Bill McTigue, the former Leaf, of the Detroit southpaw pitching forces, had a chance in Tuesday's game at Waxahachie to demonstrate one of his theories. He also figured in this connection, in one of the weirdest innings of the springto tighten up provincial temperance laws by federal legislation against the also figured in this connection, in one of the weirdest linnings of the spring-time.

As everybody has observed, and as McTigue pointed out in a debate a few nights ago, Beny Kauff is a first ball hitter. He has been press-agented so much that he can't wait to get a wallop, He goes after everything. McTigue claimed Benny would be easy if a pitcher would feed them high and inside, MoTigue pitched to Benny twice, On the first occasion the New Yorker walked. The pitcher handed up four successive bad balls, at none of which would Kauff swing. McTigue lost that part of the argument.

But in the ninth the Detroit pitcher struck out his first two batters, Wendell and Ritter. Then he walked Burns. Brainard and Lobert, filling the sacks and bringing Benjamin up with a chance and pringing Benjamin up with a chance to be a hero.

This time Kauff let the first pitch, a strike go by, fouled the second and filed to Yeach on the third. He was so anxious to clean the sacks and maintain his reputation that he would hit at anything.
McTigue won his argument,

CONFIDENCE IN PREMIER

President-Elect C. S. Steel Expresses Pride in Government Leaders for Recent Stand.

About 3000 persons attended an enthusiastic closing mass meeting of the Ontario Alliance at Massey Hall last night. The prohibition speeches were preceded by a Q.O.R. Band concert. President T. Gibson introduced Capt. Rev. John Coburn, who made an appeal for recruits for the 201st Dry Battalion, of which he ic chaplain. The dry battalion would not be a "sissy" battalion, but a regiment of the finest kind of fighters. The 201st expected to do their fighting on German soil, for by the time the 201st got overseas the invasion of Germany will have begun, he said.

The Greatest Battle.

President-Elect C. S. Steel took office and presided. He said his election was as unexpected by him as a trip to the moon. He believed that the temperance people of Ontario had before them the greatest battle in their history. "We are proud of Premier Hearst and we trust him, and we remember, too, the noble work of the leader of the Liberal party," he said. "Above everything else the temperance people must make unity the night. The prohibition speeches were

he said. "Above everything else the temperance people must make unity the governing principle. The work of the alliance is not ended. It has just begun." H. H. Stevens, M.P., Vancouver, B.C., mover of the recent prohibition resolution in the Dominion Parliament, considered the paramount point to be emphasized was that in Canada all the temperance campaigns had been to mobilize the forces for the great battle for the enactment and enforcement of everything that a railway can provide for the enactment and enforcement of prohibition thruout every province in the enactment and enforcement of

Acid Stomachs Are Dangerous

Common Sense Advice by a Distinguished Common Sense Advice by a Distinguished Specialist.

"Acid" stemachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach and leading to probably nine-tenths of the cases of stomach trouble from which people suffer, Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as a dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisurated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause greatest distress may be eaten with impunity if the meal is followed with a little bisurated magnesia, which can be obtained from any druggist, and should always be kept handy. short time for the whole of Canada..

Higher temperance education was required to meet the moderate strong-wiled men to who mdrink was not a menace, who demanded the right to use their personal liberty. The problem was to convince those who advanced the personal liberty argument that the support of the system was unpatriotic.

Hotel Provision.

Under prohibition it would be the duty, both of the government and the temperance people, to provide adequate hotel provision where necessary. He was glad to say that Sir Robert Borden had promised to have the question investigated respecting the nationalizing of the distilleries in Canada for the production by the Dominion Government of alcohol for industrial purposes. This would solve the compensation problem in case of Dominion-wide prohibition.
