**THE CHIEF CHARM OF LOVELY WOMAN**

Soft, Clear, Smooth Skin Comes With The Use Of "FRUIT-A-LIVES".

NORAH WATSON  
86 Drayton Ave., Toronto.

A beautiful complexion is a handsome woman's chief glory and the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only the natural result of pure blood.

"I was troubled for a considerable time with a very unpleasant, disfiguring rash, which covered my face and for which I used applications and remedies without relief. After using 'Fruit-a-lives' for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without 'Fruit-a-lives'."

**Rowdies Were Taught a Lesson**

The social gathering in New Salem Hall, Wednesday evening, Oct. 4th, under the auspices of the Blissfield Agricultural Society, following the society's fair of the same day, was all but broken up by the actions of three rowdies, which, it is stated on good authority deliberately created a disturbance which ended in a strenuous fistfight argument when the officials of the occasion attempted to eject the disturbers from the hall.

The men, who came to the hall from Doaktown, in a motor car, it is said, entered the hall unceremoniously, and immediately "started things" by upsetting the stove. Remonstrance at their behaviour proving ineffective, they were ordered out but refused to go, and when efforts were made to put them out, they became aggressively pugnaous. They were finally ejected, however, and after they had been removed from the hall, it is understood that they were chastised so effectually by members of the gathering other than the officials, that they were quite willing to climb back into their motor car and return to Doaktown.

It is understood from a reliable source, that one member of the disturbing party, at least, has been making a practice of attending public gatherings with the purpose of creating disturbances, breaking them up, and in more than one case, it is said he has succeeded. It is thought, however, that the chastisement he and his companions received at New Salem Hall, will have a salutary effect upon them, and that they will not be so eager to break up future gatherings of a peaceable nature.

The officials of the society, it is understood, are not content to let matters stand as they ended Wednesday night, and there is talk of legal proceedings being taken against the trio of wanton disturbers alluded to.

**HELP FOR WORKING WOMEN**

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

**UNION SCHOOL FAIR**

On Tuesday, September 26th, the school District of Kirkwood, Bryncton and Derby combined to hold a school fair in the Derby Superior school. It proved to be a success, and was largely attended, not only by those in the district of Millerton, but also by many from the surrounding districts. The products of home plots as well as school garden work were exhibited. Not only garden produce but some project work of the pupils, such as cake, pie etc., by the girls and manual training work, such as bird houses, etc., by the boys, were shown. Some very fine specimens of Rhode Island Reds as well as other breeds of poultry raised exclusively by the pupils, were also on exhibition.

It is intended that this shall be but a prelude to more successful displays in Rural Science work later on, and indirectly to the community will be an incentive to greater agricultural production, expressing as it is intended to express, a closer relationship between the school and the domestic affairs of the community.

**The Only Way to Cure Rheumatism**

Must be Treated Through the Blood and the Poisonous Acid Driven Out

The twinges and tortures of rheumatism are not due to cold, damp weather as so many people suppose. Rheumatism comes from poisonous acid in the blood. This is a medical truth that every rheumatic sufferer should realize. There is only one way to cure rheumatism—it must be treated through the blood. All the liniments and rubbing and so-called electrical treatment in the world will not cure rheumatism, and the sufferer who tries them is not only wasting money, but is allowing the trouble to become more firmly rooted in the system and harder to cure when the proper remedy is tried. Dr. Williams' Pink Pills have had remarkable success in curing rheumatism because they go right to the root of the trouble in the blood, driving out the poisonous acid, relieving the stiffened joints, clearing away the torturing pains, and giving the victim renewed health and ease. Mr. Vincent Brown, Havre Boucher, N. S., says: "For two years I was an almost constant sufferer from rheumatism, the trouble being so bad at times that I could scarcely get about. The trouble seemed to bring with it anæmia, and altogether I was in a very bad condition. I used doctor's medicine for almost a year without relief. Then on the advice of a friend I decided to try Dr. Williams' Pink Pills. I think I look altogether about a dozen boxes, with the result that I am again enjoying perfect health."

You can get these pills through any medicine dealer or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

**The Wonders of Science:** A camera man, working for the educational department of a film company, met an old farmer coming out of a house in one of the middle states and explained his presence on the place thus: "I have been just taking some moving pictures of life on your farm."

"Did you catch any of my laborers in motion?" asked the man curiously.

"Sure, I did!"

"Science is a wonderful thing."

**MANY CANADIAN CASUALTIES**

Canada's casualties from the beginning of her war until August 31, 1916, totalled 37,861. Of the number, 8,644 are dead, 5,998 having been killed outright, in action, 2,248 having succumbed to their wounds and 398 having died of sickness. In addition to the above, 723 are presumed dead because they have not been heard of for six months. The wounded totalled 27,212 and the missing include prisoners probably a third at least, would return to service.

**THICK, GLOSSY HAIR FREE FROM DANDRUFF**

Girl! Try It! Hair gets soft, fluffy and beautiful—Get a 25-cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scrub rids the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

**The Old Cider Woman**

A POOR old cider woman of long ago explained to her customers that she lost on every glass she sold, but made it up on the great number sold. Figure it out for yourself.

Now we feel sometimes like the old cider woman. We lose on every subscription we take at a dollar a year, yet try to say to ourselves that we make it up on the large number of our subscribers.

A good weekly newspaper cannot be produced for \$1.00 a year. \$1.50 is the absolute minimum—and this only when the paper carries a goodly amount of advertising. On the advertiser is placed the burden of losses on subscriptions. This is no secret. Yet it is not right.

And so, to-day, the publishers of dailies and weeklies are trying to set things right—by raising the price of their papers to subscribers in order that no heavier load will be placed on the advertiser.

For the costs of publishing are going higher every year. And this higher cost must be collected from some source.

We believe that you are ready in your mind to pay more for your weekly newspaper. You know that in your own buying and selling, prices in scarcely anything remain "fixed" year after year, as has the price of your weekly newspaper. You are paying more—very much more—for almost everything in common use.

We put it to you: Is it reasonable that the old dollar rate of the country weekly remain unchanged in the light of the costs of other manufactured products?

And in the confidence that you will agree that it is absolutely just to raise the subscription price of The Advocate, we announce that on and after November, 1st, the price of the Advocate will be \$1.50.

We are counting on you to fall into line with the necessities of the situation, and that you will agree with us when we say that three cents a week for The Advocate is little enough when one figures out what it costs to produce it every week.

**"Stick-Fast"**

For all purposes where paste is used. No Boiling. Made Instantly with Cold Water. Try a package. Price 15c. at The Advocate Job Dpt.

"When that boy threw stones at you why didn't you come and tell me instead of throwing them back at him?" said the good little boy's plous mother.

"Tell you," said the good little boy, "why you couldn't hit a barn door."

A Fond Delusion  
"Mrs. Grabooll gives herself a grand air."  
"Don't let her overhear you say that."  
"Why not?"  
"She thinks it was inherited."

**BEAVER FLOUR**  
Requires Less Shortening

And it makes lighter, flakier Pie Crusts, Tarts, Doughnuts and Cookies than you ever got with Western Spring Wheat Flours.

"Beaver" Flour is milled of blended wheat. It contains Ontario Fall Wheat (famous for pastry making) blended with Western Spring Wheat to add strength.

You save shortening—and you get a flour that is always the same in quality and strength—when you use "Beaver" Flour, the only kind of flour that is equally good for Bread and Pastry.
