Helpful Hints for Clothing Buyers

The common ordinary kind of Clothing is plentiful enough. You'll find it on every hand. The kind we sell is not so plentiful—indeed it is quite rare. You can always rely on our qualities being dependable. The make up, cut, sewing, linings, trimmings and finish will stand the closest inspection. Ours is correct in style and perfect fitting and makes a man feel better for wearing it, besides being money in pocket for having bought it. Everything in clothing, for man or youth, boy or child, finds showing here, with variety enough to satisfy all classes, while prices are within reach of all. With every purchase goes our guarantee, "Money refunded if not satisfactory." In Furnishings and Hats the same standard of excellence and superiority is maintained. The best you can get for the money, and a greater variety than you'll find outside this store. Come and see for yourself. These timely suggestions for Saturday buyers.

T. EATON CO. LIMITED
190 YONGE ST., TORONTO.

THE TORONTO WORLD

ONE CENT MORNING PAPER.
No. 88 YONGE-STREET, Toronto.

TORONTO CAPITAL IN MINING.

If Toronto keeps on in the way she is going, she will become to the Kootenays what London is to the Rand. Toronto now boasts of the control of two of British Columbia's three regular dividend-paying gold mines. The purchase and development of the War Eagle by the Gooderhams put Toronto in the forefront as far as Rossland camp is concerned, and now the acquisition of the Cariboo by another local syndicate gives the city the lead at Camp McKinney. From this enterprise of leading citizens Toronto derives much benefit in the way of kudos and free advertising, but the most direct and welcome result comes in the way of dividends flowing into the pockets of her citizens.

As regards the Cariboo, the record of the mine is that with a 10-stamp mill, it has already, after paying for its own development and equipment, yielded \$250,000 in dividends. On the first of this present month 20 stamps started dropping on the property, and the first two weeks' clean-up with the new plant shows that the mine is now producing at the rate of \$28,000 per month. In other words, it is earning upwards of 24 per cent on its entire capital. Out of this, after providing for working expenses, it is understood to be the company's policy, starting with July 1, to pay a regular dividend of a cent a share per month, with bonuses from time to time as the accumulation of profits warrants. In other words, the Cariboo is, it is understood, to be at once placed upon a basis which will make it a 12 to 15 per cent investment.

As for the more remote future of the property, it need only be said that the company is developing rapidly with a view to raising its battery from 20 to 50 stamps in something like a year hence.

DEPARTMENTAL STORES AND MANUFACTURERS.

That the departmental stores are a decided advantage to Toronto is more evident now than ever. When first organized they catered to the retail trade of the city alone. Later on their business extended until now their goods are distributed from one end of Canada to the other. While the business of the stores was confined to the city of Toronto, the smaller retail merchants had good reason to complain of the disastrous effects created by their big rivals. Now, however, the business done by the departmental stores has reached such a volume, and indirectly has conferred such benefits upon the city, that we imagine even the retail merchants will admit that the existence of these large concerns in Toronto is decidedly advantageous to the city. We think we are safe in saying that twice the quantity of goods is now distributed from Toronto as has been distributed at any past time. If the wholesale trade has suffered, the retail business has more than made up for it. The increased business necessitates the employment of a large number of extra clerks, salesmen and saleswomen. Moreover, the indirect benefits which accrue to the city from the expansion of the retail trade are fully as important as the direct advantages.

The centralization of a large part of the retail business of the Dominion in Toronto has a marked tendency to bring here such manufacturers as supply the departmental stores with the goods they distribute. Particularly in this noticeable in the line of manufactured clothing of all sorts. The growth in this line of business has been very large of late, and this growth is directly traceable to the development of the departmental stores. In other lines of manufacture the same development is noticeable. It must be admitted, even by those who have fought the departmental stores the most, that their presence here has benefited and is benefiting the city in a very large degree. Not a little improvement in the situation in Toronto must be credited to them.

PROMOTING THE TOURIST TRAFFIC.

It will interest the business men of Toronto to learn that an association has been formed in Montreal "to encourage bringing all tourists and merchants to the city, and for the better making known of Montreal and its advantages as a summer and winter resort." The organization was decided upon at a meeting of citizens held on Tuesday evening at the Windsor Hotel. A provisional committee was appointed to organize and outline a policy for the association. At the meeting reference was made to similar organizations in American cities and in Europe, particularly in Sweden and Denmark. To give our readers an idea of what is being done in Europe in this line we quote a few facts in regard to the Swedish Tourist Society. This organization is one of the largest in the world, its membership on Jan. 1, 1897, being 14,869. It is a national in its character, having members all over the country, and aiming at the benefit of the country as a whole. Each member pays an annual fee of three kroners (about \$20), the state contributes 6000 kroners a year, and among the subscribers are the banks, insurance companies, railway companies, steamship companies, telephone companies, breweries and other industries, hotels, restaurants, cafes and all kinds of amusement resorts. The society has a paid secretary, assistant secretary, editor and an office staff of fourteen. Last year 22,788 inquiries were received from intending tourists all over the world. Publications, all got up in the most artistic manner, are issued in

several languages, including English, French, German and the Scandinavian dialects. The society has agents and representatives in every part of the world and local agents and guides throughout Sweden.

The cultivation of tourist traffic is a business and it should be carried on as such. It is to be hoped the Toronto Board of Trade will soon call a special meeting, as proposed, and organize an association similar to those that exist in all progressive cities on the other side of the border.

LIEUT. KEATING'S CAREER.

Exact Wordings of Cablegram Received—Where and When Death Came.

Regret your son, Lieut. Keating, lost his life in the Niger. He was a brave and noble man. His death is a great loss to the country.

That is the message Mr. Keating received at Washington, as he was laying down his pen, after registering at the Arlington Hotel. His son was killed near Radfa, where he was a prisoner. It is not known whether the deed was done by wild natives or those under Lieut. Keating's command. The expedition was military, but with what object it went out is not known—even the date of the death is not known—only the cablegram is yet in possession of the family.

Mr. Keating returned from Washington at 1 o'clock yesterday and inquired his son's death must have been some time ago, as it would take several weeks to get the news down from the Niger country. The Niger, which is not marked on the latest map of the Niger country (issued by the Times), is supposed to be 80 or 90 miles above Fort Gaidie, on the Niger.

Lieut. Keating was ordered 170 miles above the latter place to Laforce, between which place and Fort Gaidie Radfa is about half way.

In his last letter home, dated August, he describes the Niger as a mile wide, and very much like the Thames, the scenery around being not at all tropical.

The young man was 23 years of age, B. A. Clonard Keating being his full name. He received his commission at Sandhurst, England in 1892, and joined his regiment, the 100th. Shortly after the regiment was ordered to India, staying there two years.

It was when a new force was being organized on the Niger, three battalions, called the West African Frontier Force, that Lieut. Keating was offered his post. The force was composed of the natives of that district, of the House of Commons, to be of good physique and fine fighting men. The young man expected his captaincy shortly. Whether the corps was raised for the purpose of extending British rule into the interior, or for the purpose of conquering it, is not known.

Lieut. Keating had bright prospects. He was a born soldier and was cut down in the midst of a most promising career.

STEAMER HAMILTON AROUND

At Trenton—Will Have to Stay Until Water Rises.

Trenton, Oct. 27.—As the steamer Hamilton was backing away from the docks at Trenton today, the regular depot in the harbor, caused by the strong wind blowing from the westward, which threatened to blow the vessel several feet up to 7 p. m. she is still stuck and unable to work, and no doubt will have to remain up there until the wind ceases and the water rises again.

"Hotel Bodegas" Novelty.

A given and interesting entertainment was given to the guests and a large number of gentlemen interested in scientific literature in the spacious parlors of the Hotel Bodega, the proprietor, Mr. Wm. G. Phyllis, introduced Prof. E. A. St. John, representing the Dixon American graphite product, and after a few instructive remarks upon the value of Dixon's graphite as a perfect lubricator, and the presentation of a souvenir to each lady of an Uncle Sam and Uncle Sam's Company, the professor gave an hour or more of choice graphophone-megaphone reproductions. The most amusing, while those from the operatic and orchestral selections rivalled the most famous of the world. The evening was a most successful one. The guests were most attentive and the service was excellent. By request the guests of the hotel will enjoy a repast on Saturday evening.

German in Five Weeks.

Franklin's success as a teacher of German in five weeks is becoming so marked that there are few places where his name is not well known. The Berlin Hotel, the speaking of Franklin Holtermann's class in the fourth week of the course, says: "The gibberish with which the members of Holtermann's class began their study of German, and which was a word of the German language, can already hold converse in it, is really remarkable. The rapidity of the progress of the system which lady applies with such marked success."

A Brave Man Barred.

The remains of Mr. Gamble Devereux Spencer, the clever young engineer, who fell a victim to typhoid fever at Fort Mead a week ago, were interred yesterday afternoon in St. James' Cemetery. Rev. Dean Lauder of Ottawa officiated and the service was choral. There was a large following among whom were Mr. J. H. Flummer, Mr. Harman and Mr. John Seutley.

Ex-Members No. 5, Co. G. O. R.

The quarterly meeting of No. 5 Company Ex-Members' Association will be held at 8 p. m. Monday evening, Oct. 28, at 8 p. m. General business will be transacted and the prizes won at the annual rifle match presented to the winners.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually dispels worms and gives health in a marvelous manner to the little one.

The Liberals endeavored to have several charges against Dr. Bridgeland of Muskoka thrown out, on account of vagueness and ambiguity. The application will be renewed before the trial judge.

Cook's Cotton Root Compound

Is successfully used monthly by over 100,000 ladies. Safe, effective. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all mixtures, pills and medicines are dangerous. Price, No. 1, 12 per box, No. 2, 10 degrees stronger, 25c per box. No. 1 or 2 mailed on receipt of price and two testimonials. The Cook Compound Windsor, Ont. Nos. 1 and 2 sold and recommended by all responsible druggists in Canada.

Sold in Toronto by all wholesale and retail druggists.

PIANO BARGAINS EXTRAORDINARY

Canada's leading piano firm and the largest must warehouse in the Dominion, Messrs. A. & S. Nordheimer, established 1840, have just transferred their entire stock of pianos, acoustics, organs and musical merchandise to their successors,

The Nordheimer Piano and Music Company, Limited, of Toronto.

It is the intention of the new company to immediately dispose of this enormous stock without reserve, consisting of over 200 magnificent pianos, held in Canada for years, and used by Nordheimer, Weber, Fischer, Chickering, Vose, Knabe, Everett, and other well-known makers, as well as many new and used Nordheimer cabinet and grand pianos, in beautiful veneers, handsome designs, all at bargain prices, making a bona fide clearing sale, whereby buyers can save from \$75 to \$800.

In Square pianos there are fine-tuned instruments at \$25, \$50, \$75, \$85 and upwards.

In Upright Pianos, handsome instruments at \$50, \$75, \$80, \$100, \$120, \$175 and upwards.

In Baby Parlor and Concert grand there are some magnificent specimens at \$250, \$375 and upwards.

Nearly all these instruments were intended to sell for double the clearing-out prices. Prompt attention and application is therefore necessary, as this is an opportunity that cannot occur again for many years.

Parties at a distance can safely order a piano, leaving the selection to ourselves. Distance is no obstacle in taking advantage of this remarkable opportunity to obtain a good piano, freight charges being unimportant, in proportion to the large saving gained.

The firm's record of nearly sixty years' honorable dealing may be mentioned with pardonable pride to intending purchasers, as offering every reasonable security to those entrusting their order by mail.

Many in sending their order by mail.

This is the most important clearing sale of high-grade pianos ever held in Canada. The stock is disposed of. Easiest terms of payment arranged to suit purchasers. Warehouses and factory, King-street east, extending through the entire block to Colborne-street.

The Nordheimer Piano & Music Co., Limited, Toronto.

WORK WAS THE BISHOP'S THEME

Last Night in Holy Trinity at the Anniversary Service—A De-vo-tionary Church.

The Church of the Holy Trinity was made exceedingly beautiful last evening with palms, flowers and the products of the field, orchard and garden, the occasion being the continuation of the 51st anniversary of the consecration of the church. The sermon was preached by Rev. Bishop Sullivan and the following clergymen were also present: Revs. Dr. Pearson, B. C. H. Andrews, Canon Cayley, Dr. Scadding and Dr. Langtry.

The Bishop took for his text, "For the people had a mind to work." He reviewed the story of the rebuilding of Jerusalem by Nehemiah, showing how the people, without considering rank or wealth, all united their energies and lost no time in raising from ruins their ancient capital. He then proceeded to deduce the lesson to be learned from these zealous Jews. While the Holy Trinity Church was in ruins, it was standing where it had been built over 50 years, a noble monument to the fact of consecration to His service of the wealth, which God has given, he yet thought work in the church would be greatly facilitated if so many did not stand aloof and allow the few to bear the burden.

"The church," he said, "should reproduce the picture of the harvest field. There every man is a worker. There is an aggregation of individual effort, each man doing his part and so it should be in the church."

"Work," he concluded, "is an absolute necessity to spiritual life. The result of idleness is to dwarf spiritual growth."

Baharjan's Great Rug and Carpet Sale.

The great auction sale of Oriental art goods, comprising Turkish and Persian rugs and carpets, fine embroideries, Indian furniture, etc., commences on Thursday next, at the mammoth warehouses over 14 and 16 King-street east (opposite Murray's). The entire collection will be on view Monday, Tuesday and Wednesday, when the public will have an opportunity of inspecting the largest and most exquisite collection of eastern productions ever submitted to the people of Canada. Mr. Charles M. Henderson will conduct the sale.

Ranking the Expenditure.

Editor World: I was struck this morning by the readiness of some aldermen to expend city money on anything dock at the foot of York-street, and at the expense of the city's own dock at the foot of Yonge-street, and the other city property at the Market. Certain hoteliers seem anxious to sell the new big hotel project by moving the docks from Yonge-street. The city is the largest property-holder east of Yonge-street, and has a valuable real estate in the building of the new hotel east of Yonge, in the reconstruction of the Market in holding the wharfage business at Yonge-street. There is no pressing necessity for a York-street dock. If a hotelier's movement alone, he would want dock there let it be done as a business work, do not let it be used by the hotelier to prevent the expenditure of a million and a half dollars in a new hotel, and in maintaining the value of the city's real estate. Let us cut its own throat this day shows how far individual interest will go to benefit itself at the expense of all.

School Committees.

The Management Committee of the School Board met yesterday afternoon with every member present. A budget of communications was dealt with and the regular committee reports were adopted with few amendments. The recommendation of the sub-committee on inspection, that both the senior fourth and junior sixth grades be taught in the principal's class in Brock-avenue school, was discussed, but not accepted. The committee adjourned to meet again on Monday afternoon.

He Will See About It.

Dr. Bryce has received a complaint from Muskegon regarding the sanitary condition of the gully into which numerous drains from Manitoba and other streets empty. The nuisance is one that has long remained in abeyance as far as reform went, but was very evident nevertheless.

Dress Suit Designs.

Styles change enough in the conventional dress suit for a gentleman, just enough to make one appear odd. Henry A. Taylor, draper, the House Block, keeps the closest watch on the slightest style changes in society's garments, and it is safe to consult such an eminent authority on such garments as he is.

CAPERINES
