RUTHERFURD'S  
MAP OF THE SOUTHERN COUNTIES,

(ROXBURGH, BERWICK, SELKIRK, and part of NORTHUMBERLAND),

Carefully compiled by J. BARTHOLOMEW, Edinburgh, F.R.G.S., from the Ordnance Survey Plans, on the scale of one-third of an inch to the mile. For beauty of engraving and geographical accuracy, this Map surpasses any County Map of the District ever yet published—it forms an excellent HUNTING MAP, Price, Mounted on Cloth, done up with a sketch map of the District, &c., in a handy case for the Pocket, 2s. 6d., with an accompanying Epitome of country information for the use of tourists, anglers, and sportsmen, 3s.
