It Pays You In Satisfaction
If you will go to the trouble of asking for
Parnell's QUALITY BREAD
by name you will be well paid in the satisfaction you will find in eating the very finest and most nourishing bread you ever tried. When you ask for Parnell's you always get the best bread human skill can produce.
b

NOSE CLOGGED FROM A COLD OR CATARRH
Apply Cream in Nostrils To Open Up Air Passages.
Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear, and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.
Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid. —Advt.

BRITISH WORKERS THREATEN STRIKES OVER WAGE CUTS

Labor Alleges Concerted Attempt by Employers To Lower Earnings.

VISION BITTER FIGHTS

1,000 Employees in Government Office Quit Work Without Notice.

Special Cable to The London Advertiser and The Philadelphia Public Ledger.

London, March 29.—British officialdom yesterday began stuffing Near Eastern, the Ruhr and other urgent matters of state into pigeon-holes and prepared for enjoyment of the Easter holidays, which begin today and last until Tuesday. But the vacation period will be clouded by the most serious accumulation of labor disturbances Great Britain has known since the coal strike two years ago and which threaten early tie-ups of several important industries.

Urge Determined Stand.

Labor spokesmen recently have been agitating for a determined stand against what they term a concerted attempt on the part of employers to lower wage scales to below pre-war standards.

"If we give in now we lose what will take half a century to regain," they declare.

With a strong Laborite delegation in parliament to reinforce their side, the workers feel that they are in a better position to take a stand than ever before, so some hard-fought scraps over wage reductions are foreseen.

The employers' argument is, that in the face of rapid industriol recovery in America and energetic German competition, which still continues in some lines notwithstanding the Ruhr occupation, it behooves British manufacturers to get back to normal condiion, which they maintain can only be accomplished through wage reductions.

The most acute crisis is in the building trades. The employers today virtually threw down a challenge to nearly half a million builders, affirming a determination to reduce wages and lengthen hours, beginning April 14, notwithstanding the workers' rejection of their terms. A strike of these workers would be a great hardship, as much long-delayed building throughout the country is just now getting under way after the war interval.

Promises More Idleness.

The national executive committee of the coal miners today referred back to the local unions the wage question which holds promise of eventually bringing another period of idleness to Great Britain basic industry.

Nearly 1,000 employees of the government stationery office struck without notice today, due to a squabble with a firm of government contractors. This systematic unrest is prevalent throughout the civil service, which has become so menacing that two committees have been appointed to make an exhaustive investigation of rates of pay in all branches of the civil service.

The most novel of all the troubles is the agricultural laborers' strike in Norfolk, which shows signs of spreading to other parts of the country and in which Earl of Kimberley is championing the workers' side of the controversy.

Republican Party To Mix More In European Affairs

Ex-Governor Henry J. Allen of Kansas Declares Attitude of United States in Overseas Politics Has Been Misunderstood.

Special Cable to The London Advertiser and The Philadelphia Public Ledger.

Paris, March 29.—Participation of the United States in European affairs will be the outstanding plank of the Republican platform at the next presidential election, said Henry J. Allen of Kansas, who arrived Tuesday on the Aquitania.

Apart from political astuteness and knowledge of the international situation, his opinion is particularly illuminating at this time, in view of the fact that shortly before sailing he held several conferences in Washington with leading Republican office-holders.

Although Mr. Allen declined to say what took place at those conferences, he said unreservedly that "we now begin to appreciate the fact that not only have we been misunderstood abroad but we have misunderstood ourselves at home.

The outstanding feature of the next Republican platform," he continued, "will be a declaration as to our foreign policy—I mean one that will have an effect on the world.

"There is growing realization that President Harding's overwhelming defeat of Woodrow Wilson was not brought about by the desire of the people to reject the Wilson foreign program so much as it was the desire of the people to put the reins of government back in the hands of the Republican party. While it meant the rejection of the League of Nations as set forth in the Versailles covenant, it did not mean the rejection on the part of the American people of the idea of national relationships. The country is tired of aloofness. America is fast reaching the point where it considers that policy is being carried too far.

"The tariff plank will only be incidental in the next platform. A readjustment of the tariff is intelligently taking place. The old-fashioned high protective tariff statesman is realizing that he will have to adjust his viewpoint in order to do business overseas."

Procures Prescription For Sick Calf, But Gets Drunk By Using It Himself

Special to The Advertiser.

Brantford, March 29.—Tincture of ginger was the concoction that was alleged by the crown in police court today to have been used by Gordon Sager to promote hilarity. Sager claimed that he had procured it from a local druggist on a doctor's prescription. The magistrate claimed that the doctor had acted illegally, because the prescription had been issued for a sick calf. Testifying on behalf of the crown, H. Greeley stated that he had remained drunk for two months and had purchased scores of bottles of rubbing alcohol from various drug stores in that time, and consequently he could not swear that the bottle found on him on the night he was arrested had been purchased from John Sloan. Previously he had asserted that Sloan had sold him the liquor. Sloan was dismissed.

"You tried for hours to get me to swear in the sweat box that I bought the alcohol from Sloan, and failed, and you cannot do it now," dramatically exclaimed the crown's witness. As the result of his conflicting testimony Greeley will face a perjury charge.

WILL NOT PARTICIPATE IN ELECTION CONTESTS

Canadian Council of Agriculture Takes Stand On Politics.

Canadian Press Despatch.

Toronto, March 29.—The Canadian Council of Agriculture, the annual session of which was held here yesterday afternoon, settled doubts as to its attitude in regard to politics by passing a resolution stating that the council would take no part in the conduct of any future campaign for the election of candidates to parliament, leaving the matter to the local organizations to deal with as they found expedient. The question was brought to the fore at the session on Tuesday, and after a three-hours' discussion was referred for further debate today.

Members expressed the view that the position of the council in the political arena had been the subject of considerable comment and many rumors. In 1921, it was recalled, the council formed a co-ordinating committee, which was really the only base of operation for the Progressive party, and which sent out speakers and literature, and the opinion was expressed by some of the members that the council would do better to adopt a neutral position in political matters. Opposition to this attitude was expressed by some of the members, but their objections were overcome and the resolution was adopted unanimously.

WILL ESTABLISH BOARD WHEN REQUESTS FILED

Premier King Declares But One Province Has Made Application.

Canadian Press Despatch.

Ottawa, March 29.—The establishment of a wheat board to deal with this season's crop was the subject of a question in the House of Commons this afternoon.

J. F. Johnstone, chief Progressive whip, asked if the government proposed to establish a board, and Premier King answered that the government was ready to do so if application were received from two provinces. Application so far had been received only from one.

Robert Forke, Progressive leader, said that he had been told by Premier Greenfield of Alberta that that province and Saskatchewan were ready to make application.

The prime minister replied that he had understood so, but so far application had been received from only one province.

Right Hon. Arthur Meighen, leader of the opposition, asked if it was proposed to leave the law unchanged, and Mr. King replied in the affirmative.

"Then," commented Mr. Meighen, "it does not very much matter what the requests are."

TWO MOUNTAINS ARE SLIDING INTO THE RIVER

Inhabitants Are Terrorized As Villages in Asia Minor Disappear.

Special Cable to The London Advertiser and The Philadelphia Public Ledger.

Constantinople, March 29. — Mohammed evidently was not patient enough. Not one, but two mountains at Geivi, near the mouth of the Sakhara River, finally have decided to move.

According to reports received here, one of them advanced 50 yards at intervals in the last four months, steam-rollering the village of Jumalikeuy, swallowing up more than half a mile of road, spreading consternation to the famous strategic Geivi mountain pass.

In its wake Jemil Bey, a Turkish engineer, has investigated the mineral deposits, uncovered and laid bare an interesting cross-section of geological strata, giving up other secrets of the mountain likely to prove valuable to scientists.

Natives thus describe the mountain's activities: It starts suddenly, the earth trembles and fissures appear, engulfing houses on the line of march; then it sounds like a distant cannonade, followed by a noise like a giant panting "tchuh tchuh" as it moves.

The other mountain, which started 30 years ago—before the jazz era—has advanced very gradually, only 50 feet.

Another geological disturbance reminiscent of Biblical times is reported at Abia near Basra, where the earth suddenly swallowed up an entire village without leaving a trace. Pious Arabs point the same moral as the Jews at Sodom, saying the villagers were punished for not saying their prayers regularly and for other sins.

ARREST TOLEDO DOCTOR AS A DRUG SMUGGLER

U. S. Government Officials Believed To Have Broken Up Ring.

Associated Press Despatch.

Toledo, March 29.—With the arrest of Dr. D. J. Clarke, a prominent Toledo physician, and six other persons, including two women, United States Government officials attached to the narcotic division in this city, yesterday declared they had broken up a ring of smugglers that has brought in from Canada in the last year hundreds of thousands of dollars' worth of cocaine, morphine and opium.

Through the use of marked money, the officers brought about the arrest of Dr. Clarke last night. They declare they purchased from him narcotics of every sort, using "the decoy money" for this purpose.

DEFER ALBERTA SEEDING UNTIL END OF APRIL

Canadian Press Despatch.

Calgary, March 29.—Several leading farmers have expressed their opinion that seeding will not become general in Alberta until about the end of next month. It is stated that this year there will be a greater concerted effort to cope with weeds. The plan that will be in many instances adopted on summer-fallowed land will be to allow the weeds to germinate and make growth, next run the cultivator over the land, killing the weeds and then follow that operation with the drills. Several of the farmers emphasized the point that every effort should be made to see that their seed was free from weeds.

MISS BECHTEL, KITCHENER, SUCCUMBS IN 76TH YEAR

Special to The Advertiser.

Kitchener, March 29. — One of Kitchener's pioneer citizens passed away yesterday, in the person of Miss Mattie Bechtel, aged 76, who died at the home of her niece, Mrs. Louis DaLhmer, of Wilhelm street, following a three weeks' illness of pneumonia.

Miss Bechtel was born in St. Agatha, but spent the greater part of her life in this city.

She is survived by one sister, Mrs. Hannah Kuntz of Toronto, and one brother, Henry Bechtel, of Winnipeg.

The funeral will be held Friday from her residence to the East End Mennonite Church, with interment in the Mennonite Cemetery.

DELAY PROBATE OF WILL.

Canadian Press Despatch.

Vancouver, March 29.—While the will of the late Hon. Joseph Martin, K.C., will not be probated for about a month, it is understood on good authority that his estate will be in the neighborhood of $100,000.

FIREMEN MAKE QUICK RUN TO BLAZE IN BYRON HOUSE

Firemen of the Central Hall and No. 3 Company responded to a call for aid from Byron village at 6:40 o'clock yesterday morning.

Two hose trucks, one from each station, made the run in record time. They found the one-and-a-half-story frame dwelling of Mrs. J. Reilly in flames when they arrived. Owing to the lack of water they were unable to render much assistance in extinguishing the blaze, but they carried the furniture out of the house, saving most of it.

The damage to the dwelling is estimated at $1,200, and is partly covered by insurance. The firemen were absent one hour.

THE CAUSE OF SICKNESS

Almost Always Due to Weak and Impoverished Blood.

If you are pale, suffer from headaches, or breathlessness, with palpitation of the heart, poor appetite and weak digestion, the cause is almost always poor blood. If you have nervous headaches, neuralgia, sciatica or other nerve pains, the cause is exhausted nerves. But run-down nerves are also a result of impoverished blood, so that the two chief causes of most illness is one and the same —weak, watery blood. If you are in this condition, you should give Dr. Williams' Pink Pills a fair trial. These pills have a direct action on the blood, and by enriching it give strength to worn-out nerves and all the organs of the body. Mrs. E. G. Cruse, Chatham, Ont., has proved the value of Dr. Williams' Pink Pills, and says: "I was very weak, and could scarcely do my housework. My heart would beat so quickly at times that I thought I would choke, and I would have to lie down for a time. At night my hands and feet would grow numb, and I would have to get up and rub them to get my blood circulating. I was so anaemic that life was a burden. My mother advised me to take Dr. Williams' Pink Pills, as she had used them with benefit. I followed her advice, and soon found I was on the way to new health, and after taking these pills for a time I felt as well as ever I had done. I hope my experience will help some other poor sufferer to health again."

If your dealer does not keep these pills, you can get them by mail at 50 cents a box from The Dr. Williams Medicine Company, Brockville, Ont. —Advt.

PARLIAMENTARY LIBRARIAN PHILLIPPE SYLVAIN DIES

Canadian Press Despatch.

Ottawa, March 28—Known throughout Canada and also in other countries as one of the highest authorities on Canadian history, Phillippe Sylvain, aged 78, for 45 years in charge of the Canadian historical department of the parliamentary library, died here yesterday after a lengthy illness. Although of high literary abilities, he himself never undertook to write on Canadian history, being satisfied to review, to classify the works of other writers.

He was born at Rimouski, Quebec, a son of the late John Sylvain, the first member of parliament from that district at confederation. He came to Ottawa district 54 years ago, and joined the staff of the parliamentary library in 1878.

Battered By Waves, U.S. Coastguards Succor Sick Cleveland Civic Official

Canadian Press Despatch.

Cleveland, Ohio, March 29. — Successfully battling the white-crested waves of Lake Erie, United States coast guards early last night brought to shore Harry Holzworth, who for 24 hours lay a victim of pneumonia on the waterworks crib, of which he was the keeper, five miles out. It was one of the most thrilling rescues recorded in the annals of the great lakes history.

The coast guard power boat, with a crew of eight men and a physician, set out for the crib late today in the teeth of a high wind, after several previous attempts had failed. An hour later the boat itself became the object of rescue.

As the power boat reached the crib, John Hugo and Thomas B. Keller, Holzworth's assistants, tied a rope around the sick man. Then as the boat manoeuvred in close Holzworth was lowered twenty feet to the ice-coated cabin roof as the vessel passed. He was grabbed by two of the crew, who several times almost slipped into the water. Holzworth was finally placed inside the cabin, where Dr Harry L. Baird worked over him as the boat buffeted the waves on her landward trip.

An ambulance, held in readiness, rushed Holzworth to a hospital. His condition is extremely serious, Dr. Baird declared.

First word that Holzworth was ill was picked up by an amateur radio operator early yesterday.

In Chatty Vein

Bottles and Boxes.
—galore hold everything but dumb-bells to make you beautiful or more beautiful. Powder that sticks, lotion that soothes, cream that cleanses, toothpaste that whitens—everything here. All Toiletries to combat the April winds.

Beehives but Perfectly Safe
—are beehives of bisca. Afraid of them? Never. Can't keep away from them it seems—they are such ducky affairs. Just the right shape, too, for a Sports Hat. Of all the colors we think you'll like the greens and tans best. Wear one with a commonplace outfit and let it prove what it can do.

Finger Fashion.
—Gloves, if you've noticed, are getting terribly "uppish." They've been insisting on showing their cuffs for a long time and now they talk of displaying their linings. Well, we're mighty fond of them anyway. Still, being of smartest chamoisette and silk, they do seem a trifle coquettish.

To Tell Whose?
—Is that why monograms fasten themselves on all natty Sweaters? No, just novel, we guess. However, the Sweater is the thing and no girl must find herself without one that opens down the front. She may have a Sweater of plain brushed wool or with a pattern woven in color, but remember! no hike without one.

Treasure Within.
—a slight concern! Bags like these are enough in themselves. They are pouch-shaped and as attractive as they can be. Of leather they are nice, but when you spy one, a real complement to your favorite costume, you'll just naturally "snatch your bag and fly."

Let's Have a Set.
—Tennis?—later on perhaps. Just now we're speaking of those tempting Vest and Bloomer Sets, those go-together garments of silk that there's no use living without. And when they come in tailored effects—enough has been said. Care for flowered underthings? They're here too.

Corset Is Right
—and a good deal is done. Come feeble whispers of organdy supports—alas, they are not made for all of us. But let our corsetiere help you choose a Corset of broche fabric with elastic insertions suited to your build and wherever you are you will find comfort in all your stays.

How Veils Avail
—has long been known. No argument needed for buying them. Dame Fashion produces ever a new excuse for wearing them. Spring's saucy but unselfish bonnets are good to us; they let us fairly hide them with long Veils, but they do insist upon their being light in color.

Chokers

Gloves

Hosiery

Neckwear

Jewelry

Next to Knickers.
—she likes them best, says one young miss. She feels almost dressed up in them and she can do her daily dozen so easily when she wears her Negligee Pajamas. Pongee has always been her favorite, but she's thinking of trying printed silk ones next.

Carry a Chip on Her Shoulder?
—She couldn't, that's where the knot belongs. Beg pardon, we were talking of Bandanas, you know. Yes, they are awfully good, but then so are laces still, and organdies and linens for Neckwear. Suit sets with vestees and cuffs to match the collar simply refuse to be left out.

A Ship Without a Sail
—indeed, is not half as serious as a suit without a Choker. Fashion says small furs and if one cannot obey, what woe! But where there's a will there's a way and with low prices the way—there's left to choose between Chokers of squirrel or marten and Scarves of fox.

You'll Never Make the Slip
—of wearing two-piece arrangements once you try Costume Slips. Have you, by chance, a sheer chemise frock in your home? Ah! No place here for unruly "cami-" and "petti-." Here a Costume Slip; maybe colored, maybe white; maybe silk, maybe satin. Not at all expensive.

Run They Will.
—Catch them you can, but what good are Stockings with long rows of stitches taken in them? To get clocks where they belong come in when you have time and choose what you like in Hose. Beware of lacy webbing on the sides of new Stockings for they're sure to ensnare you.

Lose a Lot of 'Em?
—Favorite Hankies, too, we suppose. Well, cheer up! You'll find some here that will more than make up for your losses. Wager you'll go home with a couple or darling crepe de chine ones even if you meant to be practical. How do we know? We've seen them. Wait until you do!

First Aid Jewelry.
—They hold up your drapes and keep you together at the waist, these new dress trimmings, buckles of metal, patterned and jeweled so well. The new Betty Beads are smart—to match all costumes and are also worn as bracelets.

Perfume So Popular
—that it lies next to lingerie in a Somebody's heart is what we will find next. But will she be partial to France or the Orient? Perhaps the latter's spicy fragrance, so new and so fresh, will hold sway over the other's delicate sweetness. A "Battle of Scents" will decide.

COMMONS ADJOURNS UNTIL MONDAY, 9

Minister of Finance Tables Civil Service Bonus Estimates.

Canadian Press Despatch.

Ottawa, March 29.—The House of Commons adjourned at 6 p.m. yesterday until April 9. Before adjournment the minister of finance tabled supplementary estimates totaling five and a half million dollars for civil service bonus for the fiscal year ending March 31, 1924, and supplementaries of $18,208,105.66 for the year ending March 31, 1923.

The latter cover expenditures incurred since last session for the present fiscal year.
