

BROWN CLAD SOLDIERS DRILL ALL DAY OVER GROUNDS AT RESERVOIR PARK; CAMP IN ACTUAL OPERATION

Colonel Cruickshank Makes Special Arrangements For the Reception of General Ian Hamilton and Staff Upon Their Arrival in Calgary Next Wednesday

Strenuous drills by the hour marked the camp routine all day yesterday, and the same program will be continued this morning and afternoon.

For the first real day of camp the men showed excellently in their drill work. They marched and went through their evolutions like trained regulars, and their handling of the rifles was particularly fine.

All units but two on field camp are scheduled to take part in the encampment on the field with the exception of the 101st and 102nd regiments, which will not go into camp until Monday of next week.

The 21st Hussars, as far as known at the present time, are up to the full strength, 72 men, exclusive of officers, while the staff includes 4 officers and 24 men. There is a full supply of horses, 25 of which are from Day's ranch, near Medicine Hat, and which are stated to be the best mounts ever furnished for military service in Alberta.

The scene of the operations which will be under the eye of General Hamilton will extend from the extreme north end of the camping grounds to the southern boundary of the Indian Reservation.

A squadron: Major Gillespie, Lieut. Pearce and Lieut. Hallam.

C squadron: Major Kealy, Lieut. Oats, Lieut. Boyce.

D squadron: Major Davey, Lieut. Rideout.

C squadron is from Irvine and D squadron is from Youngstown. Both of these companies came direct to Calgary.

Col. Sissons, of Medicine Hat, is in command of the provisional cavalry brigade at the camp, consisting of the 21st Hussars and the 25th Regiment. The 8th Cavalry brigade, under the

Prince Here on "Frisco" Inquiry

PRINCE A. PONIATOWSKI. Prince Poniatowski, of Paris, formerly head of the Banque Frivole, who bought a large block of the bonds of the St. Louis and San Francisco Railroad, is now in Calgary for the purpose of making a personal inquiry into the conditions of that property following its re-organization.

CAMP ORDER NO. 2

30. Stretcher Drill—Two men per company, 4 also officers commanding will submit a camp headquarters report not later than 8 p.m. tonight, a report showing officers who desire to qualify for their rank during camp.

SHEEP INDUSTRY HAS SIGNS OF EXTENDING RAPIDLY HERE

Roy Arkell, Dominion Sheep Commissioner, Says Wool Clip Is Best Ever

Roy Arkell, of Ottawa, the Dominion sheep commissioner, was in Calgary yesterday after spending some time in the south of the province in the neighborhood of Lethbridge, where shearing was going on. Mr. Arkell will be in Alberta for most of the present month and will conduct a number of demonstrations in wool at a number of the exhibitions and fairs throughout the province.

This morning he will go out to Basano and after that he will go north and will be back in Calgary in about a couple of weeks.

Speaking of his work at Lethbridge and in the south, Mr. Arkell said that never had he known of more excellent wool than that which was found this year. The shearing was almost over and a great clip of wool had been secured far in excess of anything that had been experienced before in Southern Alberta.

The better facilities for shipping which were given this year over the railway made the industry in a better position than ever and there was nothing to retard its rapid growth in the next few years.

Mr. Arkell said that undoubtedly the wool industry in Alberta would prosper greatly as the result of the removal of the tariff on wool going into the States. There is no doubt but that the wool as the removal came into effect, the industry in this part of Canada would grow by leaps and bounds.

Mr. Arkell also expressed satisfaction at the improved grades of sheep which were brought into the West and the greater care that was being taken in the matter of rearing and breeding. Only by care and increased interest could the wool industry come into anything like its own here. He hopes that many farmers will take the opportunity of the wool demonstrations at the various fairs to learn something of the profit and the advantages of rearing sheep.

FIRST ACCIDENT AT CAMP SENDS MAN TO HOSPITAL

Private J. W. Dougan, of 26th Battery, Lethbridge, Plinned Under Horse

The first accident to occur at the encampment resulted in Private J. Dougan being sent to the camp hospital suffering from a fractured rib. He is being treated by the camp medical corps and will be able to return to his home with his company.

The accident occurred when the 26th battery, of artillery, of Lethbridge, was at work with blank shells. During the first day of firing the horses, not used to the sounding reports, were restless but yesterday they behaved splendidly, with the exception of the horse on which Dougan was mounted.

Dougan and his horse were close to a machine gun, spitting shots at the rate of one every few seconds. The animal, startled when the firing commenced, reared and fell backward, pinning its rider to the ground. The field ambulance was on the spot in a minute, and the injured man was rapidly taken to the hospital. Here the doctors located the fracture of rib. Private Dougan will be kept in the field hospital until he is able to be removed to his quarters. It is not probable, however, that he will be able to do any more work at the practice drill during the encampment.

Let Your Summer Breakfast Be a dish of Grape-Nuts and Cream.

These crisp, nutty granules have delicious flavor, and the food elements which fully nourish every part of the body. Brain workers especially need such a food as Grape-Nuts because it is rich in the Phosphate of Potash which Nature requires for rebuilding daily the issue cells in Brain and Nerve—a scientific fact. If your plans for money-making and fame call for the work of keen Brains, try Grape-Nuts.

CANADIANS WHO HAVE ACHIEVED SUCCESS IN THE STATES

While the United States is annually sending tens of thousands of Americans into the undeveloped territories to the north, a Montreal paper takes time to remind Americans of big business that Canada has poured huge contributions of strong, virile brains into the melting pot of intellectual life in the country across the border.

The list of former residents of the Dominion is at least a notable one. It embraces such writers and illustrators as Bliss Carson, Roberts and Palmer Cox; such actors, actresses and singers as Clara Morris, Margaret Anglin, Julia Arthur, James Hackett, Wynne Gibson, and the late Charles O. Jones. In education Canada has contributed two university presidents, James A. McLaughlin, of the University of Idaho, and Jacob G. Chamberlain, in medical matters. Canada claims Dr. Wm. Osler, later John Hopkins University and now of Oxford University, England, and at least one showing officer who desires to qualify for their rank during camp.
