

ITCHING BURNING PIMPLES ON FACE

Festered and Scaled Over, Face
Disfigured, Cuticura Heals.

"My face was almost covered with pimples which festered and scaled over. They itched and burned so that I could hardly stand them, and my face was so disfigured I was unable to go anywhere. I lost so much sleep that I was about crazy. The trouble lasted two months. I started using Cuticura Soap and Ointment and after I had used two cakes of Cuticura Soap and two boxes of Cuticura Ointment for three weeks I was completely healed." (Signed) Miss Dorothy Danielson, Jackson, Calif.

Cuticura Soap daily, with Cuticura Ointment occasionally, prevents pimples or other eruptions. They are a pleasure to use, as is also Cuticura Talcum for perfuming the skin.

Special Cuticura Soap and Ointment for the face, neck, and chest. Cuticura Soap and Ointment for the body.

Produce and Provisions.

(From Saturday's Trade Review.)

Codfish—The prospect of better prices in the foreign markets is more hopeful. Spain is looking much better for Labrador on account of so much of this quality going up to Greece recently. The exports for the week amounted to 15,673 quintals as follows:—

From St. John's—By schooner Gilbert B. Walters 4,614 qtls. to Malaga, from the Monroe Export Co.; by schooner Ida M. Zink 2,405 qtls. to Trinidad from R. F. Goodridge and Monroe Export Co.; by schooner Ales from Job Bros. & Co. 2,500 qtls. to Exeter; by schooner Clutha 4,510 qtls. to Barbados from Nld. Produce Co.; Baine Johnston & Co. G. M. Barr, A. H. Murray, P. Templeman; and to Halifax 200 quintals from F. Hartley and J. H. Roberts; by S.S. Silvia to New York 3,757 qtls. for transshipment to West Indies from Messrs. Bowring Bros., Ltd., Monroe Export Co., Tor's Cove Trading Co., Job Bros. & Co., A. E. Hickman & Co., James Baird, Ltd., R. F. Goodridge, Nld. Atlantic Fisheries Co., R. Templeton, James Murphy & Sons, Williams & Co., E. J. Godden and T. S. Devine.

From Outports—By schooner Arctina from Fergusson to Halifax 2704 qtls. from H. R. Silver; by schr. Gordon E. Monahan 4,472 qtls. to West Indies from the Burgess & LaPelle Trading Co. and T. Moulton; by schr. Beulah May from Burin to Civita Vecchia, Italy, 4,132 qtls. shipped by T. Hollett; and by schooner Iris from Strong & Murrell, Little Bay Islands, 2,600 qtls. to Gibraltar for orders.

Cod Oil—The market is healthy and is likely to improve further as the winter advances. The U.S. demand is particularly good. The total shipments this week amounted to 100,115 gallons, of which 74,732 gallons went to the United States and Canada. The S.S. Silvia took out 20,916 gallons to New York from Messrs. Job Bros., Ebsary and Dickinson. The S.S. Belvernon 27,558 gals. to Boston from Messrs. W. A. Munn, Jas. Baird, Ltd., A. E. Hickman & Co., Baine Johnston & Co., Monroe Export Co., M. Barr and J. B. Orr. The S.S. Digby took 20,095 gals. to Halifax and Boston from Messrs. Ebsary, A. S. Rendell, Baine Johnston & Co., G. M. Barr, and P. Templeman. By the S.S. Sachem 25,384 gals. went to Liverpool from Messrs. Bowring Bros., W. A. Munn, Union Export Co., A. Ebsary, A. H. Murray and Job Bros. & Co. The S.S. Manoa took 6,100 gallons to Montreal from A. Ebsary.

Cod Liver Oil—The markets abroad show no improvement. The large quantity of refined oil made in Norway last winter has practically swamped the market. As a consequence holders are selling their medicinal oil at lower prices than ever, and a good deal of the oil is now being used for industrial purposes as it is as cheap as common oil. Future prices of our oil will depend on what the catch of fish will be in Norway next spring. There has been a revival of the prices of all kinds of fats and oils in both Europe and America, and it is quite likely that all the old stocks will be absorbed before the new product comes on the market. The present prices offered for common oil by tanners in Boston and New York are higher than those for

which the druggists are now buying refined oil.

Flour—The price of flour advanced in the local market this week from \$8.50 to \$8.75 per barrel for leading brands following the foreign market. There is a scarcity of flour in St. John's, but it was relieved somewhat by the arrival of the S.S. Manoa from Montreal this week with 13,225 barrels. The shortage is still about 80,000 barrels as compared with a normal year. The unprecedented demand for wheat and flour continues unabated, especially to European countries, which is, no doubt, responsible for the stiffening up in prices. The total advance is \$1.00 a barrel since early September.

Pork—The pork market shows more strength this week at Chicago and New York, and prices are likely to rattle firm during the balance of the year, mainly owing to a revival in the export movement to European countries which has been very brisk the past month. The St. John's imports too are increasing and this week 1089 barrels were brought in. The present local quotations are: \$25.50 for Fat Back and S.C. Clear; \$33 normally for Ham Butt; \$38 Grocers' Family Mess, and \$25.50 Spare Ribs.

Beef—The price of Beef is advancing in the foreign markets and is now up \$2 to \$2.50 from the low point of September. Boneless in the local market is now \$18 and Family Special \$18.50 per barrel wholesale, which prices are below the cost of importation. Bos. Flank is \$21.50 and Extra Family at \$20.50. The imports during the week were 3750 barrels, which makes the total for St. John's since New Year 35,000 barrels, as compared with 22,000 in 1921 for the same period. Most of the beef coming in now caught the low market and purchasers will get the benefit.

Sugar—The recent advance in raws is resulting in a corresponding advance in granulated. The local quotation this week in the city is \$11.50. The city stocks will be ample for the fall trade, as they are being supplemented every week by additional imports. The S.S. Manoa brought in 1000 sacks this week. The present advance is believed by sugar experts to be only temporary and there is a general feeling that within six weeks sugar prices will recede to about the level that prevailed two months ago.

Molasses—Price on molasses is firm on both choice and fancy. The stocks of old molasses in Barbadoes are exhausted and with the exception of 200 puncheons coming from the Island by schooner Rodway to James Baird Ltd., there will be no more available for Newfoundland. The S.S. Silvia will give a total for St. John's of 9000 puncheons, including 35 puncheons and 10 barrels from Halifax by S.S. Silvia to Messrs. Harvey and Baird last week. Molasses will be very scarce by New Year. The price is 86 cents per gallon for Fancy and 72 cents for Choice.

Potatoes—Local holders of home grown potatoes are asking fifty cents to seventy-five cents a barrel more for their produce this week and are reporting a short crop in Conception Bay and the adjacent outports to the city. The home grown is now supplying the householders and there is very little Canadian stock coming in. The price for local is \$3 to \$3.50 in the city and \$2.50 to \$3 in the outports.

Oats—No new feature has developed in the market this week. The coming of the winter weather is likely to lead to greater activity and an export rush from Canada to take advantage of the minimum freight rates before the River closes. Dealers believe that the price of oats is about as low as it will be this season in Canada and most have placed their orders for winter stocks. The local price is \$3.70 for White, \$3.60 for Mixed and \$3.50 for Black.

Don't fail to come to the T.A. Hall on next Tuesday night, big Card Party and Dance, will be held by the T.A. Ladies' Auxiliary. Tickets 50c. Bennett orchestra in attendance.—nov.8

Women Cancer Victims.

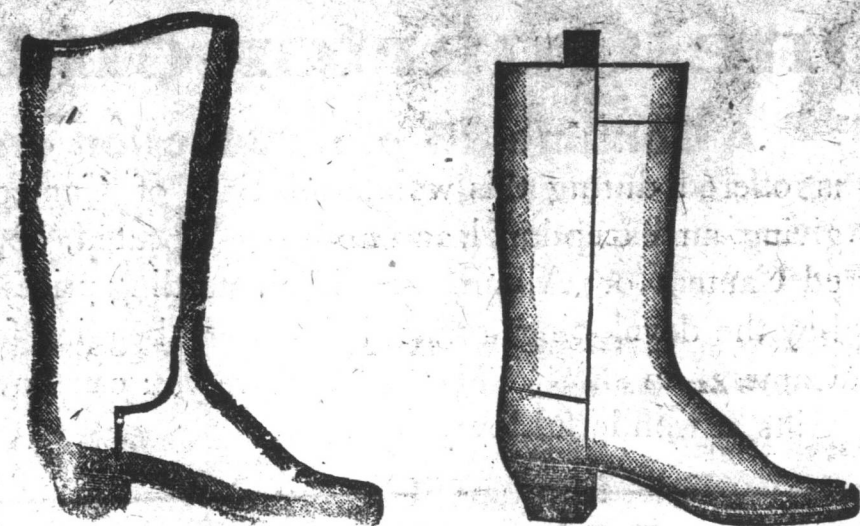

New York, Nov. 14.—One woman in every eight who dies of disease after her fortieth year meets death through cancer, according to a statement made here by the American Society for the Control of Cancer, which is urging early diagnosis in an effort to decrease mortality from this disease. The figures, obtained from the Government, are authoritative.

THE PLEASURE SEEKERS.

"It's fine to walk with merry folk 'tis good to sing with cheer,
'Tis sweet to laugh in fellowship but life demands its fee;
And man may dance and man may laugh and walk with idle men,
But when the days of pleasure pass, what then, what then, what then?
The revelers are light of heart and care's a thing they scorn.
They wave their hands at sober men who trudge to work at morn;
They sneer the burden-bearer by age mock the dreams they hold.
But wasted are their years of life when pleasure's fires grow cold.
The laughter and the feet are sweet, but man must build and toil.
And man must bridge the mountain streams and till the virgin soil;
And none may dance his years away on pleasure solely bent
And hope at last to come to age respected and content.

QUIT TOBACCO

So easy to drop Cigarette, Cigar, or Chewing habit

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

FADS AND FASHIONS.

Small hip-length coats of brown plaid are worn with street frocks of brown velvet. Smart tailors of fashionable browns have panel linings and pipings in vivid color. A blouse of spun-silk eponge is trimmed with double ruchings of crepe de chine.

HOUSE-CLEANING TIME

In the old days, house-cleaning time was a season to be dreaded by most all families of the household. The task seemed to achieve titanic proportions, radiating to every room, dilapidated, its effort to let not one escape its grasp. It seems almost unbelievable now. The season is winter in quite another way. The work carried on in a much less dramatic manner. Much energy, time and patience is saved.

Cleaning closets, trunks, boxes and ridding the home of all that is useless, is one of the first steps in house-cleaning. Then, it is a matter of taking down the heavy curtains and draperies, clean, dry and set away any particular pictures the house is to be closed for the warm months, and send them to be cleaned. After this, it is a matter of tackling the walls, floors, baseboards, and bedding of the house.

The work of the housekeeper has been considerably lightened in the past several years by the introduction of cleaning brushes, which are available for her use. These brushes for every conceivable purpose. One of the most important brushes during house-cleaning is the fine, soft hair wall brush which thoroughly cleans the room the walls and does not run into the wall paper as in the case where a rag is used.

Then there are the upholstery brushes, the brushes for cleaning wicker furniture, the matting brushes of heavy hair that get into the edges of bindings and turn the banister and stair treads. These brushes get the dirt out of the radiators, brushes for the fireplace, brushes for silk lamp shades, lace curtains, brushes to clean sprays, brushes for the bath and the toilet bowl. In fact, there is a wonderful variety of housekeeper. Then for the last, there are the brushes for the floors, there are the brushes for the doors, window casings, etc. These are brushes for washing the windows.

There are forty-five different personal brushes, mops and dusters sold by The Fuller Brush Company. All of these are brushes of quality and service backed by the Fuller guarantee. Fuller brushes are not sold in stores. They are demonstrated and sold in the home by the Fuller man.

The Fuller Man in St. John's is H. Johnston, G.W.V.A. Building, his post card, and he will give you a demonstration of the complete line of Fuller Brushes. nov.14

Fire Protection

One way to reduce the Fire Hazard is by using

Sparkproof Roofing.

WINTER ILLS

The scientist was often puzzled to account for the efficacy of cod-liver oil. The discovery of vitamins has helped solve the riddle.

Scott's Emulsion

is rich in health-building vitamins and is a helpful factor in preventing the so-called "winter ills." It helps keep the vital forces of the body strong to resist disease.

Scott & Bowden, Bloomfield, N. J. 22-25
