Mitchell, the English boxer, is said to have devoted a great deal of study to the science of anatomy, He wanted to know where to hit a man to do him the most good in the most expeditious way.

France has justlest an enthusiastic sportsman by death. Adolphe Dinnetin was the handicapper and clerk of the course at the more prominent races, and the framing of some of his events are said to have been very happy indeed.

At the approaching dog show in Ottawa, "Stone-henge's dogs of the British Islands" is the standard by which dogs will be judged, which does not exclude dogs without name or pedigree. Entries in the regular class close on the 12th of March.
