Landscape Work. In developing lawns and estates great care and judgment is required in the locating of walks and drives, and selecting suitable varieties of trees and shrubs to be planted, and the arrang ing of them artistically. Many home lose their charm for lack of knowledg and experience in developing the grounds. This difficulty is overcome by our landscape department, which in charge of experienced men qualifie to develop grounds of city or countr homes, large estates, school and pub lic grounds, parks, cemeteries or factory lands. Now is the time to discus or spring work. Correspondence ited. Brown Bros. Co., Browns Nurseries, Welland Co., Ont.

a strenuous fight.

Mr. Drew was the first to speak after the announcement of Mr. Howitt's victory. He asked the convention to bear with him for a few minutes, as he believed it would be the last Conservative convention he would ever address.

"I might as well frankly admit that I am disappointed," he declared. "I have worked very hard for years past, as you all know, and I had reasons, I think to expect that you would have shown your appreciation by conferring this honor upon me. MAY ADMIT TURKEY TO TRIPLE ALLIANCE

Vain Effort to Borrow Money in England and France to Pay Germany For Fleets.

LONDON, Sept. 25—(N. Y. Sun Cable.)—Little things that occasionally arise in the complicated relations between nations sometimes engender more heat than big issues. When this happens it is usually true that the quarrel masks more serious trouble underneath.

ble underneath.

A case in point is the matter of a trifling Turkish loan of six millions sterling, or about \$30,000,000, which has been agitating the foreign office of France, Great Britain, Germany and Austria for months. The real issue, which can scarcely be concealed any longer is the question when ed any longer, is the question whe-ther or not the new Turkish Govern-ment intends to throw in its lot with

Turk has decided on this policy has
been and still is strong, but perhaps
the situation has not passed beyond
the stage where it is impossible to
reconsider the design.

It goes without saying that Russia,
France and Great Britain would deeply resent an important change in the
general European balance of power.
This resentment naturally became vocal exasperation when Turkey coolly
tried to borrow money in France and
England with which to pay her German friends for new naval ships and

There is general commiseration felt toward Russia amidst these complications. She is most of all the great powers concerned in Balkan developments and yet her interests are scarcely considered, and she is only incidentally consulted even by her ally France.
