VICTIM OF BOY THIEF MULCTED FOR EXPENSES

Magistrate Soaks Him \$23 Because He Placed Temptation in Youngster's Way.

The attorney-general's department is investigating a complaint lodged by H. T. Elliott of Peterboro, who was compelled by the local police magistrate to pay the cost of the trial of a 13-year-old boy who had absconded with money belonging to Mr. Elliott.

The boy was sent to the bank to deposit \$25, but instead hid himself to Toronto, where he was arrested last week in the midst of a jollification at the island with \$25 still remaining. He was sentenced by the magistrate at Peterboro to a term in the reformatory, but Mr. Elliott was censured for alleged placing of temptation in the boy's path, and was mulcted \$18 and costs and \$7 for the expenses of the Peterboro chief of police in transportation to and from Toronto.

ACCOUNTANT'S DEATH.

Found Dead in His Room—Had Written Some Notes.

Reduced in circumstances and dejected, the late Albert Brown, chartered accountant, formerly of Belfast, Ireland, apparently sought death in his room at 161 George-street yesterday. Coroner Graham, however, declared an inquest unnecessary, as he found no signs of violence.

Brown had written on a piece of paper his own name and the names of some whom he wished to gratefully remember, also a name or so of those who "might have been" his friends had they so chosen.

Of those to whom his gratitude was due were E. R. C. Clarkson, "my dear friend," and "my dear friend" East King-street, "my special friend in these dark days, who has provided so far my wants."

No inquest will be held, as the case was evidently suicide.

An Invitation to Perjury.

Mr. Bedford-Jones drew upon himself a rebuke from Magistrate Denison yesterday morning. His client, Annie Coll, an elderly lady, had been charged with attempting to burn her house, when drunk. She drew his worship's attention to the fact that she had no insurance on the house, but the magistrate laughingly remarked that he considered that good evidence that she had been drunk.

Two policemen and a sergeant testified that the woman was under the influence, but the solicitor suggested that she go in the box and tell her story.

"I'm surprised at your action, as you're simply inviting the woman to commit perjury, and I can't allow it," said the magistrate, and the lady went, as she herself has not been here for a long time."

NOT "AT LLOYDS" BIG LOSS IS REPORTED

One of the Underwriting Groups Said to Be Unable to Meet Heavy Claims.

Local insurance circles are much interested in a New York despatch which says that there is trouble on "at Lloyd's."

"Lloyd's" is familiarly regarded as an institution of particular interest to sea-faring men. As a matter of fact it is the biggest of insurance-gambling institutions.

There are three branches of membership: Underwriters, ship owners and insurance brokers, and in addition to insuring ships and cargoes one can gamble on anything. For instance, they are taking risks on the probability of the defeat of Taft; or an expectant father-to-be can insure against twins.

They also are interested in the insurance and do business in Canada, not only will they insure against direct fire loss, but they will stand the losses of getting new quarters if necessary, and still further they will insure against loss of profit due to fire.

But whereas the regular companies here have to make a substantial deposit with the government, Lloyd's only requires that each underwriter deposit \$500 and that is held liable in case of marine losses only.

The trouble now seems to be that one of the groups, being especially hard hit, is trying to "solicit" on payment of claims. While it isn't the first time a group has been down and out, the custom usually is for the others to get together and help them out, as in the case of bank troubles in Canada.

But this time the losses are too heavy, as this New Jersey despatch intimates:

What Wall Street Hears.

Details of the financial troubles of some of the underwriters in the London Lloyd's reached Wall-street, which show the situation to be more serious than appeared in the first reports, which came to New York in the press cables.

This famous London society, which has been writing insurance for nearly

three hundred years, is made up of independent underwriters, often working in groups. It is now learned that one of the largest of these groups of underwriting syndicates is facing losses estimated at between \$1,600,000 and \$2,100,000, against which the security on deposit with the trustees of Lloyd's amounts to only \$405,000.

Many of the New York banks are directly interested in the situation, having been accustomed to accept the security afforded by the Lloyd's policies without question, and since the facts of the troubles in London have become known here those who hold policies under the names of the syndicate in difficulties have been making haste to cover by reinsuring.

Under the English system the Lloyd's underwriters, instead of carrying large funds of invested capital and surplus, carefully conserved by state laws as in this country, back their policies only with their personal credit plus the sum of £5000 deposited with the trustees of the society by each member on his election, together with whatever balance of premiums they may have. In the case of the syndicate, composed of about eighteen members, whose troubles have just become known, not only has the security deposited with the society been wiped out by its losses, but it is stated that even the members will be unable to take up their pro rata share of the losses.

Keep Things Secret.

The trustees of Lloyd's conduct their affairs with such secrecy that there are no published accounts available to show New York brokers or those who hold the policies of this syndicate how far the credit of the remaining members will serve to take up the losses. In any event, since there is no joint liability, the solvent members will be liable for only their pro rata share. The amount of this reinsuring which will have to be done may be estimated from the fact that the liabilities accepted annually by the group are placed at between \$1,500,000 and \$2,000,000.

A large number of these policies have been taken out on Canadian property, and in many cases on commodity shipments have been accepted by banks here and in the west in connection with bills of exchange. The situation is therefore very serious in which this syndicate has largely participated in this country has been the writing of automobile policies, and it has also taken on a great many extra-hazardous fire risks.

The situation is further clouded by the same lack of information about the standing of other syndicates, and Lloyd's whose credit so far has not been impeached. Up to a few weeks ago the group of "Lloyd's names," now admittedly in trouble, has counted among the strongest in the society, and its policies have been accepted in this country without question.

A Reassure For Interest.

New York insurance men have not been astonished at recent revelations of weakness in the world-famous London agency, Lloyd's policies, by reason of the freedom of the London underwriters from legal restrictions, have been increasing competitors in the American field, in this country where insurance is restricted to chartered corporations whose investments are subject to severe legal restrictions, and with the additional requirement of taxes, amounting to two per cent, in this state, on business done, underwriting profits have been heavily cut into by the necessity of meeting Lloyd's competition.

TO STAND BY ZEPPELIN GERMANY SYMPATHETIC

Are Making Cause of Airship Man Their Own—Will Raise Subscriptions Thruout Empire.

FRIEDRICHSHAFEN, Aug. 6.—The King of Wurtemberg called on Count Zeppelin at his hotel here to-day and conveyed to the aeronaut the personal regrets of Emperor William over the destruction yesterday of the count's airship at Echterdingen. The emperor telegraphed: "I have heard with the deepest regret of the destruction of your balloon in a storm, and I wish you to know of my cordial sympathy in your misfortune. All the countenance I and all Germany thought we had every reason to believe we could congratulate you on the glorious realization of your splendid epoch-making achievement. Nevertheless, what you have accomplished must be recognized as of the highest order and this must draw from the bank in order to take a comfort to you in this catastrophe."

In addition to the governmental grant of \$25,000 to Count Zeppelin for the construction of another airship, it appears probable that the count will be given even a greater sum for the construction of a new dirigible on the model of the one that was destroyed yesterday, and for extensive experiments with new ideas. The national pride has made the work of Count Zeppelin its own and almost every city in the empire has opened public subscriptions to raise money for the count.

Habit of Breaking Windows.

Magistrate Denison yesterday sentenced James McCormack, quite an elderly man, to nine months in the central to see if that would stop McCormack's hobby of breaking plate-glass windows.

On Wednesday night he had broken a plate-glass window at the Wilson House, York and Pearl-streets, because he had been thrown out by the authorities there.

COMMUTED DEATH SENTENCES.

OTTAWA, Aug. 6.—Two more death sentences were commuted to life imprisonment by the cabinet.

Gregorio, the Italian who stabbed a comrade in Hamilton while quarrelling, will not die, as it is believed it might have been tuberculosis which caused the death of the victim.

The other who is benefited is Rochette of Quebec, in whose case the evidence was circumstantial and inconclusive.

Colombian Revolution Nipped.

PANAMA, Aug. 6.—Notwithstanding the strict censorship over the newspapers and telegraph lines, news has come out concerning a recent unsuccessful conspiracy against President Reyes in Bogota, and as a result of which many prominent Colombians are prisoners.

Among the alleged conspirators are former members of the supreme court and of the cabinet and veteran generals, many of whom were joined by their countrymen.

The conspiracy is said to have failed because its promoters anticipated the date hurriedly on learning that President Reyes was trying to float a big loan abroad.

Lighthouse Keeper Suicides.

HALIFAX, Aug. 6.—(Special.)—John Bittner, a private in the Royal Canadian Regiment, last night shot himself thru the head with a rifle, the deed being prompted by despondency over imprisonment for violating the regulations. He will die.

Word has been received at North Sydney that the lighthouse-keeper, Raimond, on Green Island, Straits of Belle Isle, has been found dead from a pistol wound. Raimond had been drinking. The tragedy was discovered when the light was unlit for two nights.

Forest Fires Down East.

ST. JOHN, N.B., Aug. 6.—After an interval of two weeks, forest fires have again sprung up along the New Brunswick-Maine border, near Calais, and are causing much uneasiness owing to scarcity of water. A CRIME THAT IS NOT PUNISHABLE.

How many people reading this article have gone into a drug store and asked for some well known and highly tried medicine and some unscrupulous druggist has said, "Yes! we have that, but have you ever tried this remedy. It is just as good and costs less." Any druggist doing this has not the interest of your health at heart, but the interest of his pocket, as he can make more profit out of the cheap substitute.

For the protection and benefit of the public, we wish to say that Dr. Fowler's Extract of Wild Strawberry has been used in thousands of homes for the past sixty-three years and has never failed to give prompt relief and cure in all cases of Diarrhoea, Dysentery, Colic, Stomach Cramps, Summer Complaint, Scurvy, Cholera, Infantum, Cholera Morbus and all Fluxes of the Bowels. When you buy Dr. Fowler's, you are not experimenting with a new and untried remedy, but are getting one that has stood the test of time.

Miss Lettie Reid, Vivian, Ont., writes: "Last year I suffered untold agony from cramps in the stomach and did not know what to do until a friend suggested I should try Dr. Fowler's Extract of Wild Strawberry and as I was glad to try anything I purchased a bottle.

"When I had taken four doses I found relief and since then I never fail to keep a bottle in the house."
