## INVESTIGATING IMMIGRATION.

A sub-committee of the United States immigration commission has just returned from a tour of inquiry immigration situation in Great Britain and continental Europe. 'As a result of their investigations much data has been obtained, which it is hoped will aid in solving immigration problems now confronting the reason to believe that the forthcom-Canada, which at the present time is receiving so large a share of the im-

Every European country from which been studied in each. Special attention he would be a winner. was given to the methods employed by transportation companies in handling Immigrants, the effect of the United States immigration laws upon European immigration, and the attitude of the various countries toward the departure of their people to other lands. Not the least important question investigated was the prevention of the immigration of criminal classes.

In most of the countries visited the subject of emigration is a paramount one, and in the majority of them the attitude toward the movement is by no means favorable. The steady, longcontinued drain upon the rural popu- visit Cobalt. The Dominion Governlations, from which class by far the largest portion of the immigrants brought several parties of British come, and the general prosperity which newspapermen to Canada in the past now prevails, have resulted in a scar- two or three years, a plan which adcity of farm labor, and the agricultural vertised Canada widely in the mother industry is suffering in consequence. country. Some day the British Gov-Of course, the condition of those re- ernment may invite Canadian journalmaining at home has improved be- ists to visit the old land and see for When I want something to eat that suits cause of this scarcity of labor, but themselves whether it is going to land-owners are becoming alarmed, the demnition bow-wows, as some and a strong sentiment against emi- anti-free traders contend. gration has been developed. Of the male emigrants a very large proportion leave their native countries at a time when they are liable to military service there, and this constitutes another strong objection.

On the other hand, there is reason foodstuffs, it must be remembered, are to believe that in some parts of Europe of three distinct types.

It is not without its attending beneath the famous of three distinct types.

Dr. Russell H. Chittenden, the famous it is not without its attending benefit, and that this is recognized and all digestible forms of nutrition into proconsidered. There is a decided tendency on the part of aliens of certain nationalities to send back to their re- whatever their origin, are composed simlations at home a large portion of ply of representatives of one or more of their earnings in America. An enormous amount of money is believed to be thus transferred every year, the greater part of it going to countries where it is most needed. In addition

to this is the desire of nearly all the seaboard countries of Europe to build up a merchant marine, and to the success of such enterprises the carrying

These, the sub-committee finds, are the real forces at present controlling the situation in Europe, and the trend of affairs indicates that more attention to and greater supervision of immigration on the part of the countries

The conclusion of the sub-commita Communicate with the Circula- tee is that the chief causes of immigration from Europe are a widespread knowledge that labor is more generously rewarded in America than, at home, the advice and financial assist-Every day of frost-free weather ance of relatives and friends who have already emigrated, and the pertry at this critical stage. #### AS TO ABSINTHE.

The crusade of the French Government against the absinthe habit has from disastrous harvest conditions. recently been given fresh impetus by the reporting by a committee of the of the foreign loans of Canadian banks | Chamber of Deputies of a bill prohibat a time when money is so tight in iting the sale of the insidious liquid This attempt to suppress the traffic in which are immediately convertible into absinthe comes none too soon, for the cash, are in the nature of reserves. habit has become almost as much national curse in France as opium is in China, nearly four and a half million gallons being annually consumed.

The manufacturers of absinthe, realizing that there is danger of their being driven out of France, are now seeking markets elsewhere, and it has been discovered that they are attempting to introduce absinthe into England under another name. It is hardly likely, however, that the Briton will easily be induced to give up his beer for this French decóction, no matter under what name it is offered him.

The manufacture and sale of ab-

sinthe have been prohibited in Belgium, and similar action has been taken by two of the Swiss cantons, while in other continental countries agitation against the drug has appeared. In Canada-at least in this part of it-absinthe is practically unknown, but in view of what is happening in France, it may be the part The statistics show that the finan- of wisdom to put the poison on the cial mechanism of the country is in prohibited list. Ruinous as are the efwould the evils arising from absinthe if it became a popular drink.

> Vancouver appears to be no better than San Francisco.

It is again necessary to remind Mr. Borden that a man is judged by the company he keeps.

A local contemporary speaks of the "frenzied policy of railway construcrepublic. At the same time there is tion" in the west. This is an echo of the croaking over the Grand Trunk ing report of the sub-committee to Pacific contract. The statement that Congress will not be without value to railway building in the west is proceeding too rapidly is amazing at this late day.

The Renfrew Mercury nominates any considerable number of immi- Mr. John F. MacKay, business mangrants has been received was visited ager of the Toronto Globe, as the by the sub-committee, and the more leader of the Provincial Liberals. If important phases of the question have Mr. MacKay is as good as he looks

> How can Mr. Borden hope to convince the electors of London of the sincerity of his professions when he brings Rufus Pope to this city to speak from the same platform? Pope was one of the trio of Conservative members of Parliament who sought and secured secret information from railway corporations, and allowed one of them to finance their land speculations. Yet Mr. Borden comes to London to preach against graft!

The Ontario Government has invited a party of British journalists to from the society. ment and the railway companies have

## FACTS IN FOOD.

[Current Literature.[ Liebig, who ranks among chemists as

Hannibal ranks among generals, and as Dante ranks among poets, taught that muscular energy is derived from the as-

teids or albuminous foodstuffs, carbo hydrates and fats. "All animal and vegetable foods, whatever their nature and

23 per cent of oxygen, and a slight per-centage of sulphur." Proteid or albumin-ous substances constitute the chemical basis of all living cells, whether animal or vegetable. "This means, expressed in different language, that the organic substance of all organs and tissues, whethe pally of proteid matter." Thus proteid substances assume a special importance assume a special importance in human diet, or animal diet generally,

To say, as the scientific press is practically saying, that the effect of Dr. Chittenden's new work on the nutrition of man is to prove the proposition that energy is more adequately derived from vegetable foods than from proteids, is to herald the coltapse of a fundamental

Husband-What! Another new dress? Wife-Well, don't be so cross. I bought with my own money.

# VIRGINIAN LADY

## Killed Her With the Weapon She Used to Repel the Intruder.

Norfolk, Sept. 11 .- Mrs. Mary Rorshach, wife of L. Culfrank Rorshach, of the United States navy, and sister of Joseph T. Lawless, former secretary of the Commonwealth of Virginia, was murdered in her home in Portsmouth by an unknown burglar early yesterday. She was shot through the heart wit her own pistol, taken from mer hand by the burglar, after she had fired twice at him through an open door leading into the kitchen, where he was cornered.

The murderer escaped, dropping the pistol as he fled. Bloodhounds carried to the house from the Portsmouth jail secured a scent, and ran from the house. This was lost, however, and the hounds have since been unable to pick up the trail

Mrs. Rorshach, whose fearlessness was well known, was living with her two children, aged seven and five respectively. Her husband, Lieutenant Rorshach, formerly of the United States battleship Kentucky, but more recently promoted and transferred to the United States cruiser Tennessee now with Admiral Evans' fleet off Provincetown, Mass., was absent.

The shots awakened the oldest boy Frank, jun., and the mother cried to the boy upstairs: "Frank, somebody has taken my pistol and shot me. Go quickly for help."

The boy rushed for help, but when he returned with neighbors his mother was dead. She was found lying with her head on the second step of the back stains. The pistol had been placed close to her left breast over her nightdress and discharged. It was a five-shooter and only three chambers were empty Of these two were fired by Mrs. Rorshach, and one was fired by the burglar Her money and jewels were untouch

Mrs. Rorshach was a handsome woman, about 36 years old, and one of the most accomplished musicians in

## DOG SAVES DROWNING GIRL

Drags Her From River and Is "Vag" No More.

New York, Sept. 11.—"Vag," a dog that has been an unwelcome guest of the Van Ness farm near Two Bridge, N. J., for the last months, ceased to be a tramp yesterday and became a "Prince" instead. He is also an honored member of the Van Ness family, second son of a crown for he jumped into the Passaic River and saved 3-year-old Jessie Van Ness

from drowning. The first that was known of "Vag," who shows a mixture of mastiff and greyhound blood, was when the hired man found him crouching half starved in the road in front of the house on morning. The animal rave a crust thrown to him, but Mr. Van Ness would not allow him in the house. and the animal remembered it.

necessaries of life, it is just as like as not swing his sister under a tree on the that the old problem still remains to be river bank, "Vag" watched the profaced. For when all employers have to ceedings sleepily from the road. When pay high wages, they necessarily, in most the swing impelled by the boy was cases, advance the price of product or directly over the water, the little girl service, so that the increased wage buys lost her hold and was dropped thirty

feet from the bank. Then "Vag" woke up, and with a rush made a flying leap into the river. The dog grasped the little girl's dress as she arose for the second time and swam with her to the bank just as the entire Van Ness family, called by Willie's screams, reached the river.

The little girl was speedily revived, and two hours later was as well as ever. "Vag," who had retreated the moment he landed the child to avoid possible kicks, is now a permanent member of the Van Ness family. He will live by the kitchen fire.

## A THREE-MINUTE CURE

Chemist Finds Serum That Kills the Diphtheria Germs.

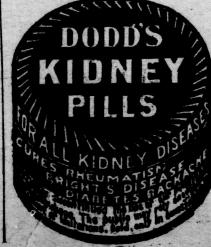

Columbus, Ohio, Sept. 11. - Announcement of the discovery of an antitoxin that will kill diphtheria germs in the living human organism within three minutes has been made at the Ohio State University by Professor Blylie, physiological chemist, as the result of an exhaustive technical and

intricate series of tests. The discovery is accredited to Theodore Wolfram, a German chemist now living in this city. The antitoxin was given tests in

hospitals and private practice before announcement of its discovery was made. It is applied by infusion and can be applied in any quantity to the youngest patient.

## PLENTY OF FISH.

Halifax, N. S., Sept. 10 .- An unusually good fishing season for the French colony of St. Pierre Miquelon has caused great joy. Daily arrivals from the Grand Banks report unlimited quantities of fish, and plenty of bait. The fly in the ointment is the fear that next year the banks will be scoured by fresh additions of trawlers and deplete the stock of fish.

# Visitors Welcome

Visitors to the city are requested to make use of the many advantages afforded by this store, with the distinct

understanding that the acceptance of our hospitality entails no obligation to buy. Free telephone service, free checking of parcels, etc. Above all, a cordial welcome and the most courteous of treatment will be accorded all who will favor us with a call. Open this evening until 10 o'clock.

J. H. CHAPMAN @ CO.

# CHAPMAN'S

# This Store In New Autumn Dress

Our readiness is now complete, although the formal openings will not come until later. Every department is prepared to meet your autumn wants in the most thoroughly satisfactory manner. This Chapman Store stands ready—as it always has stood-to meet the requirements of the community as soon as they become manifest.

Although there has been a material increase in the cost of production of many lines of commodities, we are pleased to say that our prices are still on the very low level that has made this store's reputation for splendid values.

Visit our store on Thursday and have a peep at the very correctest

## Autumn Suits, Coats, Millinery, Furs, Silks, Dress Goods, Ostrich Boas, Etc.

## **Prominent Dress Goods Display**

## PLUCKY SALVATION LASSIE

Disarms Drunk Who Was Flourishing a Loaded Revolver.

New York, Sept. 10.-Miss Augusta Zerl, captain of the Salvation Army barracks, No. 2350 Third avenue, disarmed an intoxicated man who entered the hall during the regular service and who, after reviling everybody present, produced a revolver and threatened to shoot.

When he did that nearly everyone present ducked under the benches except Miss Zerl, who was on the platform. She boldly walked to the intruder and demanded the revolver. The intruder was so surprised that he handed it over without a word. Then she took him by the collar, led him into the street and handed the pistol, which proved to be filled with blank cartridges to Policeman Collins. While she was doing so the intoxicated man disappeared.

## WHALES SCRAPPING

The Latest Fish Story Comes From Long Island, N. Y.

Sayville, L. I., Sept. 11.-While Captain Daniel Collins and a party of were so numerous outside of Fire Island inlet yesterday, they saw a short distance oceanward two huge whales showing that both had been wounded. Son occurred here yesterday. The
