Mr. Tuttle remarks in a way which childlike and bland that in the Hudson Bay the mercury frequently goes down 50 or 60 Fahreneit. This is an important discovery. In Manitoba it would "bust the tube long before it reached that delightful temperature.

THE McLend Gazette does not like the tu quoque system. After throwing all the mud it was able to clutch at THE NOR WESTER, it is now squealing because we met it with its favourite weapons. It is attenuated, young man-too attenuated.

It is on old trite saying that good wine needs no bush, but judging from a very long winded article in a recent number of the MacLead Gazette it would appear that there has been too much "bush" in McLeod whiske, a circumstance which has been charged to the Gazette, but this impeach. ment is equivocatingly denied by the ascetic editor of that omniscent journal with his

THE display of beef in Sparrow's meat market last Saturday evening was the finest we have ever seen west of Chicago. Quan-Emerson's famous steer when dressed weighed too. Such a display of beef is the best proof of what this country is for stock. It is to be regretted that some of the eastern visitors who were here during the summer could not have seen some of the prime beef of the country as it appears when dressed.

THE bowling alley was opened on Satur day afternoon with more than a royal salute. The first full strike was made by open for business. THIS is the day for the "poperlation of Boonerville." The free American citizen will be at it early and often. The Non' WESTER has already made the forecast. THE prize entertainment at Calgary Theatre to-morrow evening will we hope be largely attended. The local talent that will take part is, we feel justified in saying, sufficient guarantee that the concert will be a good one. Miss Roberts, Miss Mable Gouin and Mr. Bogers are down on the programme. for songs, while that knight "With a chivalry romantic,"
And with love and honor frantic,"

Capt. Beynton, will close the musical programme with a hunter's song. Then the drawing and the distribution of prizes, which is an attractive feature of the evening, will take place.

THE Moose Jaw News, while accepting our congratulations, says that it has always been independent. We do not think it was under Mr. Wells' management. We may be permitted to say in reply to the News that there are two kinds of independent newspapers. The first are those that are published in large cities, and who maintain more or less of an independent attitude towards the present political parties. Their names are few. The second is that class which are published in small towns, and the possible circulation being limited the proprietors are anxious to please everybody, and yet seldom or ever please anyone. No doubt the proprietor has to live, but give us a community that is not afraid to have its political parties. A place witnout politics is, as a rule, of not much account.

A MAN named McCormick, a prisoner wh attempted to escape from jail, was brutally flogged in the jail yard in Winnipeg the other day. The unfortunate 'man received twelve lashes on the bare back with the cat. Attorney-General Miller gave the order for the lashing. The Free Press and Times both condemn this act of brutality. During the whipping the Attorney-General, the Minister of Agriculture and other officials stood by and enjoyed the man's agonies. A coat of tar and feathers ought to be administered to the Legree who was present in the person of the Attorney-General, for a more brutal piece of business, administered in the name of the law, has seldom been recorded. We are glad to note the vigerous way in which the Free Press deals with this beastly exhibition of brutality, directed against a man who was are somewhat bilious, and have not the only guilty of making a dash for liberty.

An enterprising freighter the other morning who left with a heavy load for the far uorta took the liberty of appropriating a whifflie tree which "was'nt his'n." He de parted on his journey no doubt thinking that the owner would not discover the thief. The owner, however, is a coon who didn't believe in being treed in that manner. Missing the whiffle tree his suspicion was at once aroused, and engaging a man to accompany him the pair went north in hot pursuit after the whiffle tree exappropriator At the distance of twenty miles they overtook the kleptamaniac and found as they expected the whiffle tree in possession of the hyperborean bound teamster. He was not ordered to throw up his hands, but he was politely asked to unhitch the whiffle tree and take it back to the place where found it. There being no extra Mexican saddle i nmediately convenient the whiffle tree hypothecator had to ride back to Cal gary bare-back. On his arrival there, after returning the whiffle tree to the place Chisholm, Mr. Burgess' Private Secretary where he found it, he was requested to pay dated at Ottawa, Oct. 24th, and we regret | the expenses of his pursuers and for the use to learn that at the date of the letter Mr. of the whiffle tree which he did to the tune Burgess was lying in bed quite ill. He was of \$50.00. He could have bought a couple suffering from a severe attack of neuralgia of dozen for that, and no doubt he is now and rheumatism. At a later date he was sorry he didn't go into the wholesale trade improving but still very weak. We are at once in a legitimate nanner. Northeasterly bound teamsters, unless traveling effects of the accident which occurred to him by the compressed air route, should not while here, though his shoulder was slewly take other folks whiffle trees. OUR respected contemporary the Regina Leader gets off its base in its last issue. It reads its northwestern contemporaries a curtain lecture about sensational reports. the recent rumour of the shooting of Louis Riel being the text. Now we feel justified in whispering in Editor Smith's ear that it was no "idiot" or "idiots" near the foot of the Rocky Mountains that originated the late reports that Riel was shot. The rumour came from Duck Lake, and the first person will a mit is not an idiot but a devout and popular clergyman. As a matter of fact there was such a rumor, but it neither origi. nated at the foot of the Rocky Mountains nor was it given other than a rumor. As a matter of fact the local papers here gave it as such, and the Calgary correspondent of the Winnipeg Times in a special despatch mentioned the shooting of Riel as a rumor, saying that he could find no foundation for it. To prevent the circulation of rumors is impossible, and the Northwest is no exception. The editor-in-chief of the Leader, himseif, is an excellent hand at originating rumors which often have a baseless fabric, as witness his occasional Ottawa telegrams. News romancing is, however, quite fashionable, and the license which applies to the poet in one way, is in another allowed to the news vendor when there is an unusual scarcity of news items. The remarks of the Leader do pear after Editor Smith's style. They stamp of geniality which we know Brother Smith is capable of giving to his compositions.

"The Peterboro Review says that the Hon. George Brown · left no man in his able to fill his shoes.' This is quite true, but it is only tair to the living to explain that Mr. Brown wore fourteens."innipeg Times.

FROM THE PEOPLE.

ONE WHO IS LEFT.

To the Editor of THE NOR'-WESTER

SIR, - "One whe left" has a communis cation in the Herald of last week, and I notice that he commences his letter by using the editorial "we," leaving a strong susplcion on the mind of the person who can read between the lines that the communicas tion is the production of the office. There is a spi.etul school boyishness in the construction which is quite familiar to those who are intimate with the namby-pambyism which is such a conspicuous feature in the compositions which grace the co'umns of your local contemporary. I know no thing of the truth or untruth of the assertion made by "one who le't," but that it is the product of the united talent of the Herald office I am perfectly sure.
