TRUCE EXTENDED TO WEDNESDAY.
DUBLIN, May 5.—The Daily Eireann met to-day a committee saying it might be able to report on Saturday. Daily thereupon adjourned until Wednesday. Meanwhile the truce between the rival factions was to expire Monday but has been extended until Wednesday.

REDUCING WAGES IN BUILDING TRADES.
MONTREAL, May 5.—The Builders Exchange to-day decided that wage reductions in the building trades ranging from 10 to 30 per cent. should be enforced.

WU IN CONTROL.
LONDON, May 5.—The forces of General Chang Tso lin, the Manchurian leader, have been completely driven from the Pekin region, and General Wu Pei Fu is in control of the situation. Chang's authority in Pekin was eliminated with the disarmament of his guard inside the capital and General Wu, recognized by the Pekin Government, having assumed control. It is understood President Hsu Shih Chang will remain in office, but Premier Liang Ship Vi, a supporter of Gen. Chang will be automatically eliminated.

185 HOUSES VACATED.
BRANDON, May 5.—About 185 houses scattered over an area of two square miles, have been evacuated because of the flooding of the Assiniboine River.

THE GERMAN BUDGET.
BERLIN, May 5.—The budget for 1922 has been amended to comply with the Reparations Commission's stipulation regarding allowances for the depreciation of the Reichsmark and allocated 141,900,000,000 marks as corresponding to 720,000,000 gold marks fixed by the Committee for Germany's cash payment of Allies in 1922. With the addition of her reparations obligations the total budget now amounts to 200,000,000,000 paper marks. Calculations proceed of the compulsory issue of 70 billion paper marks, there besides the taxation comprising a sum of 139 billion marks. The debt on the entire budget, including the reparations clauses, amounts to 1,000 billion marks. An official said the mark see how it would be possible to check the bank note issue. The currency increase during the last week in fact was 7,782,000,000 marks.

SCHOONER LOST.
TURKISH ISLAND, May 5.—The British schooner "B. A. Tower," bound from Demerara, for British Guiana in ballast, was totally wrecked at midnight on a reef north east of the island. The crew were rescued.

SEINE OVERFLOWING.
PARIS, May 5.—Each damage has been caused by overflow of the Seine River which has risen to a level of 100 feet above normal and many wharves are covered.

WINTER FISHERY EXTENDED.
OTTAWA, May 5.—The lobster fishery in Inverness Bay, Cape Breton, has been extended from May 1 to July 15, in order to give unemployment. The usual season runs from May 15 to July 15.

Spring.
Now the cold winter is over,
And summer's at last on the way;
The snow and ice have vanished
Before bright and genial May.
And the Robin again is with us,
So gay with his breast of red;
First herald of our northern spring,
As he gaily carols o'er head.
Over the valleys and hill-tops,
We hear his joyful song;
And the notes of sweetest music
Brighten the day along.
All summer he stays to cheer us,
And with sorrow we see him depart;
From the happy haunts of Newfoundland
But his song ever lives in the heart.

Terrible Weeping Eczema.
For the year 1909, I suffered with weeping eczema on my hands which caused me very much pain and worry for I could not use my hands for but very few things. I tried many remedies but they all failed to give me any relief and I was obliged to give up my work and came south at the same time continuing to use any preparation recommended to me but my hands continued to get worse until I was told to try D.D.D. Prescription also stop, which I did, once did and the first two or three applications gave me the greatest relief and when I had used but half a dollar bottle my hands were healed. I am indeed very thankful for your splendid prescription and may it fame spread world wide, is the wish of MRS. E. HAYES.

A CUP OF TEA.
Nellie made a cup of tea,
Made and poured it out for me,
And above the steaming brew
Smiled and asked me: "One or two?"
Sincerely she tossed her head,
"Make it sweet for me," I said.
Two sweet lumps of sugar fell
Into that golden yesterday—
But I knew the while I drained
Every drop the cup contained,
More than sugar in the tea,
Made the beverage sweet for me.
This to her I tried to say
In that golden yesterday—
Life is like a cup of tea
Which Time poureth endlessly,
Brewed by trial's constant heat,
Needing love to make it sweet.

Curious Mining.
The increasing depth to which it is necessary to go in following the vein of kaolin, or potter's clay, mined near the House one river in Connecticut some time ago caused the introduction of a novel method of mining. Wells from 50 to nearly 200 feet in depth are driven, and two pipes, the outer four inches and the inner two inches in diameter, are introduced. Water at a pressure of 40 pounds per square inch is forced down through the smaller pipe and rises through the larger one, bringing with it about 5 per cent. of solid matter, of which 75 per cent. is pure kaolin.

ROYALTY ON ESKIMO PIE WEEKLY.
Royalties amounting to probably \$30,000 a week, it was learned to-day, are being paid by the manufacturers of "Eskimo Pie," the little oblong block of ice cream covered with chocolate, to its inventor, C. K. Nelson, son of the "village confectioner" of Ottawa, Ill., and associates, who have backed him in marketing a product which went begging for almost four years. Probably no innovation of recent years, designed to meet the cravings of a sweet tooth, has met with such instantaneous success in New York, Chicago and other cities.
The consumption of "Eskimo Pie" slices it was placed on the market last January has encouraged its sponsors to believe that the gross income from royalties may amount to \$1,500,000 in the next 12 months. The chocolate-covered cake of ice cream is being sold by the million every day, and a company has been organized by Russell Stover of Chicago to issue licenses for its manufacture.
Although the royalties represent only a small fraction of the price, at the rate of 5 cents a dozen on the cakes, the total is one of the biggest incomes ever received from a similar product. At the present time checkers are employed in ice cream manufacturing plants operating under the Nelson license to check the exact number of "Eskimo Pies" made and sold each day.
Minnard's Lintment Co., Limited.
Sirs,—I have used your Minnard's Lintment for the past 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any to equal yours. If rubbed between the hands and inhaled frequently, it will never fail to relieve cold in the head in 24 hours. It is also the best for bruises, sprains, etc.
Yours truly,

Famine Peak Not Passed in Russia.
DESPATCH FROM MOSCOW IS CONTRADICTED BY LORD WEARDALE.
Ottawa, April 14, (Associated Press)—Colonel Mackie, of the Canadian Save the Children Fund, has received a cable from the headquarters of the British relief organization, concerning the famine has been passed in Russia, as was indicated in a press despatch from Moscow. This despatch stated that the ex-Governor Goodrich of Indiana, was leaving that city to report to Herbert Hoover that the peak of the famine had been passed. The Canadian committee of the Save the Children Fund immediately cabled Minard's Lintment Co., Limited.
Sirs,—I have used your Minnard's Lintment for the past 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any to equal yours. French Fishery At St. Pierre
The fishing fleet at St. Pierre during 1922 will be quite small in comparison to that of 1921. Last year there were 32 French trawlers engaged there. They caught about 300,000 quintals at the value of 80 to 90 francs per quintal, which was only half the price of 1920. The shore fishery was poor in 1921 and averaged only 120 quintals per day. A big cold storage plant erected by the French Government at a cost of ten million francs, is still idle.—N. Y. Fishing Gazette.
