

# CANADIAN PACIFIC RAILWAY

## MANITOBA and the CANADIAN NORTHWEST

### LANDS AT REDUCED RATES

The Canadian Pacific Railway Company are making a general reduction in the price of all lands listed at \$4.00 per acre and upwards, amounting in most cases to from 25 to 33 1/2 per cent.

**NOW IS THE TIME to secure lands in well settled districts at low figures.**

Only one tenth of purchase money required down, balance, nine annual instalments, interest six per cent. Deferred payments made to fall due after harvest to meet convenience of farmers.

Full information contained in the Canadian Pacific Ry. Company's publications which are sent on application.

Each volume contains numerous illustrations of farming operations, &c., upon the prairies. The readers shall find also a great number of letters from settlers in the country telling of progress, and a good map of the country. Copies will be mailed free to any address upon application to any Agent of the Canadian Pacific Railway, or to

**W. F. EGG,**  
District Passenger Agent,  
MONTREAL.

**L. O. ARMSTRONG,**  
Colonization Agent,  
MONTREAL.

N. B.—The Manitoba corn has just been awarded the first premium at the Millers' International Exhibition, at London, in England.

Do not miss the excursions during harvest time and apply for circulars about particulars.

**AUZIAS-TURENNE,**

Man. Director.

The only one on the market, which the horses can run without their work being broken.

“LA CANADIENNE”  
Perpetual Press (Patent and improved.)

It affords us great pleasure to have it known that the improvements brought to our hay press “La Canadienne” have made it superior to all other horizontal presses working in the shape of half a circle. The fuller's course is 33 inches, that is from 6 to 9 inches longer than in any other horizontal press, which gives a wider opening to put the hay in and more speediness. Three men will do more work with our press “La Canadienne” than with any other press in the shape of a half circle, while it is much less tiresome for the horses. The materials employed are of the first quality, with the exception of two pieces of chilled cast iron, all the other parts are of steel and malleable cast iron.

We guarantee our press to work at the rate of 10 to 13 tons of hay every day without the horses being tired.

We manufacture four sizes of presses:

14 x 18      16 x 18      16 x 20      16 x 22

We will send this press for trial to any responsible party. Write for our Catalogue and list of prices.

The thrashing machine represented in the above engraving is our vibrating machine. It has a run of 25 inches long with teeth in steel guaranteed so that they can bend without breaking as the norway.

The iron work that support the drills is all in wrought iron which is very advantageous and economical as any blacksmith can make it so that all long delays are avoided.

The sieve of our vibrating machine is longer and wider than all the other machines of the same kind manufactured in Canada. This new shape facilitates the cleaning of the grain and the sieve is less exposed to spread its contents outside. We give seven passes with this sieve.

The horse power runs on cast iron rails, all the shafts of the bridge are in steel and measure 1/2 of an inch which represents half a line of a larger size than those employed by the other manufacturers. All the shafts in the separator, the sieve and the horse power are in steel. We never use any iron shaft. Our machine is acknowledged to be the easiest to run and the one which lasts the longest.

We also manufacture a Canvas Separator with improved Railroad Horse Power; Railroad Upright Hay Press; Rod Upright Hay Press; Straw Cutter No. 2, 11, 13; Spring Harrows, 16 teeth; a Washing Machine patented May 1892.

We want active and responsible agents in all the localities where we have none yet. Any farmer shall find it an economy and be certain to have the most improved machine in applying to us. We allow a special discount for orders sent by mail.
