SIX YEARS' \$1,000 FINE

Penalty for Breaking the Oleomargarine Laws.

CHICAGO, March 11.—Summary action was taken to-day by Judge K. M. Landis, in the United States district court, in sentencing violators of the federal laws regulating the manufacture and sale of oleomargarine.

The court fixed the punishment of Samuel Driesbach, who pleaded guilty, at a fine of \$15,000 and six years imprisonment in the United States prison at Fort Leavenworth, Kas.

To Daniel Bortz who also pleaded guilty the court meted out an eight-month term in the house of correction in this city.

Wm. Broadwell who was sentenced some days ago must meet his punishment with Driesbach.

Referred to a Committee.

OTTAWA, March 11.—The bill for the construction of a canal from Lake Superior to Lake Winnipeg, over which James Connors, M.P., the committee, and the Ontario Government have had so much trouble recently, was again before the railway committee this morning, and was temporarily disposed of by being referred to a sub-committee to inquire into the legality of the bill and the desirability of the project.

The sub-committee consists of Messrs. Nesbitt, Connors, Boyce, Haggart and Congdon.

No Evidence of Wrongdoing.

MONTREAL, March 11.—R. B. Keenan, who took over the Bank of St. Stephen, reports to the Bankers' Association that there is no evidence of anything wrong, that the failure was due to poor judgment in making loans.

As previously announced, the double liability and the assets will protect the note holders and the depositors.

OVER HALF MILLION FOR NEW SCHOOL BUILDINGS

Pruning Knife Sparingly Used on Estimates of Superintendent Bishop.

At a three hour session the property committee of the board of education decided to place \$583,445 in the estimates this year for the buildings department.

This amount is composed of \$612,500 for the public schools, and \$80,945 for high and technical schools. Of the former amount \$467,000 is set aside for erection and enlargement of schools, and to purchase school sites, while \$15,495 is required for keeping schools in repair, and to purchase new fixtures. The largest amount in this item is \$15,000 for furniture.

The high school estimate calls for \$54,000 for erection and improvement of buildings, while \$21,700 is set aside for school lighting and repairs. Over \$250 will be required for the technical school. There was little pruning done by the trustees. The high schools suffered the most, having about \$1075 cut, while in the school furnishings \$1000 was taken off.

The following contracts were awarded in connection with the erection of an eight room addition to Kimbrough School: Masonry, G. T. Grafton, \$14,500; carpentry, Frank Armstrong, \$7,414; plastering, Geo. White, \$22,216; painting, J. R. Robinson, \$11,200; plumbing and steam heating, Keith and Fitzsimmons, \$4,150; structural steel and cement work, W. H. Scott, \$8,650; ventilation, Johnson Temperature Co., \$565; wiring, Hall and Doherty, \$617; tiling, A. Gardner & Co., \$2870; steel for stairing, W. H. Sauter, \$2115. This makes the total cost of the structure \$46,725, which is about \$1200 more than Superintendent Bishop had estimated. The contracts for bulbs and plants were awarded to Miller and Son, the former at \$224, and the latter for the latter at \$75.

The question of school water was given consideration, and a committee was appointed to confer with the city council. Trustee Hodgson suggested it would be a good plan to do away with recess and let the pupils out half an hour earlier. Then they could do without water during school hours.

INTERNATIONAL CHESS MATCH

Play in Twelfth Annual Competition Begins in London and Brooklyn.

NEW YORK, March 11.—The twelfth annual cable chess match between representatives of Great Britain and the United States started to-day, the Americans playing in the rooms of the Brooklyn Chess Club and the British experts playing in the rooms of the City of London Chess Club in the Holborn, London. The match will terminate to-morrow evening. On each day the play begins at 10 a.m. and continues until 5 p.m. with an intermission between 1 and 2 for luncheon. Two direct cable wires connected London and Brooklyn rooms. While the contestants were seated at the ten tables the spectators observed the plays and the progress of the matches from the large chess boards on the walls on which were indicated every move made by the players.

Baron Albert de Rothschild of Vienna is the referee, observing the contest in London. James Morrison is the American umpire in London, and Walter Penn Shipley is the British umpire in Brooklyn. After the exchange of lists of players it was found that the pairing in the match was as follows:

First. J. H. Blackburn
Second. J. P. Barry
Third. T. F. Lawrence
Fourth. V. L. Whitluch
Fifth. G. H. W. Abbott
Sixth. G. E. Wainwright
Seventh. W. Ward
Eighth. J. H. Black
Ninth. G. A. Thomas
Tenth. R. P. Mitchell

NEW YORK CANALS OPEN

To Canadian Vessels—Geo. Perley's Discovery.

OTTAWA, March 11.—(Special.)—In the house to-day George H. Perley made a statement regarding the use of United States canals by Canada. He said that the Canadian canals are used freely by Americans, and some time ago Hon. Mr. Aylesworth, in reply to a question by Mr. Perley, confirmed the regular dividend periods being Jan. 1 and July 1. Mr. Rogers to-day completes his first year as president.

Since then Mr. Perley has been conducting enquiries and he finds that while Canadian vessels were shut out of the New York canals have been open to Canadian vessels since 1895. He quoted authorities, much to the discomfiture of Mr. Aylesworth.

AS BAD AS A LEPER

Even Converts Too Good Company for This Man, Says Judge.

NEW YORK, March 11.—You are such a low, vile creature that I believe the convicts in Sing Sing prison, where you are going, will shun you as they would the plague, saying, as in days of old, 'room for the leper'.

This severe castigation was hurled by Judge Foster in general sessions to-day at Chas. F. Dewolf, a self-confessed 'white-slave' trader, who feigned up for sentence for slaving Flora Thomson, whom he brought from Boston. Dewolf tried of the woman and slashed her throat.

Dewolf was given a term of not less than two years and three months, or not more than four years and seven months.

TRAIN ON TIME AGAIN

Result of Removed Embargo on the Speed at Crossings.

BROCKVILLE, March 11.—(Special.)—The Canadian Club was addressed to-night by J. W. Tyrrell, the Canadian explorer.

The G. T. R. limited from the east arrived sharp on time here to-day, for the first time in weeks, a new order having gone into effect from the board of railway commissioners, which does not require the engineers to slow down to ten miles at four of the crossings between here and Montreal.

Between here and Belleville there have been removed, and between Belleville and Toronto there are six less.

CROW'S NEST PASS COAL

Output for Year So Far Exceeds Previous Period.

The annual meeting of the directors of the Crow's Nest Pass Coal Company was held yesterday afternoon. In his report Mr. Borden, president, compared the tonnage of the mines last year and this, the figures being: 1909, 55,115, 1910, 59,400. The net profits from all sources for 1909 were \$145,029. The sum of \$156,025 was transferred to profit and loss account, the regular dividend period being Jan. 1 and July 1. Mr. Rogers to-day completes his first year as president.

Are You Using An Oily Liniment?

Beware of Any Thick, Greasy Liniment that Contains Acids and Strong Ammonia.

No doctor would think of prescribing a greasy, thick, ammonia liniment—they can't penetrate and in consequence are unable to reach the source of pain. The best liniment for general household use is 'Nerviline,' which is sold under positive guarantee to cure pain.

Nerviline is sure to cure pain because it is immensely stronger than other liniments, because it is more penetrating, because it relieves the congested condition that excites pain, because it restores circulation of the part. Now you understand why one person in three throughout the Dominion of Canada uses Nerviline. These people have tested it. They know how good it is, because in the hundred and one minor ailments that afflict us at odd times they found Nerviline always cured. Nerviline is an absolute antidote to pain, powerful, soothing, and certain in its action.

Nerviline is inestimably the finest remedy for pain found in the world. Not an ache or pain anywhere that Nerviline does not cure.

Try Nerviline for neuralgia, headache, sciatica, lumbago, stiffness, rheumatism—wherever there is soreness or pain, rub on Nerviline, and you'll be cured. Refuse anything offered you instead of Nerviline, large size bottle 50c or sample bottle 25c. All dealers, or The Cataract Company, Kingston, Ont.

DAILY REPORT TO HOUSE "QUEERED" BY OMISSION

R. L. Borden Draws Attention to Error in Printed Proceedings of Lumsden Enquiry.

OTTAWA, March 11.—(Special.)—There was a breeze in the house at the opening of the sitting this afternoon when R. L. Borden, opposition leader, pointed out an irregularity in connection with the reporting of the proceedings of the Lumsden investigation, which he suggested might have been committed purposely.

E. M. MacDonald, of Pictou, who has been the active member of that committee, lost his temper during the discussion which ensued, and was sternly called to order by the Speaker, who ordered him to sit down.

Mr. Borden drew attention to an "extraordinary mistake," which had been made by the chairman of the investigation committee. A motion had been made by Houghton Lennox, and agreed to, that the proceedings should be printed and "reported to the house from day to day."

In the printed report, the words "reported to the house" had been omitted.

Victor Geoffroy, the chairman, said the report had been printed as prepared by the committee and nobody objected.

Mr. Borden pointed out that the proceedings had not been reported to the house from day to day, as agreed upon, and he thought there must be some connection between the two incidents.

Sir Wilfrid Laurier said some error might have occurred, as sometimes happened.

Mr. MacDonald remarked that a chairman of a committee did not report. If Mr. Borden's friends had attended the committee, they could have had this corrected.

Mr. Borden retorted that this was not a matter for the committee, but for the house.

Mr. MacDonald said Mr. Borden might have taken the trouble to investigate the matter.

Mr. Borden replied warmly that he had investigated the matter, when he discovered that the recommendation of the committee had been altered.

Sir Wilfrid Laurier: "It looks like a clerical error."

Mr. Borden, however, insisted that the proceedings should have been reported from day to day, and the report.

Sleeping Draughts And Soothing Mixtures

A mother should never give her child a sleeping draught, soothing mixture or opiate of any kind except on the advice of a doctor who has seen the child. All these things contain poison and an overdose may kill the little one. When you give your child Baby's Own Tablets you have the guarantee of a government analyst that this medicine does not contain one particle of opiate or narcotic and cannot possibly do harm—but always do good. The Tablets promptly cure all stomach, bowel and teething troubles, and give healthy, natural sleep. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

commendation this should be done had been altered. However, Mr. MacDonald seemed to give a clue.

Mr. MacDonald rose, but the Speaker ruled that he could not continue the discussion. He remained standing, whereupon the Speaker intimated that when the Speaker rose, a member must be seated.

Mr. MacDonald then rose to a point of order. He said that the leader of the opposition had made a personal reference to him, and he had a right to reply. He objected to Mr. Borden's being allowed to make three speeches and himself only one.
