

The patient's point of view is always considered by the thoughtful physician. Chronic sufferers from phthisis, bronchitis or winter coughs frequently object to continued use of an unpleasant remedy.

Angier's Petroleum Emulsion

being free from any pronounced taste, may be advantageously prescribed in such cases. Besides the prompt relief it affords the cough, bronchial irritation, night sweats and other distressing symptoms, it also acts as a nutritive tonic and remarkably overcomes the mal-nutrition and weakness associated with pulmonary diseases.
