

WASH DRAW A
MOIST CLOTH
THROUGH HAIR
 Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage. Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left limp, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about \$2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex (50 cents worth) in a 16-oz. bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make 16 ounces—more than you can buy ready-made for \$2.50. It is pure, good, and very pleasant—children like it.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistent, loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

Horlick's the Original Malted Milk. Avoid Imitations and Substitutes.

MASTER MASON always makes a hit wherever sportsmen congregate. It's a great Smoke—the ideal Smoke for the great outdoors.

MASTER MASON I lug Smoking Tobacco is made from choice tobaccos, fully matured, scientifically blended and pressed into a solid plug so as to preserve all the natural moisture and fragrance of the natural leaf.

Say MASTER MASON to your dealer—he knows

Secrets of Health and Happiness

Why Science Leans to Belief That Cancers Are "Catching"

By DR. LEONARD KEENE HIRSHBERG,
 A. S., M. A., M. D. (Johns Hopkins University).

Discoveries made in recent years, ignored or passed over lightly, seem conclusively to prove that warts, tumors and malignant growths such as cancer, owe their origin to a microbe-virus. The irritation, picking, burning and frequent X-ray exposure which seems to be productive to these growths, merely makes way for them.

Dr. Peyton Rous and other investigators at the Rockefeller Institute of Medical Research, announced some time ago that the juices and fluids of cancers or sarcomata, when filtered under pressure, retained the power to infect healthy tissues with malignant tumor growths. Despite this and other undisputed facts of a microbe-virus, many continue to pronounce cancers as non-infectious. They blame it, or at least try to do so by inference, upon the "nervousness" and "imaginations."

Two research workers, Drs. U. J. Wile and L. B. Kingsley of the University of Michigan, have endeavored to show that warts injected into healthy flesh are capable of infecting it with their virus. Moreover, the moisture and juice of warts pressed out, filtered and sterilized, will produce new warts if inoculated into the skin.

The first sign is a flat wart, which in no way differs from the common garden variety of warts in their beginning. On clearly persons these tiny flat warts often occur, but the frequent scrubbing and cleansing of the hands keeps them so or rubs them off before they become multiple warts. Children and others with much soiled hands are the ones who most often have warts.

Drs. Wile and Kingsley find that in warts, picking and other repeated irritations merely open the deeper epidermis to the virus of warts and in themselves without these filterable, ultra-small, unsterilized microbes cannot produce warts or tumors.

The apparently exciting cause merely represents the point of entrance of the cancer or wart virus. The infectious agent kept away ordinarily from skin, stomach or other structures finds entrance when frequent X-ray handling or picking weakens the fabric.

Professor Irwin Smith of the United States Department of Agriculture brought to light the fact that tumors

are produced by the virus of warts.

MENTAL WORK NEEDS A STOMACH

Great Mistake To Imagine You Can Work Better and Faster on the Stomach Plan—Eat What You Like But Follow With Stuart's Dyspepsia Tablets.

Mental work uses up energy fast, and energy comes from food. To eat little or nothing in order to do more work is a fallacy that has created an army of dyspepsias. A better plan is to eat the regular portions of food such as make up the average meal and follow each meal with Stuart's Dyspepsia Tablets.

You will then get a double benefit—energy from food and the light enter, or those who skip meals, get into a bad habit, a rut, of hermitlike isolation. Do not be afraid of zoziness, sour stomach, heartburn, heavy feeling or coated tongue after meals. Stuart's Dyspepsia Tablets arouse the stomach to secrete the juices necessary to relieve these troubles that so frequently distress the mental worker. They contain harmless ingredients which act with an alkaline effect, so you may eat the rich things of the banquet or the savory sausage for breakfast with utmost freedom.

Get a 5-cent box of Stuart's Dyspepsia Tablets at any drug store, eat freely of what you like and you will do more and better work than on a skimpy diet. Try this plan.

Answers To Health Queries.

M. R.: Q.—What can I do for enlarged pores?

2. What do you advise for pimples?

A.—Once the blackheads and pimples are gone, large pores may remain for a time. These are annoying, but not serious troubles. Massage, vibration and

the use of some harmless paste, such as lycopodium powder and glycerine, or borated cocoa butter, helps to fill them out.

2. Apply a little of the following to your pimples:

Sulphur precipitate . . . 1 dram
 Pulverized camphora . . . 15 grains
 Pulverized trassanth . . . 15 grains
 Liquid alboline . . . 1 ounce

C. T. T.: Q.—What can I do for a rash?

A.—A rash may be caused by berries, fish, tomatoes, beer, fruits, drugs, odors, cleans and oysters. The remedy depends upon the thing that is responsible for the trouble, and then to eliminate it from the diet.

L. W. R.: Q.—What can I do for tape-worms?

A.—Take one tablespoonful of Epsom salts, followed six hours later by a dose of mal fern, one dram, followed again six hours later by another tablespoonful of Epsom salts. But nothing but a little thin milk or coffee while taking the medicine.

E. M.: Q.—What can I do for an acid stomach?

A.—All stomachs are acid. The gastric juice is 2 per cent muriatic acid, or food would not be digested.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. He cannot always undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally if a stamped and addressed envelope is inclosed. Addressed all inquiries to Dr. L. K. Hirschberg, in care of this paper.
