with themselves, it at once received, and continues to receive a support unprecedented; and it now stands far ahead of many companies TEN YEARS older than itself. It has issued over FIFTY-NINE THOUSAND POLICIES, and has over \$6,750,000,000 assets, all securely invested as required by law, in Bonds of the United States, Bonds of the State of New York, or in Real Estate. For that portion invested in Real Estate, it holds in all cases Double Security. So popular is its management and so great the public confidence that there are only Two Companies in the World that now approach it in the amount of business done.

By the Laws of the State of New York Life Insurance Companies are not allowed to do Fire Insurance or any other business, the importance of which law cannot be over-estimated by all who desire to protect their families by Life Insurance, and who do not wish to have their funds put in jeopardy by Fire Insurance.

By the Laws of New York Life Insurance Policies are held sacred to the families of the insured, free from the claim of Creditors.

The CONTINENTAL issues all kinds of Policies, viz: Ordinary Life, Endowment, Joint, &c.

All losses in Newfoundland will be paid at the Agency here without subjecting claimants to the trouble and expense of going to New York.

All Policy holders can vote and are eligible to office.

Directors.

L. W. FROST, President.
HON. GEO. HILTON SCRIBNER,
Secretary of State.
HENRY C. FISH, D. D., Newark, N. J.
M. B. WYNKOOP, of Wynkoop and Hallenbeck.

FITS AND EPILEPSY
a study for years, and he will warrant a cure by the use of his remedy.

Do not fail to send to him for trial bottle; it costs nothing, and he

WILL CURE YOU,

no matter of how long standing your case may be, or how many other remedies may have failed.

Circulars and testimonials sent with **FREE TRIAL BOTTLE.**

Dr. Chs. T. PRICE,
64 William Street, New York

July 16.

CONSUMPTION CURED.

To the Editor of the H. G. Star.
ESTEEMED FRIEND,—
Will you please inform readers that I have a positive

CURE FOR CONSUMPTION
and all disorders of the Throat and Lungs and that by its use in my practice I have cured hundreds of cases, and will give \$1,000.00 for a case it will not benefit. Indeed, so strong is my faith, I will send a Sample Free, to any sufferer addressing me.

Please show this letter to any one you may know who is suffering from these diseases, and oblige.

Faithfully Yours,
DR. T. F. BURT,
69 William St., New York.

THE SCIENCE OF KISSING.

An American editor thus discourses on this interesting topic: "People will kiss; yet not one in a hundred knows how to extract bliss from lovely lips, any more than they know how to make diamonds out of charcoal. And yet it is easy, at least for us. First know whom you are going to kiss. Don't make a mistake, although a mistake may be good. Don't jump up like a trout for a fit, and smack a woman on the neck, or the ear, or the corner of her forehead, or on the end of her nose. The gentleman should be a little the taller. He should have a clean face, a kind eye, and a mouth full of expression. Don't kiss anybody. Don't sit down to it; stand up. Need not be anxious about getting in a crowd. Two persons are plenty to corner, and catch a kiss; more persons would spoil the sport. Take the left hand of the lady in your right. Let your hat go to any place out of the way; throw the left hand gently over the shoulder of the lady, and let it fall down the right side. Do not be in a hurry; draw her gently, lovingly, to your heart. Her head will fall gently on your shoulder and a handsome shoulder strap it makes. Do not be in a hurry. Her left hand is in your right; let there be an impression to that, not like the grip of a vice but a gentle clasp full of electricity thought and respect. Do not be in a hurry. Her head lies carelessly on your shoulder. You are heart to heart. Look down into her half open eyes. Gently yet manfully press her to your bosom. Stand firm. Be brave, but don't be in a hurry. Her lips are almost open. Lean slightly forward with your head to the body. Take good aim; the lips meet; the eyes close; the heart opens; the soul rides the storms, troubles and sorrows of life (don't be in a hurry) heaven opens before you; the world shoots under your feet, as a meteor flashes across the evening sky (don't be afraid); the heart forgets its bitterness, and the art of kissing is learnt. No fuss, no noise, no fluttering and squirming like hook-impaired worms. Kissing don't hurt; nor does it require an act of Parliament to make it legal.

THE SYRIAN SPONGE FISHERIES.

Some interesting information respecting the Syrian sponge fisheries is given by Vice-Consul Jago (Byront) in his commercial report for 1873, just issued. The total value of the sponge fished on the Coast of Syria is from £20,000 to £25,000. The production is however, falling off through excessive fishing and the consequent exhaustion of the fishery grounds. About 250 to 300 boats are at present employed in this industry on the coast of Syria, manned by about 1500 men. In some cases the men own their own boats but generally they are hired for the season, which extends from June to the middle of October. No wages are paid the remuneration consists in an equal share of the produce of the fishing. The profits of a good diver reach as high as £40 a season. Diving is practised from a very early age up to 40 years beyond which few are able to continue the pursuit. It does not appear however that the practice has any tendency to shorten life, although as the diver approaches 40 he is less about to compete with his younger and more vigorous brother. The time during which a Syrian diver can remain under water depends, of course, on his age and training. Sixty seconds is reckoned good work but the rare instances of men who are able to stay under eighty seconds. The men on the coast however make extraordinary statements as to the length of time their best hands are able to remain under water, and gravely assert that eight or ten minutes are not impossibilities. The manner of diving is as follows:—The diver—naked of course—with an open net around his waist for the reception of his prizes, seizes with both hands on oblong white stone, to which is attached a rope and plunges overboard. On arriving at the bottom the stone is deposited at his feet, and keeping hold of the rope with one hand, the diver grasps and tears off the sponges within his reach which he deposits in his net. He then by a series of jerks to the rope gives the signal to those above, and is drawn up. No knife spear or instrument of any kind is used. The Syrian diver, unlike his Greek competitor, never uses the diving dress, having an antipathy to it on the score of its legal tendency to produce paralysis of the limbs. Two or three fatal accidents annually occur, mainly among the skillful and daring. The diver will quit his hold of the rope and wander some distance to secure a prize and on returning to regain the rope will miss the spot and be unable to find it. He then attempts to rise unassisted and, being ignorant of the exact direction often strikes out diagonally, and is drowned before he can reach the surface. Other accidents again happen from jagged or pointed rocks, which besides sometimes pointing
