

VASELINE.

EVERYBODY knows the great value of this remedy in a household, but everybody does not know that the imitations of it, which some second class jugglers dishonestly palm off on their customers, have little or no value. What should be understood by the public is, that it is not a mere question of comparative value between "Vaseline" and the imitations, but that the imitations do not effect the wonderful healing results of the world renowned "Vaseline," and that they are not the same thing nor made in the same way. Besides this, many of the imitations are harmful, irritant and not safe to use, while true Vaseline is perfectly harmless.

Perfect safety therefore lies in buying only original packages put up by and marked with our name.
