SUNKEN WRECK SIGHTED.

Capt Judah Smith, of the schooner Salvador, at Clark's harbor, a few days ago, from Hailfax, reported that while running up the shore, with a moderate bream, the property of the same between them can be made a good chance to be some all that could be seen. Two to several feet, and judging by the distance between them, Captain Smith thought they belonged to a vessel of considerable size, probably a large brigantine. The mainboom was unshiped and floating alonged the mainmast, to whigh it appeared to be held by a wire rope top lift. Could not exactly make out whether the vessel was square rigged or not. There was no wreckage floating round, and nothing to indicate apparently not a great while. It will be remembered that a quantity of wreckage, supposed to be from a steamer direct of the stance, and the same apparently not a great while.
