

Persons desirous of obtaining medical advice for their children as out-patients, are requested to take notice :—

That they must apply at the Hospital, at 2 in the afternoon.

The visiting days for parents and friends shall be Wednesday and Sunday, and not more than two shall be admitted to see any patient at a time.

The attendants are bound strictly to enforce these Regulations, which are intended to promote the general comfort. It is hoped that the friends of patients will feel it to be their duty to conform to these rules, and to behave with propriety to the Attendants.

Persons once dismissed for breach of these Regulations, cannot be re-admitted to the benefits of the Hospital.

The Managing Committee will give immediate attention to all complaints. These must be made in writing, and signed by the party making the complaint.
