

Palpitation of Heart and Kidney Affection Cured.

MESSRS. RADWAY & CO., NEW YORK—*Dear Sirs:* I have been an invalid for the past five years, and have been treated by several eminent physicians in Chicago, but found no relief. I have paid out over five hundred dollars for medicines, and finally went to our druggist here, Hale Bliss, and he recommended your Renovating Resolvent. I took one bottle, and before it was half used up I felt relieved, and after taking three bottles I am a well man. I have gained forty pounds within two months, and now weigh one hundred and seventy pounds. My symptoms were these: Palpitation of the heart, burning sensation; I could not eat anything ~~four~~ without very great distress and throwing up of watery substance, dizziness and pain in the head; I would pass bloody water, and have terrible pain in the kidneys and back; my food must always be light; but now I can eat anything without distress. I never in my life felt better, and now and evermore I will always speak a good word for Radway's R. R. Resolvent.

WINFIELD SCOTT GILES.

MAYWOOD, COOK CO., ILLINOIS, Oct. 6, 1876.

I have been acquainted with W. S. Giles a long time, and know his statement to be true.

MAYWOOD, COOK CO., ILLINOIS.

HALE BLISS,
Druggist and Postmaster.

A Severe Sore Throat Cured by Radway's Ready Relief.

DR. RADWAY—*Dear Sir:* I write to inform you that I was attacked with a severe sore throat, and tried many remedies, all of which did no good, and I spent ten dollars without any relief, and I was induced to try one bottle of your R. R., and before I used one-third of the bottle my throat was entirely cured; I am never to be without your Ready Relief, for it is the best medicine that ever has been brought to the public; I also send you a stamp, for which you will please send me the book called "False and True."

Yours respectfully,

D. D. HAYWOOD.

Practicing with R. R. Remedies.

ST. HYACINTHE, P. Q., CANADA, August 28, 1881.

TO DR. R. G. RADWAY—*Dear Sir:* I account it little sacrifice, indeed, to allow you to publish my letter with regard to Scrofula, after the cures I have been able to effect by following scrupulously your system of treatment.

I again affirm what I spoke of in my last note, and I could recount to you several other cases of different maladies being cured by your system, though the one of Scrofula is by far the most remarkable, and was, in fact, looked upon by many as nothing short of a miracle.

The secret of the high reputation I hold here as a clever physician, is the following your system of medicine, and in justice I lay my laurels at your feet. I practiced in the north of Scotland for nearly fifteen years by the old system, and did not gain one-half of the confidence and love of the people that I have gained here in these short six years, while following the R. R. R. system.

I am your obedient servant, RANDOLPH MCINTYRE, M. D.

Chronic Diarrhoea of Five Years' Standing.

RICHMOND, VA., Sept. 22, 1884.

DR. RADWAY & CO.: Please send me a copy of your "False and True," as I have been down sick for five years with what the doctors call Chronic Diarrhoea, under their treatment. All the while others pronounced my disease incurable. On looking over your Almanac last March, reading your medicine was good for chronic diseases, I bought your medicine; have taken two bottles of the Sarsaparillian with two boxes of Pills, the Ready Relief when needed, and I now think I am a well woman.

Your humble servant,

N. WALLINGTON.

Bilious Fever Cured.

DR. RADWAY—*Sir:* I am just beginning to find out the good of your medicine, and am doing great good with it. I have just recovered from a severe attack of bilious fever, after being under the doctor's care near two weeks and got no better. My mother was with me; she said, "Now, I want you to try Dr. Radway's Relief and Pills." So I put aside the doctor's powders and other stuff he had left, and took a dose of your Pills; followed that with Relief.

Old age is more subject to lingering, but youth to acute diseases.

There are four signs of inflammation—redness, swelling, heat and pain.

Paroxysms of fever come on with a chill, and go off with a sweat.
