The Pretty Girl's Hands [By Margaret Hubbard Ayer.]

[Copyright: 1912.]

Several pretty girls and some who want to be pretty have asked me the est way to care for the hands, and I am going to answer them all at once

Bessie, who is just fourteen, assures me dolefully that her hands are ruined forever because she has always bitten her nails, and still continues value. A coin collector, however, might to bite them. Of course, if she goes on in this pessimistic frame of mind her hands will not improve. In the meantime, my dear Bessie, don't you think you could make an effort and control yourself and stop biting your nails without having to resort to the treatment given children, which consists in small slice of fat salt pork and cook rubbing a little extract of quassia on the fingernails and the tips of the fingers each time after washing them. The taste of this extract is very bitter, and it will remind you that you are doing a foolish thing and spoiling the looks of your hands, which poets call the "second face," and which should receive all the care and attention you can give them.

It isn't difficult to have soft and pretty hands, and I have known lots of girls who did housework whose hands were better looking than others who never washed a dish and never came in contact with a smoky and greasy

First of all, you must take pains to make the skin of your hands soft and white. A good cold cream or camphor cream should be used for this. As almost all of the articles used for the hands can be bought cheaper than they can be made. It is better to go to a reliable place and buy such things rather than to experiment with formulas.

No matter how good the formula, unless you happen to have the knack of making it properly, it will cost you more than the article manufactured by the wholesale, and consequently sold at a moderate price.

WHAT TO USE. Keep a small jar of cold cream near your washstand, and if you have kitchen work to do, have it near the sink. It will pay you to make some small hand towels for your own particular use in the kitchen, and every Straight," are among the latest publitime you wash your hands before drying them, apply a little bit of cream cations. or grease, and then dry off thoroughly in your own towel, There should also be a piece of pumice stone and a fresh cut lemon to

remove stains or callous spots from the hands. If your hands are always very rough take a little good catmeal, boil it r, water sufficient to make a thin gruel, strain it through cheesecloth and add a little more water; use this liquid instead of fresh water for washing the hands. This is also good for washing the face, especially for girls whose

Few girls are willing to wear gloves at night, and think it is more or less torture even if the gloves are two or three sizes too big. But the same results can be obtained; that is, nice soft, white hands, if cold cream is used roof so it leaks badly, and ruined the frequently and a good massage or cleansing cream is thoroughly rubbed into paper in several rooms both on first

This treatment will sometimes fatten the hands, but ordinarily the hand trough and makes things disagreeable does not get plump until the rest of the body fattens up, and very nervous Wish to have this tree removed, but people are not likely to have plump hands until their nerves are cured or

Red and swollen hands are usually caused by tight lacing, or stricture somewhere on the body; tight garters will show in this way, and so will tight armholes, and very red hands after eating are sometimes the effect of indiges-

If you have much housework or kitchen work to do, keep all your old gloves to wear at this time. Rubber gloves are excellent for dishwashing and for some rough work with a scrubbing brush. If you don't want your rubber gloves to crack or rot be sure and clean them very thoroughly be-

HOW TO MANICURE. Now as to the care of the nails. You only need a very few simple implements and if you take twenty minutes once a week, and two or three minutes every day, you ought to be able to keep your hands in good condition. The instruments you will need are an orange-wood stick, a nail file, some emery boards, a nail clipper, a nail polisher or piece of chamois, nail paste and polish. Instead of liquid bleach use lemon juice on a little piece of cotton, rolled round the point of your orange stick, for bleaching discolorations under the nail. First of all clip your nails in the shape desired. Don't cut them too long or too pointed. File the edges and finish off with the emery until the edge is perfectly soft and smooth. Wash the hands thoroughly and soak the nails in water; now press the skin or selvage around the nail gently away from the base, so that the half moon shows. If thin white skin clings to the nail, you can get it away with the orange stick and a little bit of powdered pumice. See that the edges of the nail are cleaned of this white skin. You should press the selvage down every evening before going to bed, as that will make the operation very much simpler, and will keep the nails in good condition especially if you dip your fingers in oil. Always keep the cuticle soft by generous application of cold cream, or olive oil.

Wash the hands one gain, apply a little bit of rose paste and then polish with the buffer and nail polish. Ridges on the nails are due to uric acid and they cannot be scraped or polished off, but when this condition of the blood is rectified, the nails will grow smooth again. If you've gotten your hands very dirty, instead of washing them at once

wash them with pure soap and lukewarm water DRY THOROUGHLY. Unless you dry your hands very thoroughly, you needn't expect to have them soft. Girls are very careless about drying their hands, and women who are no longer in their youth will find that the skin of the hands begins

to wrinkle and grow dry unless a good deal of attention is paid them. The older woman needs plenty of oil for her hands, either in the form of cold cream or pure olive oil, or some good skin food. She should rub them every night and she will be repaid for a little extra attention every day. The hand is a dead giveaway of a woman's age. I have seen lots of women whose faces have been skinned and operated on until they looked thirty years younger than they really were, but the hands have been forgotton, and proclaimed the exact age which they were trying to hide.

Problems of the Fair Sex Solved by Cynthia Grey

Has Literary Tastes.

Dear Miss Grey: Will you please answer me the following questions? 1. Could you tell me the value in Canadian money of a Columbian half-

dollar, dated 1892? 2. How old should a girl be before she does her hair up without a bow? 3. What colors are nice for a young girl's room to be done in? 4. What was the lest book Mary Jane Holmes wrote? Is she still alive? Was

she married? 5. What are the latest books in fic-

I hope I have not written too long a letter. A .- 1. If it is a half-dollar issued during the Columbian Exposition at Chicago which you refer to, from an ordinary standpoint it carries but face

put a much higher value upon it. cannot say. . The method of wearing the hair often depends upon how a girl is situated. If she works in a store or office it is often necessary to adopt growngirl at home. I like to see ribbons worn until a girl is at least 18. 3. Pink, blue, or French gray, with

white woodwork. 4. Mary Jane Holmes (her maiden name was Hawes) was born in Brookfield, Mass., and died in 1907. She married Daniel Holmes, a lawyer, of Brickport, N. Y. Mrs. Holmes commenced writing when only 15 years old and over two million copies of her books have been sold. "Tempest and Sunshine," published in 1854, was her first novel, and "Paul Rolston" her last. In company with her husband she travelled a great deal both in Amer-

ica and Europe. 5. I can enumerate but a few which are considered very interesting, but all of which I cannot vouch for, not having read them personally: "Between Two Thieves," "Riders of the Purple Sage," "The Sign at Six," "The Mountain Girl," and "The Street Called

A Legal Matter.

Dear Miss Grey: Having received so much valuable advice through your section of the paper, I would be glad if you would give me a little information regarding the following: On the school grounds adjoining our property is a large maple tree, which is directly before my kitchen window It darkens the rooms, has rotted the with moss; the leaves fill the eavesthe school board are not in favor of What can I do? Yours

BOTHERED. A .- The overhanging three shedding leaves upon the roof of your house and causing it to rot is a nuisance and good cause for an in junction and damages against the tionable, and you have no redress for the darkness. A letter from your lawyer to the board requesting removal of the tree before issue of writ is suggested.

Cold Cream for Rob. Dear Miss Grey: Kindly print in your columns recipe for "Orange Flower Cold Cream," and oblige,

A .- Here is the formulae. I hope ou will like it, Rob: Oil of sweet almond, 4 ounces; white wax, 6 drams, Spermaceti, 6 drams; borax, 2 drams; glycerin, 11/2 ounces; Orange flower water, 2 ounces; oil of neroll, 15 drops; oil of bigarade (orange skin), 15 drops; oil of petit-grain, 15 drops.

Put the fats and the oils into double-boiler and place over a low flame until ingredients mingle smoothly. Next add the glycerin to the orange flower water and dissolve the borax in the mixture, then pour it slowly into the creamed fats, stirring constantly; at the last, just before the cream firms, add the perfumed

Thanks, Margaret!

Dear Miss Grey: As I was looking through your column I noticed J. M. wants to know the recipe for milk chocolates. I thought I would write for the first time and tell her. Milk Chocolate-Two cups of sugar,

four teaspoons of cocoa, three-quarters

cup of milk, boiled and stirred; put in a pan and mark off in squares, I will close, hoping that J. M. will see this in print. Yours truly.

MARGARET.

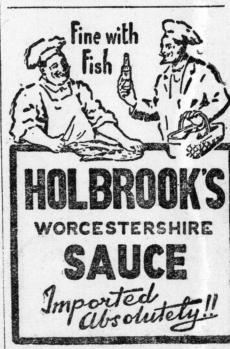

A.-We are very much obliged for the courtesy of this reader in sending along the recipe. I, too, hope it will meet the eye of J. M. and that she
