While one of the "sand-hogs" of the Hillsborough Bridge was removing the rock and rock from the river bed he found a horse's hoof with an iron shoe attached, both in a good state of preservation. The find is remarkable as the hoof was found 25 feet below the bottom of the river.

Archbishop Brocheau has written from Rome to the Canons of his Diocese telling them of the audience he had with the Pope and how his Holiness congratulated the faithful of Canada for their piety and obedience to the mandates of the Church. Special mention being made in the letter to the address given by the Pope in accordance with the papal benediction.

ANOTHER Hillsborough Bridge compressed air workman "broke down" on Sunday evening and had to be taken to the Charlottetown Hospital. His case is not a serious one. The work in the caissons for this year will finish in a few days. A large number of workmen will be paid off next week and all work for this season will close down about the first of next month.

The Supreme Court of New Brunswick at Fredericton on Saturday dismissed the appeal in the Higgins murder case. Judge Gregory dissented, so the prisoner may appeal to the Supreme Court of Canada. Judge Hanington, who was judge in the trial, dissented from the majority judgment. The Chief Justice and Judge Landry and Barker agreed, and concurred in the majority judgment. The counsel for Higgins says that probably an appeal will be taken to the Supreme Court of Canada.

The incident in which Judge Meagher figured so prominently in connection with the Maritime Board of Trade meeting at Sydney in the summer, was revived at the meeting of the Halifax Board of Trade Thursday afternoon. J. E. DeWolfe, who was imprisoned at Sydney by the judge for contempt of court in having remonstrated with the judge for speaking of the members of the board as blackguards, stated that a scurrilous attack had recently been made upon him by a Halifax barrister, who had written in the Law Times of London on the matter, pretending to give the facts. This article, Mr. DeWolfe said, was a tissue of falsehoods from beginning to end, and he asked permission of the board to write a reply to it. This was granted, and Mr. DeWolfe will probably give from his own standpoint a vivid reflection of the affair for the information of British readers.

The last football match of the League Series between the Abegweit and St. Dunstan's College was played on Thursday afternoon, under circumstances the field being covered with four or five inches of snow. This of course prevented swift play and both sides were greatly handicapped when trying to get in any good combination work. Nevertheless, a good hard contest ensued, and some splendid scrimmages and clever passing took place. It was hoped that this, the final game of the series would see the question of which was the superior team, settled by either one or the other scoring, but the game ended, as did the previous ones—draw—with no score on either side. The Abegweits at the close of the game were anxious to have the contest continued until either side should score. The College refused to do, maintaining that they had successfully defended the championship which they had won last year.

SOME RAMBLING REMARKS.

If you are a P. E. Islander and have never been away from home and find yourself alone in a big city, the first thing you should do is to look all around you to see that no one is watching and then take any electric car. A young man with a stern countenance, dressed in a blue suit of clothes, with cap with a silver peak, (not quite so large as the Shamrock's), will come up and pass round the hat, so to speak. You then fish down into the depths of your ransack pockets—if you are any sort of a man—and hunt up five cents—if you have it—and give it to him. If you are in a street car of the United States you give him a nickel. A nickel is a sort of abnormal coin, one place, but under the dark clouds we are often hear about it lacks the silver lining. A nickel is only worth five cents, so it is useless trying to palm it off as a quarter—a though it looks something like one. According to what I have read somewhere, in the United States it takes ten cents to make one cent. At that rate an outsider would naturally suppose that it would pay to run the mills and see so little for their work. But Americans in general are hustlers, and their ways are not our ways. Yet methinks that during the recent strike there were more mills than ten that couldn't make a cent on account of the exorbitant prices demanded for that necessary article of food. It is a fact, I say, they couldn't, not by an anthracite cist.

After you give the conductor your nickel he takes it and gives you a yank upon an overgrown shawl-strap, which causes the minute arm of a patent imitation of a Waterbury clock to take a jump of about five minutes around the dial. The principal man on an electric of course is the conductor. If he is a good conductor the electricity will not be communicated to any of the other people, and if he is a poor conductor it takes him longer to reach his destination. So you see that the reason he gets insolent. The street cars in the big cities are always crowded—over-crowded. Many people by reason of this often have to stand. Such persons will sympathize with the Chicago man who finally decided to make a determined protest. He called at the office one day and expressed his sentiments in plain and vigorous terms. "What're you, that you come here and talk to us like that?" asked one of the officers of the corporation. "Are you a stockholder?" "No, sir," he thundered. "I'm one of the strap-holders."

The city of Boston gets the name of being the great centre of culture in the U. S. Culture is scattered around Boston in the most reckless fashion and is done up in many strange brands. Judging by the names of streets and vegetables which I saw there I concluded that agricultural culture must be a popular variety. This has been the prevalent brand at home for a good many years. The Boston subway is a good place to visit. It contains one of the most up-to-date and progressive systems of merry-go-round in the world today, and the officials deserve all the patronage they get. The elevated railroad is a good institution as long as the cars are satisfied to stay that way, but if they ever happen to take a tumble, it's "Good-bye, Bully Gray."

From Plainville, Conn., to Hartford, I rode up on what is known as the "third rail." By this it is understood that there are three rails to the track. The rail in the middle is heavily charged with electricity which is used as the motive power on that line. At the crossing, a heavy steel mat is placed down from which sharp steel spikes, much longer than the one on Mr. Loo McIntyre's running shoe. This spike-embellished mat is placed here to keep cows and sheep minded bipeds from walking on the track, but in spite of this there is often somebody trying to take a stroll along the third rail. Such persons seem to take to it and become so attached that they generally have to be pryed off with a pole.

Hartford is a good city and keeps herself tidy. The buildings there are amongst the finest in the States. Here may be found the home of Mark Twain, a gentleman who wrote a book called "Tom Sawyer," and who says "a pop!" extending beyond the limits of his own town. I was going to take his word Mark Twain I got to Springfield. This last pun is a miserable one, I know. I brought it to Hartford, and that's what makes it so "far-fetched."

The city of Springfield, Mass., is a booming centre. This is the home of the Springfield rifle and several big guns of the Republican party are in the arsenal here and occupy a large space in the heart of the city. One of the public squares here there is a big rock shooting where our countrymen got it on the neck during the revolutionary war, when they tried to get rid of the British. The British were in the arsenal. But when a person looks at the vast stretch of country the poor Tommy Atkins of those days had to traverse, and one wonders that they got defeated? No telegraph lines, no trains, nothing but march all day through a forest to get rid of the British. When men who stood in their own barnyards. The wonder is when looking over that ground as it is today how they ever got so far up country in the state the country must have been in then. They must have been brave determined men. So I am glad to am all alone I think some pretty thought about his late Majesty King George III. for setting the chimp.

PUSVILLE, Lot Four, November 3, 1902.
The Herald, Charlottetown, P. E. I.
SIR,—Your picture of his Holiness Pope Leo, arrived safely and I cannot tell you on paper how pleased I am with it. It is the best I have seen and I would pay a dollar for it alone. I am having it framed at once. With this I am sending you a dollar for the paper for another year and I hope the picture of the King and Queen will be as good as that of the Pope. Hoping to have the other pictures soon, I am, Sincerely Yours,
DANIEL GALLANT.

Mr. James McEneaney, Editor of the Herald:
DEAR SIR,—Your beautiful pictures have been received by me and I cannot find words to express how well pleased I am with them. That of his Holiness, Pope Leo XIII. is especially a high-class work of art and one that all your readers will not likely miss as, as it will be a picture well worth having in years to come. The picture of the King and Queen is also very fine and one of the best that I have yet seen of their Majesties.

REID'S TRYON

FACTORY-MADE CLOTHS!

Blanketing, Drugget, Shirting and Factory-Made Yarns.

Tryon tweeds are the best on the Island, and they are made from P. E. I. wool—no shoddy, but pure, genuine wool. We have purchased a big stock of All-wool Tweeds, every yard guaranteed, Reid's double and twisted tweed weighs heavier, is better made and better secured and better finished than any tweed imported into P. E. I. That is why we buy it and sell it. There is no better blanketing, Drugget, Flannel or Yarn for the farmer made. In factory flannels we carry a stock of browns, greys and greens at 33 cents per yard. Wool is bringing a small price this year, and so we are asking a small price for our goods. This quality of flannel generally brings 42 cents elsewhere. Our All-wool Druggets and flannels for men's underwear are selling at 35 cents. Some people ask 45 cents for imported stuff that will not wear as well. Remember to encourage home industry every time when the price is lower and the goods better.

Factory Blanketing in white union, two yards wide, 66 cents; Grey Union Blanketing 66 cents; White All-wool Blanketing 80 cents, sold elsewhere at 90; Tryon White Blanketing, two yards wide, no better made anywhere. 85 cents; Big snap in Grey Factory Flannel at 33 cents; big shipment of Factory Yarn, heavy, suitable for footing legging—big hank of Black, Grey or Red Yarn for 12 cents. Other people ask 15 cents for this yarn; Stanfield's famous Stockingette 12, 14, and 16 cents per yard cashmere stockingette 25 and 30 cents per yard. Factory-made Stockings for ladies and girls or boys will make a splendid overall, 20 cts. a pair; Factory Cloth all wool Tweeds—from 35 to 50 cents a yard; Factory Tweeds—Tryon make—40, 50, 60, and 75 cents per yard, in a dozen different patterns; big shipment of the famous Double and Twisted.

Tryon Tweed made for the farmers of P. E. Island.

By a P. E. Islander for a gentleman to wear. The patterns are copies of the famous Bannockburn designs. Every thread, warp and weft is double and twisted. You won't find amongst any of our double and twisted every alternate thread plain. We guarantee every thread to be twisted. We have even twisted the price down from \$1.00 to 80 cents per yard. Farmers, don't pay \$1 a yard for imported Double and twist, when you can buy the same goods at 80 cents. We guarantee you a saving of 20 cents a yard, (single width) and 40 cents double width on imported goods.—You must have them, we will give you the famous Tryon make for 75 cents.

You have been paying too much in the past for your factory made tweeds. Why should you pay the same today for factory cloth when wool is only bringing 14 cents a pound as when wool was bringing 20 cents a pound? Nobody like Paton & Co. to lower prices. If you want Tryon Tweed for farming use, you will find it here at a lower price than you ever bought it for before; if you want Moncton Tweed, the same thing applies. We carry them and sell them all at the right prices.

The Tryon Woolen Mills people will guarantee every yard of their products that we sell, and we think (everything being equal) the farmers ought to patronize their own mill.

Farmers, when you are in the market for anything in the Factory Cloth line, come to Paton & Co.'s. We have 100 Double Breasted Suits, made from Tryon Tweed, Moncton Tweeds and Oxford Tweeds at the lowest possible price ever offered in this city for cash.

A Bargain in the Ready-Made Department.

About 50 Suits worth from \$7.88 to \$9.99, you can have your choice as long as they are here for a five dollar bill. Now Mr. Farmer, hurry up and come to the farmer's store where you will get Blanketing, Drugget and Ready-made Suits at a price you never heard of before.
