MOUNT PLEASANT RATEPAYERS MEET

Majority Opposed to Secession — Water Question Insurmountable, Says J. Bell.

At a meeting of the Mount Pleasant Ratepayers' Association Friday night, satisfaction was expressed that the works commission was prepared to take the necessary steps to have the water supply as soon as possible.

The manifesto as issued by the North Toronto Ratepayers' Association was discussed, and the statement that 85 per cent of the citizens in the section were in favor of secession was challenged, as the residents, especially in the Mount Pleasant section, had been thoroughly canvassed, and it was found that the majority were opposed to secession.

Statement incorrect. "The figures given in the so-called statement that appeared in a local evening paper omitted to mention anything in regard to the water supply for the upkeep of the schools. The statement that the city has never spent any money in connection with our sewerage system has been found to be absolutely contrary to the fact as the present sewerage system of North Toronto was put down out of the general tax rate, which was usually levied by local improvement," said F. J. Bell, a member of the committee.

"In connection with the water supply for this district, apart from any other question, it would prove to be such an insurmountable obstacle in the way of separation from the city, as past experiences of North Toronto have proved that the possibility of getting a water supply from any other source is practically out of the question," he concluded.

The committee is trying to arrange to have a very interesting meeting next Tuesday night, and has also decided that the regular meeting will take place on Tuesday night of each week.

SERIOUS STRIKE IN UPPER SILESIA

Berlin, July 27.—One of the most serious strikes in the history of upper Silesia has broken out at Chorzow and Sarzear, near Katowitz, where the electric light workers walked out ostensibly owing to Spartan influence. The artificial lighting of the entire province has been cut off, coal mines are not operating, and every industry that depends upon electricity for light and power is threatened.

POLES CEASING ATTACKS UPON UKRAINIANS

Vienna, July 27.—The Poles appear to be ceasing their offensive against the Ukrainians. The latter are using all their strength against Kiev, intending, if successful against the Bolsheviks, to return and contest Polish partition of eastern Galicia. The Rumanians declare that their artillery is stopping the Hungarian advance, but the Hungarians claim fresh successes.

Y. M. C. A. BOYS PUT OUT FIRE

Camp Pine Crest Buildings Suffered, But Boys Carry On.

A fire of a rather serious nature took place at Camp Pine Crest, Toronto, Muskoka, the summer home of the Toronto Y.M.C.A. on Sunday morning. An hour and a half after midnight the alarm was given, and the campers awoke to find the dining hall and cook house a mass of flames. The officers in charge of the camp had the bugle sounded and the boys assembled with their leaders. A rapidly organized bucket brigade at one side and a gasoline pump at the other confined the fire to the building in which it started, and prevented any spreading to the tents, trees or boat houses. The camp officials cannot speak too highly of the conduct of the boys under their charge during the severe nervous tension to which they were subjected while the fire was burning fiercely. For two hours or more they continued to pass water up a steep hillside to the burning building, remaining at their posts in spite of smoke, mud and weariness until all serious danger had been averted.

When the roll was called every boy was found to be safely accounted for. No accidents resulted from the fire. While the fire was still burning some of the leaders were despatched to Toronto, Bala and other places to secure the necessary food for the morning meal. An open air fireplace was prepared and breakfast was served to the boys only one hour late. Thanks to the energy and organizing ability of the chief in charge of the camp cooking some of the boys remarked that the meals of the day were even better than usual.

At a meeting of the camp directors, which was held here yesterday, it was decided to carry on, notwithstanding the fire. Out trips have been arranged for the next few days, during which time new cooking equipment will be installed.

At the present writing the cause of the fire is unknown, and it has not been possible to get the exact extent of the value of the burned building and contents was covered by insurance.

TONES IN A PIANO.

Many elements enter into the construction of a piano, but first and foremost and outstanding among them all is tone. Nothing else can take its place. For this reason we have an artist of the high standing of Jan Czerny, who writes of the piano made by Y. Olde Fierme of Heintzman & Co., Limited: "I attribute a great deal of my success to the facility with which the emotions are expressed by the perfect response and brilliant tone of your piano."

The Czerny brothers make the Heintzman & Company piano their exclusive choice on their touring in Canada, as also in South Africa and Australia.
