In Samoa.

It seems possible that there will be change in the controlling interest in the Samoan Islands within a short time and that the English will succeed the Gormans in supremacy there. The Samoan Herald states that a syndicate has been organized in Australia, with Sir Robert Stout at its head, whose intention it is to purchase plantations and other property of the Deutsche Handels and Plantagen Gesell-schaft in Samoa. This company is commonly known in Samoa as "the German firm." Its interests there are larger than those of any other company or individual on the islands, and it has exerted a powerful influence there in the last few years.

THE LEHOH VALLEY STRIKE.

BUFFALO, Nov. 24.—The Lehigh has raised the freight blockeds. Ten freight trains have been sent east. One freight has arrived from Sayre. The Nickel Plate has accepted freight from the Lehigh. At Jersey City the Lehigh Valley sent out its first train at 10:35, under the guard of one detective to each car. Passenger trains are going out on time, but those coming in are late. An incoming engineer reported that two engines had been destroyed and abandoned, because their furnaces had been burned out by green firemen.

furnaces had been burned out by green firemen.

An Elmira dispatch says there is now no doubt that Sayre is the pivotal point in the Lehigh Valley strike. All the general officers of the road are assembling there and preparing for a determined fight. Over 700 men are out on strike there, and 310 new men have been brought in to take their places. The most perfect order yet prevails and all is quiet there.

From what can be learned at the Lehigh Valley Company's office at Wilkesbarre, Pa., the strike is at a point now when no compromise will be made by President Wilbur. He will absolutely refuse to met any committee or any body of men who are connected with the strike.

This action includes both the day and the night turns, and throws between 250 and 300 men out of employment. This action was a great surprise, as the nail mill has been running tull force, and would have turned out more work this winter than ever before had it not been for this abutdown. The company assigns no cause for down. The company assigns no cause for the action, except that the present price at which nails are sold does not justify them to continue running

The City Loses!

The London Street Railway Compan Beats It in the Big Suit.

Judge Falconbridge Gives His Decision Yesterday Alternoon-City to Pay Costs

(Special to the ADVERTISER.) TORONTO, Nov. 24-3 p.m.—This after-noon at Orgoode Hall Mr. Justice Falconbridge delivered judgment in the case of the London street railway against the city

of London. His lordship's decision is in favor of the street railway company. He finds that the city assumed that the tracks were a nuisance, and therefore that was ground for their action. He also finds that it is impossible from the experts' evidence to say yet whether the rails were intended for a switch or a continuance of a double track. Mr. Laurier the Liberal leader, was in Montreal ou Friday and met a large number of Liberals, who congratulated him on the result of the Winnipeg elections.

Bartholomew Fowler, an old farmer from Oxford county aged 70, living with his son on McDonald avenue, was run over on the track back of the rubber works in Parkdale on Friday.

Dr. Bullis, of Dresden, who is charged by a voung woman with having accomptance in the company cannot even have a switch on Dundas street, west of Richmond is too refused and subtle for me, and I cannot give effect to it, nor do I think section 6, which deals with what in atreet railway parlance is known as the

Edward Brunt, a Hamilton boatbuilder, has been missing since Tuesday, and is supposed to have been drowned in the bay. Early Tuesday Brunt went out shooting in a small skiff, and was last seen Tuesday afternoon, when he was visiting a camp of duck shooters on the north shore of the bay.

Benjamin Richardson, of Alvinston, noticed an animal burrowing into the strawstack. He gave it a slap to drive it out, and the animal proved to be a young bull, which turned on him with great fury, trampling him to the ground and attempting to gore him. The above decision assesses the city for the costs to date and in accordance with the company's raquest, primits the question of damages to be argued before the local master in chancery, Col. Shanly.

Of course the city has the option of an appeal, which may be heard at the present Michaelmas sitting or at the Hilary term in February. When told of the result the mayor said he could not express an exact opinion as he had not seen the full judgment. "If the city is privileged to retain exclusive rights we've won; if not we've lost." This much was volunteered. It is thought likely that an appeal will be entered, which will post. death. There were fourteen horses saved.
