of INSTANT POSTUM

"There's a Reason"

"I used to drink tea and coffee—was nervous and irritable. Wife said so.

"So when the new food-drink, Instant Postum, came along she said to herself: 'Here's where I break Jack of the tea and coffee habit.'

"Instant Postum is good stuff. I sleep better, smile more, and miss my indigestion."

A level teaspoonful of Instant Postum-in an ordinary cup

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream.

Experiment until you know the amount that pleases your palate and have it served that way in the Postum comes in two forms.

Regular Postum (must be boiled).

Instant Postum doesn't require boiling but is prepared instantly by stirring a level teaspoonful in a cup of hot water.
