Increasing Its Output of Coke and able Coal-Colonel Ingersoll and Spokane Smelter.

OF WESTERN ONTARIO MINING.

Further details are to hand regarding the Buccessful trial of Crow's Nest coal made by the British Admiralty. Rear Admiral Palliser, in command of the Pacific Squadron, reported that he found the Crow's Nest coal superior in every respect to the Pacific Coast or North of England coal, having less smoke, less ash, more durability and greater evaporating power. The only made in the thinks compares with it is the best Welsh article, and he declares that it is squal to this in most respects. This is a most important matter, and the successful test of the Crow's Nest coal at Vancouver probably means a big annual contract with the British Admiralty Office. At present all the coal used by the Pacific Squadron with this tuel. The Crow's Nest Coal Company is negotiating with the United States naval authorities with a view to supplying the American Pacific Squadron with this true. The Crow's Nest Coal Company is negotiating with the United States naval authorities with a view to supplying the American Pacific Squadron with this true. The Crow's Nest Coal Company is negotiating with the United States naval authorities with a view to supplying the American Pacific Squadron with this tuel. The Crow's Nest Coal Company is negotiating with the United States naval authorities with a view to supplying the American Pacific Squadron with this tuel. The Crow's Nest Coal Company says The Fernie (B.C.) Free Press, has made its first shipment of coke to Helena, Montana. The regular shipments continue to the Le Round Market and Crow's Nest Coal Company, says The Fernie (B.C.) Free Press, has made its first of the Crow's Nest Coal Company says The Fernie (B.C.) by onlies transportation of the So completed ovens is steadily maintained at 70 tons per day. Mr. Boldrof has 100 men'st work on the erection of the extra 200 ovens for the construction of which he secured the contract.

Will Spokane's Smelter Be Opened?

Will Spokane's Smelter Be Opened?

Will Spokane's Smelter Be Opened? Saw Bill According to Eastern American papers, Col. R. G. Ingersoil and his associates are going ahead with their enterprise for the establishment of a big mining and smelting industry in British Columbia and the Western States. The Colonel is getting a lot of Eastern Americans interested in the proposal, and the new organization is to start off with the idle old smelting plant at Spokane, as one of its chief assets. The company has now a capitalization of two millions and a haif, and its aims are ambitious, as it proposes to make its lusiness extend from British Columbia to the borders of Mexico.

After the Iron Horse.

After the Iron Horse. Toronto capitalists are trying to secure a bond on the Iron Horse claim on Ten-Mile Creek, in the Slocan silver-lead country. The Iron Horse is located near the famous Enterprise. The owners of the property are largus Maclean and the estate of the late Dan Macdonald.

Angus Maclean and the estate of the late Dan Macdonald.

Exploiting Ontario Mines.

The World has to hand copies of the several prospectuses of the "American Gold Mining Company," "The Lucky Coon Gold Mining Company," "The Emma Abbott Gold Mining Company," and "The Gold Bug Mining Company," and "The Gold Bug Mining Company," All these companies have been formed with headquarters at West Superior, Wis., and with the object of developing mining locations in the neighborhood of Mine Centre, in the Seine River district of Northwest Ontario. The officers are chiefly Duluth and West Superior men, who have or have had miore of less ennection with the Golden Star. "The American & Canadian Gold Mining Company" is developing the Alice A. calm. The "Emma Abbott Company" owns the Lucky Coon property, in the same neighborhood.

Reports from Mine Centre are very encouraging as regards progress in the Seine River section of the Rainy River country, According to The Duluth Evening Heraid, Mr. J. L. Grant of England will shortly arrive at Mine Centre to prosecute work upon the properties which he secured a year ago. Last summer Mr. Grant, who is a prominent Liverpool financier, arrived in Western Ontario in the interests of the Rainy River Development Company (Limited), with a paid-up capital of \$375,000. He purchased 1000 acres of land in the Saw Bill district and 2000 in the Sturgeon Falls region. Among these properties that he picked up are the Connolly and Victoria reefs.

When Mr. Grant arrives in Mine Centre inc. In conjunction with the company's consulting engineer, Mr. A. W. B. Whitely, will exploit the deepologe with a glaid on the properties which a diamond diffil. Active development will also be properties that he picked up are the Connolly and Victoria reefs.

When Mr. Grant arrives in Mine Centre inc. In conjunction with the company's consulting engineer, Mr. A. W. B. Whitely, will exploit the depolits with a diamond diffil. Active development will also be properties that the picked to the development will also be

When Mr. Grant arrives in Mine Centre he, in conjunction with the company's consulting engineer, Mr. A. W. B. Whitely, will exploit the deposits with a diamond drill. Active development will also be prosecuted upon the Hidden Treasure, in the Calm Lake district.

Mr. John Campbell is pushing the work of erecting the sawmill at the Alice A.

mine.

The new camp at the Lucky Coon is nearly ready for occupation, and the stamp mill will start up shortly.

The contract for the shaft on the Golden Eagle is being prosecuted, and development work is progressing on the Headlight mine.

Mining Editor World: I noticed a letter of enquiry re J.O. 41 in your columns the other day, which I have not seen answered. Will one of our mining brokers this time kindly answer the following questions on ecrning the same property?

(1) Is there any money in the treasury of the J.O. 41 company? (2) Is there any stock in the treasury of this company? (3) Did the J.O. 41 people sell to the Golden Star Company a surface sight for the erection of their mill, and if so, where did this money go to? (4) This, the J.Q. 41, stock was sold very largely in Toronto, also throughout the country, on the understanding that Mr. Hall would seet the prospect developed in the same way that the Golden Star was developed. Is this story with regard to Mr. Hall correct? (Sgd.) Arthur L. Grant.

Toronto, May 8, 1899.

One Prophecy Fulfilled.

Toronto, May 8, 1809.

One Prophecy Fulfilled.

Fort Steele, B.C., April 23.—Two years ago Col. Head, the well-known mining man from California, visited Fort Steele, and 12, 500 at 17, 2000 at 17½, 500 at 18.

Doctors now agree that consumption is curable.

Three things, if taken together, will cure nearly every case in the first stages; the majority of cases more advanced; and a few of those

The first is, fresh air; the second, proper food; the third, Scott's Emulsion of cod-liver oil with hypophosphites.

would prove to be a second Leadwine, giving his opinion that the ore lay in one or more great planes. The surface showing on Sullivan hill is wonderful, in the shape of the vast area in which large pieces of galena float are found. There is considerable wash covering the ground between the Sullivan and the North Star, consequently prospecting is slow. A good many properties on Sullivan hill have changed hands within the last 60 days, and companies with plenty of money will begin work as soon as the snow is gone.

The theory advanced by Colonel Head of a vast plane of ore is likely to be proved. The Sullivan workings show several hundred feet square of ore, and north, south, east and west of the Sullivan workings ore of the same character as the Sullivan has been found on a number of properties, while no walls have been found.

The Headlight Group, the stock of which is being placed on this market, is situated on Sullivan hill.

In Greenwood Camp. In Greenwood Camp.

Maguire & Co., 28 Victoria-street, are offering a block of the treasury stock in the Banner Gold-Copper Mining Company. Limited, of Greenwood Camp. This company's properties are situated within 500 yaris of the Knob Hill and Ironsides mines, and cover an area of 38 agres. The properties have been reported on by the well-known mining engineer, J. Fisher of Greenwood, whose assays from surface croppings gave values from \$4.67 to \$22.16. This camp is at present attracting much attention, and several Eastern Canadian syndicates are negotiating for properties, the recent rise in copper having given a decided boom to this branch of mining.

Mr. G. J. Reiner, of the firm of Herrin Reiner Co., the well-known mining brokers of Spokane, Wash., arrived in the city yes day on a tour east. He is registered at Queen's. He leaves for Montreal this

enable them to make fair wages for the term of nearly two years, during which time they sank a shaft to a depth of 20 feet and drifted 16 feet along the vein. The property is highly spoken of by all that are familiar with the Seine River district, and it is said to contain the best showing in the entire district. The vein is said to be an extension of the Olive vein.

Mining Shares.

Messrs, Currie & Kiteley, in fheir Cally review of mining shares, say: in the higher-priced stocks business was quiet, with a decline in Golden Star. In the incelium-priced, Minmehaha was stronger and firm. The cheaper stocks have recently shown the best profits. Northern Belle, White Bear and Silver Bell show signs of improvement. Silver Bell should show a couple of points before long. The advance in these shares, predicted by us a few days ago, has materialized. We think better prices will yet rule. We will be pleased to answer any enquiries relative to any of the listed shares.

Madrid, May 10.—The Queen Regent has conferred upon the Austrian Minister of War and the German Minister of the Navy the Grand Cross of Military Merit. It is generally supposed that the decorations have been bestowed in recognition of the friendly attitude of Austria and Germany towards Spain during the recent war with the United States.
