SUNSHINE CIRCLE RAFFLE STOPPED

All Moneys Will Be Returned to the Subscribers.

MRS. ROADE REPLIES

President Explains Expenses in Connection With Fete.

After investigating the circumstances surrounding the raffling off of a motor car by members of the Sunshine Circle, which he stopped yesterday morning at the instructions of Mayor T. L. Church, Acting Chief of Police Archibald announced last night that all moneys taken in by the committee will be returned to the various subscribers, and that no legal proceedings will result thru the investigation.

It was learned, he said, that Mrs. H. D. Roade, president of the club, had received permission to hold the raffie thru a mistake, and that the misunderstanding had now been cleared up.

Mrs. Roade as a result of the publicity given the causes for the resignations of three of the members of the executive board, has submitted the following statement to all the newspapers for publication:

At Loss to Know. "Just what the serious charges are that an ex-member, of the Sunshine Circle 'hesitates' to bring against me,

I am at a loss to know, but for over a week now certain people have been circulating vague rumors about serious trouble in the Sunshine Circle over the fete at Oaklands. The only trouble there has been was that in the imagination of the people who circulated these rumors. Two weeks ago, at a regularly called meeting by me, a full report of the Sunshine Circle fete was read by the treasurer. It was an itemized statement showing all the expenses and receipts. Twice I asked the members if anyone wished to ask any questions about that statement. Not a single question was asked. It was true the results were disappointing, but the bad weather spoiled the attendance, but the women who had worked the hardest for it took it like soldiers. I cannot express my gratitude to them, for there was no more disappointed woman there than myself.

"Last November we had realized \$6000 at our Bazaar of the Allies at the Pavlova, with one-third the number of workers. I had thought with 1600 at Oaklands to have had a wonderful total. For three months I gave every minute of my time, day and night, to meetings of workers and arrangements. Those who visited the fete were never a finer thing of the kind in Toronto. But the atrocious June weather was against us.

"After the report had been passed on I told the members of my new plan of helping the convalescent soldiers by raising money for an automobile to daily take out parties. There was not a dissenting voice, and I received offers of assistance from every side. At that meeting the resignations were read of Mrs. Jas. Casey, Mrs. J. P. Patterson, and Mrs. R. A. Walker. They gave no reasons, and their resignations were unanimously accepted. These were all present at the meeting, and said not a word when I twice enquired if any member wished to ask any questions about the statement submitted, neither did they object to the plan for raising more money. Since then the newspapers, the city hall officials, and even the police have been receiving anonymous complaints of trouble in the Sunshine Circle. As for the criticism of the three ex-members, whose resignations were unanimously accepted by the Sunshine Circle, surely the time and place to criticize was when they were members, and at a meeting called to pass on the financial report.

Not For Personal Use. "The I personally organized the fete," I consulted the executive at every step. My treasurer, Mrs. W. R. Jackson, and my secretary, Mrs. Hugh Martin, went with me every time I made any important engagement with regard to the fete. As for Mrs. Jas. Casey, the vice-president, who resigned, she did not attend a single executive meeting, nor occupied with the management of her daughter. It is true our expenses were high, but had the weather been favorable and the total what we expected, I believe we would not have heard even one dissenting voice. It is also true there was an electric bill of \$2700, but it was the main expenditure, and when it is remembered that we had about sixty booths, tents and tea gardens, scattered over 15 acres, and that three times the size of Scarborough, it may not sound exorbitant.

He have been misinformed that there was a bad case of storm in the Sunshine Circle. According to certain press reports, it sounds as if there had been strife at our meeting. Everyone who was present at the meeting should hear the report can testify that it was a perfectly unanimous one. Again, from the remarks of the ex-members, it would seem that the criticism of the three ex-members, whose resignations were unanimously accepted by the Sunshine Circle, surely the time and place to criticize was when they were members, and at a meeting called to pass on the financial report of the motor contest had been mentioned.

HORWOOD STILL GIVING EVIDENCE

He Will Enter Upon Fourteenth Day of Testimony Tomorrow.

ACRIMONY DISPLAYED

Lively Tilts Between Opposing Counsel Marked Yesterday's Proceedings.

WINNIPEG, Aug. 10.—In the trial of the three former Manitoba cabinet ministers to-day's proceedings were devoted to further examination of V. W. Horwood, former provincial architect, by R. W. Craig, K.C., for the crown. Considerable time was consumed with disputes between counsel, it being contended by the defence that the re-examination was not based on evidence brought in at cross-examination by the defence.

Mr. Craig did not conclude the court sat an extra hour in the afternoon, and Horwood will enter the witness box tomorrow morning for his fourteenth day. Horwood was questioned about evidence given before the royal commission. He declared that he had intended to give evidence, and did so at Minneapolis despite the advice of his surgeon not to do so. The witness quoted Thomas Kelly as saying that John Sweeney, formerly employed as an engineer with the

Dominion public works department, was "a very clever man" and that everything was "all fixed up." Horwood said he understood from this that Sweeney "had made calculations which would protect the caissons."

A Lively Wrangle. At this point R. A. Bonnar, chief crown counsel, jumped to his feet with the remark, "There's a man sitting here insulting me across the table," and he indicated the chairs occupied by the defending staff. "My learned friend was the aggressor," replied A. J. Andrews, chief of the defence counsel. "He shouted out that was the Arthur book, and Mr. Sweeney said he did not have the Arthur book. That was all there was to it."

"If the witness," said Mr. Bonnar, "is allowed to sit here by consent while all other witnesses are excluded, I think he should conduct himself properly, otherwise we shall have to ask that he be excluded with the others."

Mr. Sweeney has sat with the defence counsel throughout the case, and from Mr. Bonnar's comment it was inferred that at a later date he will give expert testimony for the defence on technical matters. Sweeney's Criticism. In his evidence Horwood said Sweeney worked with him, on caisson figures, and told him he thought "Kelly was an awful fool to put so much extras on caissons." Witness said he got a lot of data from Sweeney for a speech by E. L. Taylor, former Conservative member of the legislature. Horwood declared his request for expert engineers to prepare caisson plans had not been complied with. Many objections came from the defence that Craig's questions were not based on re-examination. His lordship told the jury he thought a change from pile foundation to caissons was wise, and agreed to by every one. Many Objections. Craig was stopped when he asked witness about the steel contracts. He said he sought to show there was a particular reason why steel and concrete should have been substituted for reinforced concrete. "You'll have a hard job overcoming the evidence of this witness in your examination-in-chief," commented the judge. "On several points Craig wished to pursue the judge ruled against the crown, holding they did not arise from the cross-examination. Objections by defence were very numerous, 35 being entered in the first hour and a half.

No Deduction. Horwood said no deduction was made for excavation omitted thru raising the grade of the building, and there was "never any intention" of making any deduction. This applies also to omission of light areas. Witness declared E. C. Shankland, consulting engineer, knew what was going on about caissons, and discussed cost with him. Andrews declared the remark showed Horwood's "venom," and the crown objected to "insultuous and insulting remarks about witness. "I'll make a good many more," retorted Andrews. The judge said such remarks were wrong. A letter from Shankland to Horwood, in which the Chicago engineer approved the cost of caissons, was taken by the judge to mean merely a general approval of change to caissons and not sanction of exact cost. FLOUR ROSE AT BRANTFORD. BRANTFORD, Aug. 10.—Local flour mills announce that flour has been advanced, wholesale, fifty cents per barrel, with further increases likely, owing to the short crop this year.
