THE PERSISTENT WHISTLER. The man who whistles continualy in the streets, the cars and other places where he can and does annoy others is usually merely thoughtless. Whistling is a habit, as natural to some natures as breathing. The small boy tries to catch the latest tunes, the musical adult loves to repeat the measure of some tuneful refrain. A popular music composer once said that he wrote always to suit the whistle of the

boy in the street. If he could produce composition that could be easily rendered by this means he knew he had a winner The recent record of street tupes, carried to the uttermost corners of the commun ity by the whistling boys and men, will show what a potent force is the puckered would wheel close above the chimney never have attained their remarkable though short-lived vogue if it had not the persistent, ear-piercing siffleur? Is he to be caught in a net, as the Star's cartoonist today proposes, and haled to a pound where sound-proof walls will choke his efforts, or gagged in the station house while being held for trial? Of what crime or misdemeaner can he h justly and constitutionally accused? Dis orderly conduct, perhaps. Loud and boisterous melody, maybe. Or undue fitting of high notes, to the infinite disgust of of high notes, to the musically trained, perchance.

Yet it is not to be denied that the whistler is a nuisance, a serious offense, when the musical manner and the more results.

to many thousands. Morning, noon and whistles unconsciously, at his work or in his walks, while loafing or even while reading. Keen-edged nerves cannot stand the upsetting influence of a tune drilled continually into the ears. It becomes maddening, and dispositions may be easily soured in circumstances of much whist-ling. However, what is to be done about it? The whistler is with us, and will be with us to the end of time unless th

It is an old truism, however, that boyhood, fire, and three newspaper men once had an opportunity to testify from actual observation that the police sometimes did resort to the "third degree" to accomplish their purposes. That the reporters did not take advantage of the opportunity was due to the fact that they were present by old shoes without criticism. the fact that they were present by courtesy in the captain's office, which was the scene of the brutal performance; and, being in a sense the guests of the commander of the precinct, they worth twenty millions, and that was felt he had a right to enjoin them to silence.

But now that the two leading actors in the little tragedy that was played in the captain's office have retired from the force the obligation to secrecy has been removed. It can be stated, then, that in the Tendrloin station, in West Thirtieth street, a Greek, against whom there was only miest kind of evidence implicating him in a murder, was grabbed by the throat by an inspector of police, and, after being nearly strangled, was hrown to the floor and repeatedly kicked.

The circumstances leading up to the issault were almost as extraordinary as the assault itself. One of the members of the Creek colony in West Fifteenth street had been killed with a pistol shot. The assassin, also Greek, was caught red-handed by the police, with the smoking revolver in his possession, and when the reporters arrived at the station house he was

office while he interrogated the assassin.

CIRCUS RIDERS KEPT IN SHAPE AT SCHOOL

Woman Runs a Remarkable Institution in Winter == Teaches New Stunts.

Havana, Ill., boasts of one of the strangest schools in the world. It is nothing more nor less than a training place for people who furnish the thrills in circuses. In this unique institution work necessary in connection contortionists are kept in training, and taught new tricks to make the public hold its breath. Daring horseback ridreading world the joke will bear re- reporters to accompany him into his taught to do hair-raising turns, and slack wire and trapeze performers, as well as clowns and tumblers, are kept

And the strangest part of the whole

thing is that the school is conducted by a woman, Mrs. Linda J. Julian, a bareback rider, and a woman who has been in the circus business for 33 years. When she began her riding the circus business was not in its present height. It was then a sort of strolling business, and the people who followed t were for the most part shiftless, and were looked upon as of very little account. But as other things began to develop and change for the better, the in many respects more respectable. The school, which is presided over by this quick-witted and businesslike woman, is unique. The average circus performer is improvident. He is all right when the sun shines, the birds sing and the sound of the calliope is in the land. He is well-fed, housed and happy when the parades are winding through the streets of cities and towns. but when the cold blasts blow, when the snow impedes the progress of the glittering wagons, and the animals are in winter quarters, then the poor circus man is chilly, comfortless and hungry. It is then he turns a longing eye towards Havana. Near the center of the town Mrs. Julian has what is called the winter circus. It is a big, barnlike structure. The inside of this cor rugated iron building presents a sight to gladden the heart of the average boy and stir the blood of the jaded is a padded circus ring. Above are all sorts of trapeze bars, slack wires and

other paraphernalia. To one side there is a fine comfort able stable, in which live the seven handsome horses belonging to Mrs. Julian. Three nights each week during the winter months, this place is filled people from the town, traveling men the circus people try their new tricks. The practice thus given them before the public keeps them in good shape, and Mrs. Julian is enabled to pay exand cold.

The big family disbands when spring children on the bill-boards. Daley, Chuckle and Fritz are aged 10, and 7, respectively. Fritz is clown. He will make fun and promises to become famous in this line. Daley been in the business for four years and are proficient. They do some very clever, daring tricks and are great fa-

vorites. One of Mrs. Julian's most famous pupils is Dallie Julian, the idol of New York circus lovers in Madison Square Garden a year ago, where she did the daring back somersault on horseback the world who ever dared to do this

Speaking of her work, Mrs. Julian says: "I think the work fascinating. I have been in it so long it seems second nature to me. Of course there is an ele ment of danger about it, but that is one of the reasons I like it. I have been injured so many times, but so far escaped with my life. Once my horse stepped on me and cut my leg open. I had to have 22 stitches, but was idle only a

short time.
"I have always been fond of horses. When I was a girl my father had many and I was never afraid of them. loved to be around them, and was never happier than when I was riding cus rider early in life and have been

in the business ever since. "My husband, who was an acrobat, was killed while he was with a circus. mouth than the inspector jumped up, knocking over his chair, which went down with a crash. Fairly flying across the room, the inspector grabbed was killed while he was with a circus. He was passing from one car to the other one night, while a train was in motion, and fell between them and was crushed to death. It seems strange a crushed to death. It seems strange a man should be in the circus business shak-eyes long, when it is so dangerous, and then be killed on a railroad train, but such
