| Previously to the cold Guard marching off, I inspected the several articles in charge, and found them agreeable to the above Schedule; the Guard Room clean, the Board of orders legible, (or otherwise.) Immediately after the old Guard marched off, I read the orders to the Guard, after which I visited the sentries, and found them properly posted and instructed in their duties. I repeat orders, I inspected every relief both going out and coming in, and found them fit for duty. The sentries were visited frequently during the Guard, and found alert on their posts, and correct in their orders. o'clock by night,<br>The Field Officer of the day at do. by do., and at do. by do.,<br>The Captain of do. at do. by do., and at do. by do.,<br>The Subaltern of do. at do. by do., and at do. by do. |           |                    |                                |          |              |                            |
