TO SHOOT SOME SCENES OF "BLUE WATER" IN FLORIDA

It has been found necessary to transport the cast and producing staff of "Blue Water" to Florida to take some scenes for which the local atmosphere is not the proper one. It requires southern atmosphere, hence the journey to Tampa, Florida. The main part of the picture has been completed but there are a few scenes which have yet to be taken. Upon the completion of work in Florida, the directors and camera men will return to St. John and take those scenes which require a little later season for the best effect.

A letter has been received by David Hartford, chief director, with reference to the move to Florida as follows:

"It has occurred to me that moving the 'Blue Water' company to Florida may be misinterpreted by the citizens of St. John; in fact, I have been asked a number of times why this move is being made.

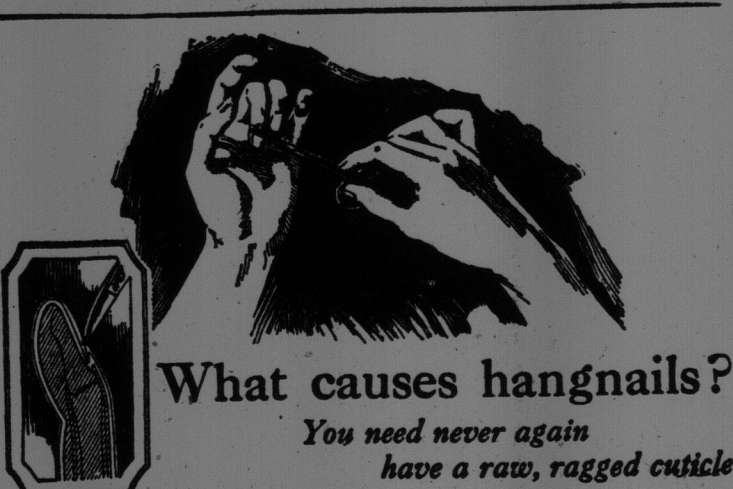

"I can only answer the above by saying that in at least twenty-five per cent of the pictures made in California it is necessary to transport the entire company engaged in the production to distant points in order to get proper locations. In a production of a recent picture I built a location at Leadville (Col.) at an expense of more than \$10,000 and transported my company and staff from Los Angeles to the Leadville location simply because the particular scene required scenery which was not obtainable at Los Angeles. In Mr. Wallace's story, 'Blue Water,' I have written episodes which require southern atmosphere and which could not be obtained except in and about Tampa (Fla.).

"This is no reflection on the weather conditions in St. John any more than if an elevated railway were necessary and I was obliged to move the company to New York or Chicago to secure it. I found excellent locations and atmosphere in and about St. John for the proper pictorialization of 'Blue Water' and this city will be referred to in the sub-titles to such extent that it will receive world-wide publicity.

"I sincerely hope that it will be my privilege to return to St. John in the near future to produce another picture."

COUNTY COUNCIL FINANCE MATTERS

The finance committee of the municipal council, in session yesterday afternoon, heard a petition from residents of Simonds for sewers. The matter was referred to the councilors from Simonds for a report.

What causes hangnails?
You need never again
have a raw, ragged cuticle

AUTHORITIES agree that hangnails are caused either by neglect or by wrong methods of care. If neglected, the cuticle will grow fast to the nail. As the nail pushes forward, the cuticle stretches until it can stretch no more. Then it splits—and you have a hangnail. Or, if you cut the cuticle with knife or scissors, you are likely to pierce through to the nail root and then you get the same result.

To prevent hangnails, therefore, you must constantly detach the cuticle from the nail—but you must do this without cutting or breaking it, or you will have hangnails just as surely as if you neglected it.

Cutex Cuticle Remover will soften the cuticle, gently loosen it from the nail and take off all hard, dry edges. If you will begin to use Cutex regularly, you will never again have hangnails. Your very first trial will leave your nail rims smooth and even. You will also find Cutex an excellent nail bleach.

WIFE TAKING DRECO

Halifax Man Tells of His Wife's Wonderful Improvement Since Taking the New Herbal Remedy.

Richard Riggs, Purcells Cove, Halifax county, N. S., read about Dreco in the local papers. His wife was in a run-down condition and he determined to try the new herbal medicine. He writes us as follows:

"My wife has been sick since last Christmas Eve. No medicine did her any good. She tried everything for her stomach. She was nervous all the time and could not sleep at night. Gas would form in her stomach after every meal. She had a burning headache most of the time and nothing did her any good until she tried Dreco one week ago. Before she had finished taking the first bottle she was greatly improved, and we are glad to recommend it to all our friends."

It seems every doubt should be removed by now as to whether or not Dreco does what is claimed for it. So many people right in our midst have put it to a test and then speak out publicly and declare it to be the most wonderful medicine they ever took. That is the most convincing testimonial which can be offered by anyone.

Dreco is a liquid extract of roots, herbs, barks and leaves known for their effective action on the vital organs to restore their normal action. Dreco is pleasant to take and prompt to act.

Go today to Ross Drug Co. and ask for Mr. Ranson, the Dreco expert, and let him explain the merits of this great remedy. There is no charge and he will tell you honestly if he believes Dreco will benefit you.

Dreco is also sold in Moncton by Geo. O. Spencer.

posed by Councillor Thornton. He said that the changes would mean altering part of the present heating system and he thought the season was too far advanced for the work at present.

The matter of sanctioning the issue of bonds for the erection of a fire station in Fairville was also approved and will be recommended to the council at its meeting on Nov. 3.

START ON RED CROSS CAMPAIGN

Membership Committee Begin Canvass for Membership — Men's Committee Named.

Today saw the opening of the Red Cross membership campaign all over the city. The general convener, Mrs. Frank S. White, was at headquarters in Prince William street and was assisted by Mrs. James F. Robertson.
