ASSESSMENT SYSTEM.

Manchester set out to develop by means of her canal, has in no direction made greater progress than with Canada. The Lord Mayor quoted a few figures to illustrate the growth of trade between Canada and the great manufacturing district of which Manchester is the centre. During the eleven months ending March, 1897, the number of live stock brought up to the lairages was 1046 beasts and 698 sheep. In the 12 months ending March, 1898, the numbers were 3390 beasts and 1529 sheep; whilst in the succeeding years the numbers were as follows: 1899, 8083 beasts and 1950 sheep; 1900, 8955 beasts and 3739 sheep, and 1901, 15,122 beasts and 3739 sheep, and 1901, 15,122 beasts at the same of the same; At the age of On \$1000 of Insurance.
