

# THE SILVER

The Silver Bar property is situated strictly within the rich native silver and cobalt zone and adjoining the richest portion of the famous Gillies Timber Limit and one and a half miles from the Town of Cobalt.

The sale of One Hundred Thousand Shares of the Silver Bar Mining Co.'s stock—par value \$1.00—commenced April 9, 1906, at FIFTY CENTS PER SHARE. For shares and information, apply to

**JOSEPH HOBSON, 20 Manning Arcade, Toronto**

PHONE MAIN 5188.

## You Want an Absolutely Sure Investment

The investment that we have to offer you has passed beyond the experimental stage.

It is a copper refinery, refining copper equal in purity to the very best product on the market.

And the supervision of this refinery is looked after by our principals, Mr. L. Sapery and Mr. H. Sapery, owners of the Syracuse Smelting Works.

Men who have spent years in experimenting and perfecting new methods for refining metals.

And ours is the only copper refinery in Canada.

But you can participate in the profits from this refinery by buying shares in the Montreal Copper Co., Ltd.

They sell for \$100 each and last year yielded over 17-2-3 per cent.

This proposition is open to investigation at any time.

If you are in the city, telephone Main 1813, and we will make an appointment to meet you.

Or, write for our booklet—it contains interesting facts about copper.

**Montreal Copper Co., Ltd.,**  
332 William St., Montreal.

## The McCormack COBALT Silver Mining Co.

of Toronto, Limited. (No Personal Liability)

CAPITAL \$5,000,000—in shares of \$1.00 each. Properties—92 acres Coleman Township and 80 acres in Buckle Township. Surface samples assay from 97 to 441 ounces Silver per ton. Further development will begin as soon as the weather permits.

ORDERS NEW TRIAL.

The divisional court have ordered a new trial in the case of J. R. Booth of Ottawa against the C.P.R., which was dismissed by the county court of Carleton. Booth was suing for damages to fourteen horses shipped by the C.P.R. to Halesbury. No provision was made to rest the horses after a journey of 36 hours from Ottawa and North Bay. One horse died and another was severely injured.

Physical Training for Children.

Members of the Canadian Club listened to an address on "The Relation of Physical Training to Modern Civilization," by George Fisher of New York, secretary of the Athletic League of the Y.M.C.A. of North America, at the weekly luncheon yesterday.

Dr. Fisher advocated more play grounds for children in the larger cities, and the physical training along scientific lines of every scholar in the public schools.

## APPRECIATE THE BEAUTIFUL

Hundreds of Visitors Enjoy Easter Charming of the Rye Store.

"A Spring Song" made Versatile! was the way one rather postcardly inclined visitor referred to Diamond Hall's Easter display. But the sight is not unworthy of poetic description—with its aisles and alcoves of greenery and blossom, surrounding resplendent cases of plate glass and mahogany, within which gleams the rich beauty of gems and rare articles of vertu. Torontoans are not slow to appreciate artistic effects in decoration, and the store has been visited by admiring streams of sightseers and customers—the former being as welcome as the latter to the taste of the wealth and color with which the spring festival of Easter is being fittingly celebrated.

## ELECTRIC LOCOMOTIVES

On the Grand Trunk Railway.

When the Canadian Westinghouse Company finish their work in the famous St. Clair tunnel at Sarnia, this subterranean passage will be an object lesson in some of the modern uses of electricity.

The Grand Trunk Railway, with their customary foresight and progressiveness, decided to equip the St. Clair tunnel with electricity and naturally turned to the Canadian Westinghouse Company to do the work. Besides installing a complete electric lighting plant, with dynamo engines, arc and incandescent lights, wiring, etc., the Canadian Westinghouse Company built electric locomotives to be used in hauling the Grand Trunk train from the Canadian terminus at Sarnia to the American terminus at Port Huron.

This famous electric company is meeting with the utmost success in the Canadian field. Their electric lighting plants, motors, engines, air compressors, rock drills, mining motors, steam turbines, pumps, etc., are firmly established in the popular mind, and as a consequence their shops at Hamilton, Ontario, are working day and night.

Equally gratifying reports come from the United States. At the works in East Pittsburgh, Pennsylvania, 12,000 operations are employed in the electrical department, and during the month of January produced 25 per cent. more apparatus than ever before.

The proposed bond issue recently demonstrated the popularity of Westinghouse securities as an investment. Half of the total issue of \$15,000,000 of bonds was offered to outside stockholders, and the entire amount was subscribed the same day. Prominent bankers said that these bonds will be at a premium inside of 60 days.

Two Splendid Opportunities of Visiting California.

Imagine a train over the best lines from Toronto to California and return for \$74.90 and \$79.90 first-class, and this is what the Grand Trunk are able to offer their patrons and friends. Tickets for the first trip will be good going April 24 to May 1, with return limit July 31. Low rate is on account of meeting of Imperial Council Annual Arbitration Order of Mystic Shrine.

The second trip is a second of the National Educational Association meeting at San Francisco, and will appeal to teachers and their friends of colleges and universities, and will be on sale June 24 to July 7, with return limit to Sept. 15. Choice of any direct route going or returning, and certain stop-over privileges allowed, if a sufficient number signify their intention to join, special arrangements for cars, hotels, etc., will be made. Full information may be obtained at Grand Trunk city office, northwest corner King and Yonge streets, or by addressing J. D. McDonald, district passenger agent, room 308 Union Station, Toronto.

The Last Washington Excursion This Season.

Via Lehigh Valley Railroad Friday, April 13. Tickets only \$10 for the round trip from Suspension Bridge. Stop-over allowed at Baltimore and Philadelphia on return trip. Tickets good ten days. Side trip to Atlantic City \$17.50. The time of year to visit Washington and Atlantic City. Call at L.V.R. office, East King street, for maps, guides and particulars. Phone Main 1588.

New Teachers.

Inspector J. L. Hughes has arranged for several additions to the teaching staff of Toronto's schools after Easter. He invited the co-operation of a number of teachers, each of whom, in turn, advised a teacher from her own county to make application.

Most Recent Eight Gallons.

Ottawa, April 9.—Retail milk dealers have suggested that instead of an eight-gallon can for milk it should be sold in cans weighing eight pounds. To this Archie Campbell, M.P., who represents the farmers, will not consent.

Wood's Great Kidney Remedy.

The Great Kidney Remedy. Wood's Great Kidney Remedy. Tones and invigorates the whole system. Cures all kidney troubles. Makes blood in old blood. Cures Nervous Debility, Mental and Brain Fory, Dropsy, Rheumatism, Gravel, Gout, etc. Price 25c per bottle. One will please, it will cure. Sold by all druggists or mailed in plain package on receipt of price. No pamphlet needed. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

Chicago Cattle.

Ennis & Stoppard, 21 Melville-street, reported the following fluctuations on the Chicago Board of Trade:

Wheat—The fact that a reinspection of the wheat in St. Louis elevators revealed less No. 2 red and more lower grade than previously announced, was seized upon by buyers as a bullish item and was used effectively in driving up prices in consequence of which prices during most of the season have been higher. As a rule traders act upon news of this character and consider a low price later. It is only logic that a low grade wheat is worth less than a high grade and it is a matter of history that a large crop of fine quality is a more bullish argument than a small crop of low grade. This fact, however, is generally an after consideration, but in the end it is the fact that helps the market.

Wheat—The fact that a reinspection of the wheat in St. Louis elevators revealed less No. 2 red and more lower grade than previously announced, was seized upon by buyers as a bullish item and was used effectively in driving up prices in consequence of which prices during most of the season have been higher. As a rule traders act upon news of this character and consider a low price later. It is only logic that a low grade wheat is worth less than a high grade and it is a matter of history that a large crop of fine quality is a more bullish argument than a small crop of low grade. This fact, however, is generally an after consideration, but in the end it is the fact that helps the market.

## NOTICE TO THE LIVE STOCK TRADE:

GENTLEMEN: We beg to inform you that there are Two Market Days Weekly here, viz.:
