Investment News

St. John's, July 31st, 1913.

A Word Now to the Young Men

If you have not yet formed the excellent habit of investing your surplus earnings, may we suggest the advisability of your starting NOW.

It is only by saving and gradual investing that you can acquire an income separate from your salary and a competency for your old age. It is only thus that you can win financial independence.

There is no greater incentive for saving than the part proprietorship offered you through the purchase of stock in the corporations that Canada is making great.

Such an opportunity is now available in the Maritime Mail Company Preferred Stock issue. Dividends are 7 per cent, and cumulative. Each share of Preferred carries as a bonus a half share of Common Stock—the book value of which by appraisal is nearly \$60 a share. Our convenient instalment plan enables you to make a start with a comparatively small first payment.

Most assuredly you should write for our circular that tells all about this attractive industrial.
